Lenora Disposables is a family owned business based in India which was established in the year 2012. After several years of hard work and dedication, the company has expanded its reach to the global market and become a renowned manufacturer and exporter. Lenora is the in-house brand of the company under which we are selling our range of Salon Safety Gloves, Black Long Shoe Cover, Disposable Pillow Cover, Compressed Rowel Towel, Herbal Liquid Hand Sanitizer, Face Mask and more. Using finest materials all these products are made with the aid of modern machines and methods. Global standards of quality are strictly followed throughout the process of manufacturing to meet the expectations of the national and international clients.

Why Choose Us?

- Our brand, Lenora holds great experience in the field of producing salon & spa supplies which have great demand in the market.
- The company has attained incredible reputation in national as well as international markets.
- We are associated with various reputed firms like Contec & Hand Doctor and trading their products in the market.
- Quality has always remained the focal point in our business operations and we never compromise with it.

Our Vision

Our vision is to develop & deliver safe products which are offered at nominal prices.

Our Mission

The company is working with the mission of providing totally safe & hygienic products to the customers which match industrial standards.

Ultra-modern Infrastructure

In New Delhi, India; we have built an ultra-modern infrastructure unit which is outfitted with modern equipment and tools enabling us to produce a flawless range of Black Long Shoe Cover, Compressed Rowel Towel, Disposable Pillow Cover, etc. To assure smooth business operations, we have segregated the infrastructure into various departments such as production, quality examination, quality checking, R&D, packaging, etc. All the activities in our firm are carried out in a systematic manner. The goods are manufactured under hygienic conditions to protect them from viruses and bacteria.
