

Biosash

Bringing you the Miracle of nature - Seabuckthorn

ABOUT US

Under the guidance of our Marketing Director, **Mr. Arjun Khanna**, Biosash maintains complete transparency in the trade agreements and practices with the local harvesters. Our way of functioning testifies our reputation of being the largest Exporters of Seabuckthorn and Taashi products in Faridabad (Haryana) India.

QUALITY POLICY

Our products contain Seabuckthorn "the miracle berry" which contains a wide range of nutrients for your body and skin. We are the largest Manufacturer of Seabuckthorn based products in India. Seabuckthorn is designed by nature to provide advanced restorative skin care from within by addressing both internal and external ageing factors. This ancient berry has a written history focusing on the ageing issues of health and beauty of more than 2000 years and has been used to treat and soothe damaged skin since ages. Heaven's Holy Fruit, the wonder berry from the Himalayas- wild seabuckthorn is known as nature's most balanced fruit. Seabuckthorn contains more than 190 biologically active compounds. Included in these 190 nutrients are Vitamins and minerals and Omega 3, 6, 7, and 9, 42 Lipids, Organic Acids, Amino Acids, Folic Acid, Tocopherols, Flavonoids and antioxidants. Omega 7 is very unique and seabuckthorn berries are the most abundant source of Omega 7 in the plant world. Omega 7 is a naturally occurring component of healthy skin that helps neutralize free radicals and aids the production of collagen, which begins to diminish with age. Seabuckthorn skincare products are natural powerful sunblocks for UVA & UVB sun rays. Our wild sea buckthorn berries are a sustainable resource growing wild in the Indian Himalayas. We have fair trade agreements and practices with our local harvesters, primarily women, to ensure fair compensation and complete respect.

INFRASTRUCTURE

We have a wide spread and well-established infrastructure of around 5000 sq.ft. Our R&D department, processing units and testing units are equipped with the most advanced technologies. With machinery worth 1 crore, our production capacity is 1000 MT per annum.

NETWORK

Offering superior quality Seabuckthorn products, we aim to reach the maximum number of clients. Our wide network covers domestic as well as international markets such as U.S.A., U.K., U.A.E., Hongkong and Malaysia.

OUR PRODUCTS

SEABUCKTHORN PULP

Seabuckthorn Pulp is rich in antioxidants like superoxide dismutase enzyme, vitamin c, e, carotenoids and flavonoids. (yang and kallio 2002) that is required for a healthy and beautiful body. Studies have proven that the vitamin c content of seabuckthorn is 4 – 100 fold higher than many other fruits or vegetables (lu rongsen 2003). Seabuckthorn fruit and leaves are a rich source of flavonoids. Flavonoids have been found to possess very strong antioxidant activity. It has been found that flavonoids improve the immunity of the body, lower the permeability of the capillary wall and prevent oxidation of Vitamin C, control arteriosclerosis, reducing cholesterol level, turning hyperthyroidism into euthyroidism and eliminating inflammation.

It is also been found effective against tumour and radiation damage. (In Mingyu et al 1998). Further, Carotenoids are a major source of Vitamin A. Carotenoids particularly B-Carotene and Cantaxathine act as anti-carcinogen and anti-swelling, therefore safeguard from some kinds of skin cancers. Seabuckthorn is therefore especially good for maintaining healthy skin.(Kertangi et al 1984). A number of studies have been carried out on the effects of flavonoids of Seabuckthorn on cardiovascular diseases, and reveal that they have a positive inotropic effect, improve cardiac performance, decrease peripheral resistance and do not increase heart rate.
