Established in 2006, AMP Computer Services has carved a niche as a leading exporter, retailer, and service provider in the Indian automotive sector. Led by the visionary Mr. A.M. Pujari, the company boasts a rich history, dating back to 2004 when Mr. Pujari began servicing automotive equipment. Driven by innovation and a commitment to quality, AMP Tech, a subsidiary of AMP Computer Services, has risen to become India's largest manufacturer of 3D wheel alignment machines and other specialized equipment.

● **Pioneering Innovation and Expertise:**

First in India: AMP holds the distinction of introducing the first wheel alignment machine in the Indian market, paving the way for advanced automotive service practices.

Diversified Portfolio: The company offers a comprehensive range of products, including 3D wheel alignment machines, tyre changers, wheel repair machines, inflators, nitrogen generators, and more.

In-house R&D: AMP prioritizes internal innovation, boasting an indigenous R&D center capable of designing crucial components for its equipment.

Strategic Manufacturing: With strategically located facilities in Pune and Vijayapur, AMP ensures efficient production and distribution.

Commitment to Service: Beyond manufacturing, AMP provides comprehensive service and training programs, empowering customers to effectively utilize their equipment.

● **Vision and Reach:**

Driven by a clear vision to become a global leader in automotive equipment manufacturing, AMP has established a strong presence across India, with a satisfied customer base that speaks volumes about their commitment to quality and service.
