MODULAR CLEAN ROOM

GI POWDER COATED CLEAN ROOMS

TRIO INDIA modular panels are made up of GPSP sheet having lock formed quality (LFQ), zero spangle with a zinc coating of 100-120gsm. The panels are In-Fill of Polyurethane foam (PUF/PIR), Honeycomb Paper Core or High Density Mineral wool.

TRIO INDIA modular panels are Pure Polyester Powder Coated to 60-80 microns and 15-25% gloss level with below properties

- Inert and non particle shedding
- Resistance to abrasion and chemicals
- Thermal and sound insulation
- Corrosion protection
- Smooth bump free surface
- Easy cleaning and maintenance
- Better UV protection

Panel Thickness: 44, 50, 60, 80, 100 mm as standard

Panel Height: Upto 3700 mm with provision of stacked panels for higher applications

Pre Punch Cutout: As per Requirement.

PRE-PAINTED GI CLEANROOMS

Pre-painted wall and ceiling panels are fabricated by using pre-painted GI sheets of 0.50 / 0.060 mm thickness. These are bonded on GI frame with an In-Fill of Polyurethane Foam (PUF/PIR) forming a rigid panel.

Standard thickness: 50 mm, 60 mm and 80 mm

Standard height: 3000 mm

Base Detail: C-Type base

Cutouts: At site cutouts of required sizes

METAL DOORS

TRIO INDIA is manufacturing Double Skin Metal Doors for Clean Rooms, Commercial Buildings fire rated doors for special applications.

TRIO INDIA manufactures the Metal Doors with Swing and Sliding constructions.

CLEAN ROOM DOOR

Clean Room Door is manufactured from galvanized/stainless steel sheets with lock formed edges. Insulated and bonded with Honeycomb Paper/Aluminium core, mineral wool or polyurethane foam forming a rigid flush fittings with innovative flush double glazed finished in Pure Polyester Powder coating of 60-80 microns forming a smooth surface finish.

INDUSTRIAL DOOR

Heavy duty industrial metal doorsteps are available in size up to 3000 mm wide and 3500 mm high. Doors are capable of accepting glazing in many configurations with air vents, louvers and a wide range of hardware. Doors are pure polyester powder coated to 60-80 microns forming a smooth surface finish.

ACOUSTIC DOOR

Acoustic Door is designed to reduce sound transmission between rooms and to provide sound privacy in any architectural environmental. TRIO INDIA offers acoustic door with special linings, seals and structurally bonded cores to achieve high level of sound reduction.

EMERGENCY DOORS

TRIO INDIA offers Emergency Doors with panic bar that provides emergency and fire escape exits.

FIRE RATED DOORS

TRIO INDIA offers Double Skin Steel Doors with High Density Mineral Wool as Infill having 2-Hour fire rating.

VISION PANELS/WINDOWS

The selection of vision panels is closely related to the classification of the cleanroom and function contained therein and is usually in correlation to the choice of window preferred within the partition.

TRIO INDIA offers Flush Vision Panels and Windows.

These vision panels can be single or double glazed, square, rectangular.

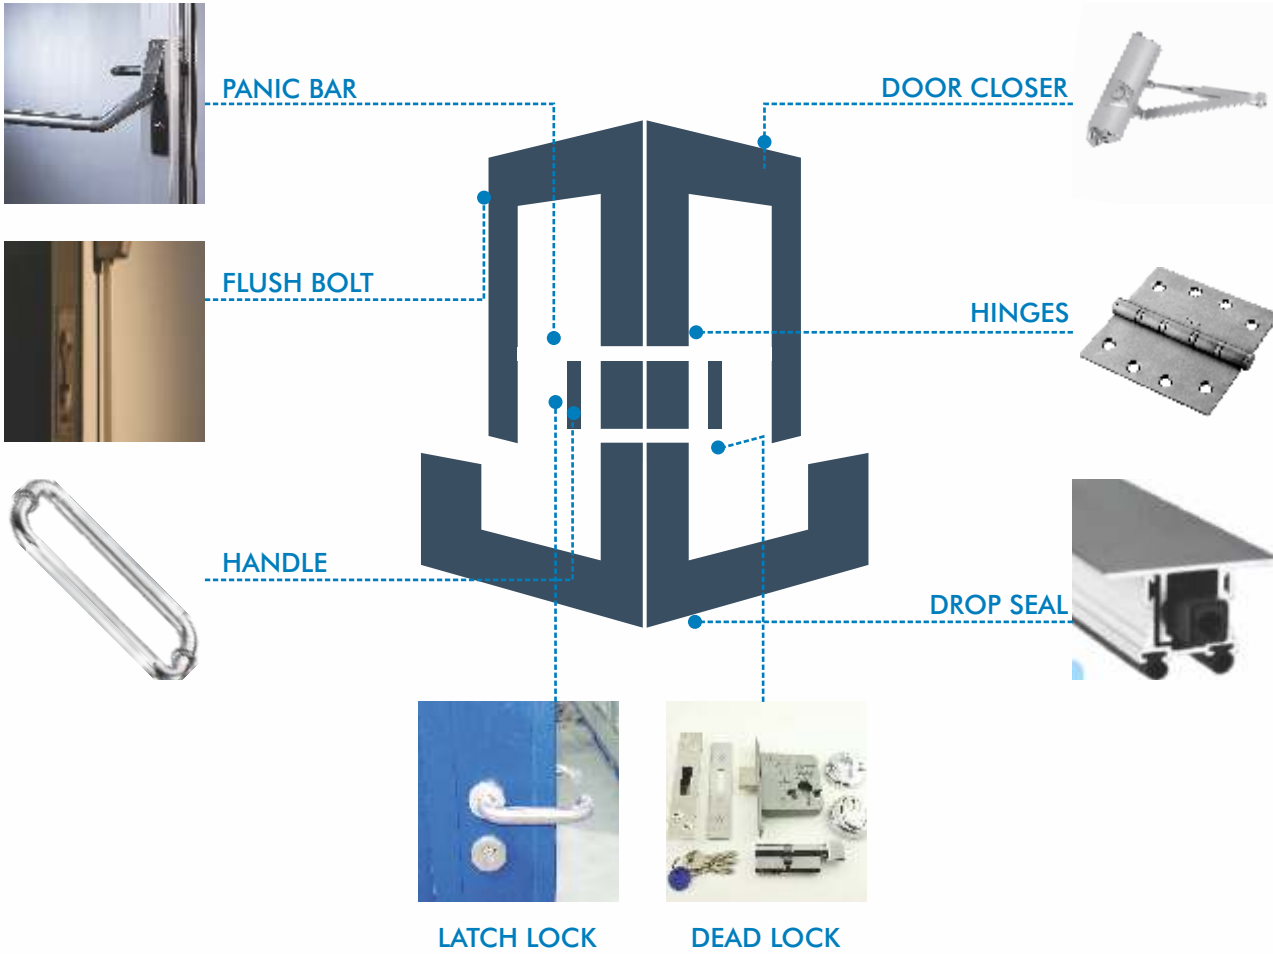

LOAD BEARING CEILING

The unique design of the ceiling allows the additional incorporating flush light fitting, air-conditioning filters, grills diffusers and other ceiling mounted equipment, all fitted within accurately CNC punched apertures. Its unique design enables the structure to stand free of any support (box within a box) from the existing building/structure.
