## Facilities

- ➔ Slaughter House : We have a spacious slaughterhouse where hygienic environment is maintained at all times.
- ➔ Processing Unit : We have one state-of-the-art processing unit endowed with the latest equipment and technologies. Here, clean meat and pack it in hygienic conditions. All manufacturing processes are carried out under expert supervision.
- ➔ Cold Storage Facility : It is among one of our prized assets and we take extra care to ensure it has blast freezers, plate freezers, pre-chilling rooms and chilling rooms. We have set up a spacious warehouse where all our products are stored in dry, cool, clean and hygienic environment.

## Packaging

Our Frozen Meat is securely packed for protection against chemical, physical and microbiological invasions. The products are contained in non-toxic packaging mediums such as master cartons and vacuum-sealed poly packs that protect the meat from oxidation and dehydration. The packaging mediums we use are great at maintaining products environment. All our products are securely packaged to endure warehousing, shifting, loading, transportation etc.
