

TECHNOPLAST

**Manufacturer of Plastic, Rubber,
Bakelite, DMC,
SMC molded components**

 9012676000

 www.technoplast.co.in

Year of
Establishment
1988

Technoplast was established in the year of 1988 at Amroha (Uttar Pradesh). The company has been operating worldwide with its unrivaled products like Plastics Injection Moulding, Silicon Rubber Product etc. The respected Partner of the company, has led us to add several feathers in our crown. Technoplast can manufacture any item according to customers specification and design. Today, we are counted among the foremost Brass Terminal Blocks Manufacturers and Suppliers in India.

Infrastructure

We have invested a reasonable capital in improving the infrastructure in our company. We are equipped with all the sophisticated machines which enable us to produce products of international quality standard. We have all the testing facilities to examine the quality of raw materials and also the final products.

Network

We have efficient internal and external networks to support us in carrying out the business without interruption. The business is not only spread in all over India but also it is also extended to several countries across the border. Due to our well-established network, we are able to offer the products within the stipulated time frame to the clients.

Client Satisfaction

We are reckoned for being a client centric company. With our strong vision and professionalism, we have created a huge client base in India. With our superior products and services, we are committed to attain maximum client satisfaction. Besides, owing to our transparent dealings and ethical business practices, we leave no stone unturned in fulfilling the exact requirements of the clients.

Quality Control

We are extremely conscious in maintaining the standard of quality. The raw materials are tested doubly before putting to the manufacturing unit. The highly experienced team of quality control keeps constant watch over the quality throughout the process starting from the designing to the final manufacture.
