NATURA AYUR SCIENCE PVT. LTD.

ABOUT US

Natura Ayur Science Pvt. Ltd. is a leading manufacturer of standardized botanical extracts, essential oils, oleoresins, etc. for personal care, nutrition and health industry. We are a corporate entity created and registered under the Companies Act 1956 and is located in Bangalore, India. Since the inception of Natura Ayur Science Pvt. Ltd. we believe that there is an efficient way of manufacturing products with the highest level of purity while using sustainable, eco-friendly practices. We have a team of dedicated scientists and management staff with over a decade of experience to provide cost effective and quality product. We explore and take inspiration from nature to produce standardized plant extracts and offer it to various industries that formulate beneficial products for the general market. We are a forerunner in producing standardized plant extracts, essential oils and oleoresins for health supplements, personal care, home care, cosmetics, finished formulations, food and beverage products. We also cater to industries requiring proprietary cosmeceutical blends and symbiotics. As the world shifts towards natural resources, we welcome this timely move with our various products from botanical source which are Halal and Kosher certified. We produce pharmaceutical-grade ingredients, aware that they will be used in the health care industry. Hence utmost care is taken to prepare nothing less than the best quality products as per industry standards.

● OUR JOURNEY

We took a stepping stone by initially establishing a small trading firm in the year 2006 which operated as sourcing and supplying natural produce from various parts of India. Our goal was not just to bring healthy and socially responsible goods to the market, but also to ensure that they benefit small and marginal farmers. Our vision is to provide a complete Herbal solution for healthy living.

As a trading company, we encountered multiple challenges. Not only did we need to ensure that natural farming was a financially feasible alternative for farmers, but we also needed to ensure that the resulting products adhered to strict international quality requirements.

Overcoming all obstacles and difficulties, we were able to successfully found our raw material sourcing business, which is currently known as Guru Kripa Agro Tech. Following this, the idea was to start producing standardized herbal extracts and endeavor to offer comprehensive solutions for healthy living; with this end in view, Natura was founded in 2012. As we understood the developments in the market and the needs of our customers it was necessary to update to meet both domestic and international market standards.

Natura Ayur Science Pvt. Ltd. was founded in 2023 with the intention of setting up our manufacturing facility for the production of herbal extract that satisfies regulatory requirements of the industry standards. The team is solely focused on creating premium-quality, in-house herbal products. The company was founded with a highly efficient staff for research and development, supply chain, production, and quality.
