ABOUT US

PADARSH PHARMACEUTICALS PVT. LTD.

Padarsh Pharmaceuticals Pvt. Ltd. is a reputed Manufacturer and Supplier of Aluminum Hydroxide Gel and Magnesium Hydroxide Paste that are used as active pharmaceutical ingredients (API) in the manufacture of Antacids & Laxatives. Our premium quality products and services have carved a niche in the Pharmaceutical market in India. International companies have audited our facilities and certified them as world class facilities with GMP. Further, our team of experts keeps an eye on the changing tastes and requirements of clients to make sure they get exactly what they want.

We are a Mumbai (Maharashtra) based company entered the market with a view to especially meet the requirements of Pharmaceutical Industry. We have adopted certain rules for ourselves that helped us in marking our foothold in hearts of clients and domestic market.

AIM

The team of Padarsh Pharmaceuticals Pvt. Ltd aims to provide complete support to our buyers queries and its dedication is shown through critical time business decisions.

WHY US?

- We account for over 75% of the consumption of these APIs in India & Pakistan
- Our first plant was commissioned on 1st January 1994
- We furnish Drug Master File and Material Safety Data Sheet for the bulk drugs to facilitate our buyers to maintain their standards and the compliance level for the finished formulation product
- We have a merchant export & trading license granted to us by the Food & Drug Administration. Under this license we do merchant exports of Pharma and Surgical products. The manufacturers of these goods are WHO approved facilities

CUSTOMER SATISFACTION

We are client-oriented firm, and thus rendering maximum satisfaction to clients is our ultimate goal. To achieve this goal, we always make sure that our products are made using the high quality ingredients that are free from added preservatives. Moreover, we meet the stipulated time frame

OUR PRODUCTS

PADARSH PHARMACEUTICALS PVT. LTD.

ALUMINIUM HYDROXIDE GEL

Business Type : Manufacturer, Exporter, Supplier, Retailer

We are engaged in manufacturing and supplying top class Aluminium Hydroxide Gel. Our Aluminium Hydroxide Gel is fundamentally used as an antacid/laxative for oral consumption and for manufacturing lake colours. It is manufactured in the dry as well as wet form. The dry form is used for making tablets and the wet form is used for making liquid orals such as Mylanta gel and other popular over the counter brands. We are manufacturing the wet product for the gels and are the leading manufacturers for the same in India. Our major clients for this Aluminium Hydroxide Gel include leading American and European companies.

In the international market, there are two popular spaces namely the US pharmacopeias (USP) and the British pharmacopeias (BP). We are in a position to comply with both and are supplying this specification to various customers in India for their export requirements.
