Certified Organic cotton & 100 Bamboo Fabric

Fabrics : Non-Organic fabric of Cotton, Satin, Polyester and spandex (stretchable) fabrics also available.

Certified Organic cotton, viscose, bamboo lycra & 100% Bamboo woven Fabric

## Organic clothing

Organic cotton does not involve the use of chemicals, it causes fewer allergies. Organic cotton apparel also reduces respiratory problems and smells pleasant. Organic cotton is eco-friendly as it reduces pollution of ground water, prevents soil erosion and promotes biodiversity. It also helps to minimize the greenhouse effect and global warming through its ability to trap carbon in the soil.

***Do your bit for your environment, choose quality over quantity. Healthier life for you ..healthier life for the planet***

# Some fact of Bamboo

It is a natural cellulosic fibre, can naturally degrade in soil, pollution-free to environment after decomposing, so it is a kind of natural, green and environmental protection type textile raw material.

This fabric has good hygroscopicity , moisture liberation and gas permeability; feeling soft, good drapability, easy to tint age , dye beautiful in color, has natural antibiotic, bacteriostatic finish and ultraviolet resistant functions.

Moisture Wicking- bamboo fabric absorbs moisture from your skin, keeping you drier and fresher and odour free.

Antibacterial - Bacteria doesn't live well in this fabric. So it doesn't get smelly even after several days, unlike synthetic fabrics.

UV Protection - Arguably it cuts out 97.5% of harmful UV rays, so perfect for when you go for holiday/travelling in the sunny weather.

Super Soft - Bamboo is to cotton what cashmere is to wool, the softness of the fabric makes it fall perfectly on the skin and with no irritation and a soft light feel

Sensitive - For sensitive or allergy prone skin, bamboo is perfect. It's also anti-fungal. Specially for people with sensitive or easily irritable skin.

Thermo-control – Bamboo fabric is made up of hollow microfiber (like wool), yet it is also breathable. This quality of the unique fabric makes it warm in winters and cool in summer. Hence ideal in all temperatures.

Anti-static – Another interesting fact about Bamboo fabric, it sits very well next to your skin, not clinging to it.

# Comparison between Cotton and eco friendly Bamboo

QUALITY	COTTON	BAMBOO	COMMENTS
Strong Abrasion Resistance			Both are very abrasion resistant
Strength			Both are strong
Absorbency	100%	300 %	Bamboo is 300% more absorbent than cotton
Hypoallergenic			Both fabrics are hypoallergenic
Machine-washable			Bamboo will retain its structural integrity after multiple washings
Machine-dryable		X	Not recommended for Bamboo
Resiliency	X		Bamboo is very resilient
Luster	X		Bamboo is naturally lustrous
Elasticity	X		Bamboo has much more elasticity than cotton
Pesticide-free crop	X		Bamboo grows without need for pesticides or fertilizer
UV Protected	X		Bamboo naturally blocks UV rays
Antibacterial	X		Cotton is not anti-bacterial
Insulation	X		Cotton fabrics when wet lose their insulating qualities
Moisture Wicking	X		Cotton fabrics cannot wick
