Unison Engg. Industries is one of the acknowledged firms that are engaged in providing the finest quality mowers, tool kit, tools, and other equipment. We are a noteworthy manufacturer, exporter, and supplier of manual lawn mowers like super wheel type lawn mower, steel frame wheel type push mower, junior push mower, super cut push lawn mower, super 10 wheel type push mower, perfecta roller type lawn mower, mercury roller type push mower with ratchet, and golfer roller type push mower. These products are manufactured by our personnel at our well-structured infrastructural unit. Our distribution network is spread across the major industries of India, Europe, and South Africa. We sell these products to the customers at the best market leading prices.

Headquartered in Jalandhar (Punjab, India), Unison Engg. Industries is a name that is counted amongst the prominent firms that are engrossed in manufacturing, exporting, and supplying the premium quality mowers, tool kit, tools, and various other equipment. S.Kirpal Singh (Founder) is the diligent personality behind the establishment of our organization. He laid the foundation stone in the year 1965.

OUR WAREHOUSING UNIT

We store our products in varied sections at our warehousing unit. Our warehouse keepers ensure that the products are stored in a suitable environment at our warehousing unit.

LOGISTICS UNIT

We are backed by a well-trained logistics team that helps us in transporting the products to diverse locations within the stipulated timeframe. Our logistics department ensures that the products are transported safely and timely to our customers.
