The best way to make a contribution in fashion is to promote the idea that a fundamental interest in preserving the environment is itself fashionable.

Giorgio Armani

Inspiration for the Collection

YIN YANG

Watching the deprecation and the slow deterioration of the world's resources a vehicle was launched by the name of Hara Design which believes in giving back to the environment. A collection was designed deriving inspiration from the philosophy of Yin Yang which symbolizes complete balance and equilibrium. The outer circle represents “everything”, while the black and white shapes within the circle represent interaction of two energies, called “yin” (black) “yang” (white), which cause everything to happen. They are not completely black or white just as the things in life, and they cannot exist without each other.

The Collection

With the upcoming awareness about health and fitness in our daily lifestyle and also about the slow decline of global resources, we aimed at launching a line which would benefit both factors. Therefore, an Organic Yoga Collection was put together providing the most natural way of clothing, gratifying the people who want to keep healthy and desire a clean healthy environment.

Hara Organic Cotton and Bamboo Collection

HYT-500

Why Choose us:

We are amongst one of the leading manufacturers, traders, exporters and suppliers of a comprehensive assortment of Yoga Wear. Designed using the finest grade fabric and the latest technology, these are fabricated in compliance with international quality standards. Widely known among clients for their unmatched stitching, stylish appeal and color fastness, these can also be customized as per the customer's specifications.

Features:

Stylish appeal

Excellent stitching

Unique color combination

Organic cotton, bamboo lycra & 100% Bamboo woven fabric used.

BAMBOO FACTS

It is a natural cellulosic fibre, can naturally degrade in soil, pollution-free to environment after decomposing, hence it is natural, green and environmental friendly textile raw material.

This fabric has good hygroscopicity , moisture wicking and gas permeability; feeling soft, good drapability, easy to tint age , dye beautiful in color, has natural antibiotic, bacteriostatic finish and ultraviolet resistant qualities.

Moisture Wicking- Bamboo fabric absorbs moisture from your skin, keeping you drier and fresher and odour free.

Antibacterial - Bacteria doesn't live well in this fabric. So it doesn't get smelly even after several days, unlike synthetic fabrics.

UV Protection - Arguably it cuts out 97.5% of harmful UV rays, so perfect for when you go for holiday/travelling in the sunny weather.

Super Soft - Bamboo is to cotton what cashmere is to wool, the softness of the fabric makes it fall perfectly on the skin and with no irritation and a soft light feel.

Sensitive - For sensitive or allergy prone skin, bamboo is perfect. It's also anti-fungal. Specially for people with sensitive or easily irritable skin.

Thermo-control – Bamboo fabric is made up of hollow microfiber (like wool), yet it is also breathable. This quality of the unique fabric makes it warm in winters and cool in summers. Hence ideal in all temperatures.

Anti-static – Another interesting fact about Bamboo fabric, it sits very well next to your skin, not clinging to it.

ORGANIC CLOTHES – FOR YOU & FOR OUR PLANET

Organic cotton does not involve the use of chemicals, it causes fewer allergies. Organic cotton apparel also reduces respiratory problems and smells pleasant.

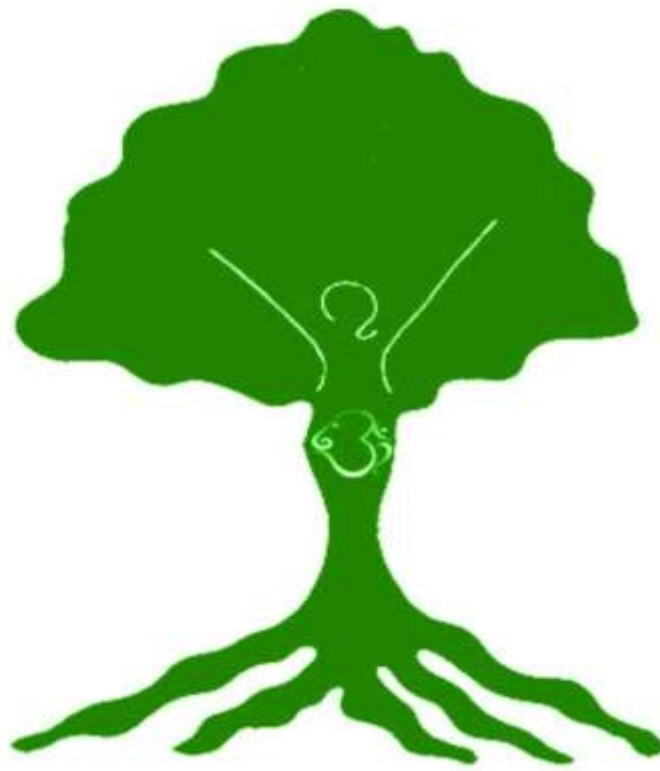

Organic cotton is eco-friendly as it reduces pollution of ground water, prevents soil erosion and promotes biodiversity. It also helps to minimize the greenhouse effect and global warming through its ability to trap carbon in the soil.

Do your bit for your environment, choose quality over quantity.
Healthier life for you ..healthier life for the planet.

Comparison between Cotton and Bamboo/Organic

QUALITY	COTTON	BAMBOO	COMMENTS
Strong Abrasion Resistance			Both are very abrasion resistant
Strength			Both are strong
Absorbency	100%	300 %	Bamboo is 300% more absorbent than cotton
Hypoallergenic			Both fabrics are hypoallergenic
Machine-washable			Bamboo will retain it's structural integrity after multiple washings
Machine-dryable		X	Not recommended for Bamboo
Resiliency	X		Bamboo is very resilient
Luster	X		Bamboo is naturally lustrous
Elasticity	X		Bamboo has much more elasticity than cotton
Pesticide-free crop	X		Bamboo grows without need for pesticides or fertilizer
UV Protected	X		Bamboo is naturally blocks UV rays
Antibacterial	X		Cotton is not anti-bacterial
Insulation	X		Cotton fabrics when wet lose their insulating qualities
Moisture Wicking	X		Cotton fabrics cannot wick
