JAWALA POLY THREAD is growing at a steady rate, since its very inception in the year 1995. We are able to progress further under the due guidance of our eminent CEO, Mr. Arun Kumar Jain. We are among the prominent Cotton Embroidery Threads Manufacturers and Gold Embroidery Threads Suppliers in India. Our fine quality threads are durable and have ability to perform all kind of stitching works. They are supplied to various leading cloth producing companies like Gupta Exim, Koutons, Pioneer Embroidery, Malik International, Child Design EMD, Orient Craft, Aasai Creations and Sarita Handa. Our well-coordinated transportation network helps us in timely delivery of threads.

Infrastructure

Our up-to-date infrastructure is backed by a well-equipped production and packaging unit. The well-organized manufacturing unit has enabled our company to progress at a faster pace. Our production unit comprises of machines like electronic precision tubes, cone winders, carding machine, roving & combing machine, etc. that are highly advanced and thus help in the production of high quality threads.

Quality Assurance

The supreme quality of our threads has earned us high reputation among our clients. Our ISO 9001:2000 certification manifests our authenticity. Also, we have applied for Oeko-Tex Certification that will further strengthen our credibility.

Variety

We offer industrial threads made of different materials like polyester, cotton, nylon, etc. Also, our threads are manufactured in countless colors, you just name and we offer you that color. The ample variety of threads that we offer assures the impeccable as well as beautiful designing on garments.

Why Us?

Some of the key factors for which we remain ahead of the other market players are

- More than one decade of industry experience
- Use of high quality raw materials
- Well equipped infrastructure
- Stringent quality checks
- Modern warehousing and packaging facilities
- Timely delivery
- Competitive prices

Warehousing, Packaging & Timely Delivery

Our spacious warehousing facilities enables us to safely store both the raw materials and the threads. In addition, we also have packaging unit for meeting the packing needs of the end products. This is done using quality packaging materials, which ensures safety of the products during the transit period. Furthermore, our entire packaging process is conducted under the supervision of our experienced packaging personnel.

Apart from this, we have association with various transportation agents and logistic companies, which helps us in smooth and prompt delivery of our range. This ensures the timely delivery of our orders to the clients.
