National Cutting Tools, an ISO 9001:2000 certified company, greets you to its booming cosmos of industrial machines and tools. We being a pioneer entity are engaged in the manufacturing, supplying and exporting of Threading Machine, HSS Threading Tap, Scaffolding Machinery, Tangential Chaser, Rebar Coupler, Liquid Painting Plant. We are acknowledged as one of the celebrated manufacturers of India as we aim to deliver unmatched quality products, thus rendering absolute satisfaction to customers. Our leadership position in the market and our ability to perform well has enabled us to outpace many of our peers. We believe in innovation as a way of continuous improvement, thereby providing world-beating services to all our customers. Moreover, we have adopted high technological standards, which have enabled us to produce standardized quality products.

National Cutting Tools, incepted in the year 2003, is a global entity dealing in a wide range of industrial machines and also other related utilities. The CEO of our company, Ms. Pritpal Kaur, has made a great contribution in the success of our company with her strong-willed efforts. We supply our products in the national and international market under the brand name of NCT. We started our efforts few decades back, due to which we have carved a niche in this particular field. With the passage of time, we have successfully provided solutions for the specific tool requirements. We incessantly upgrade our skills and machineries, so as to keep pace with the fast technological advancements. We manufacture a wide range of industrial machinery such as Steel Bar Threading Machine, Bolt Threading Machine, and Hydraulic Hacksaw Machine and are also counted amid the famous Thread Roller Exporters from India.

◆ Quality Assurance

Quality concern is the driving force of our organization. We manufacture our products from good quality raw materials that are tested by our quality controllers and then used in production ensuring our customers the reliability of our final products. Further, the finished product produced, is cross checked ensuring efficiency and durability. In addition to this, we use excellent quality material for packaging and take utmost care to protect the tools and equipment from suffering any damage, thus ensuring the superb quality at every stage.

◆ Infrastructure

Our company has three advanced manufacturing units that are located strategically. We are equipped with avant-garde machineries and upgraded technology, which helps us in producing high precision tools and equipment. Also, our sound infrastructural base enables our qualified professionals to manufacture products at par with international norms. Moreover, our most of the revenues are spent on the up gradation of technology and on our Research and Development department that has enabled us in giving us an edge over our competitors.

◆ Clientele

Our customers are the most valuable asset of our organization. We believe in building strong and long-lasting relationships with our honored customers, located all over the world by delivering best quality industrial equipment and tools. Additionally, our customer centric approach has helped us in becoming one of the prominent global suppliers from India.
