ABOUT US

SERVO TECH (INDIA)
Trust of Hydraulics

Servo Tech (India), is cruising on its success path since 1998, by exporting, manufacturing, supplying and wholesaling wide gamut of Industrial Lifts and Equipment. Our deliverance of best quality products such as Hydraulic Scissors Lifts, Single Mast Aerial Platform Manufacturer and Double Mast Aerial Work Platform have gained us ISO 9001:2008 certification. We have achieved distinguished position in the market owing to high endurance, precise design, robust construction, corrosion resistant and high operational efficiency. Fabrication of our extensive products range is done by using modern manufacturing processes with advanced machinery. Our non-straggling approach towards quality production has outclassed us over our competitors in this domain.

Since our commencement, we have always been reckoned as pioneer in developing best infrastructure system for producing our broad chain of products. Our company has advanced manufacturing unit equipped with cutting edge technology and long production lines for fabrication of our products with ultimate precision. Quality, being the cardinal goal of our firm has motivated us to implement modern testing unit as per latest quality control norms. We have built spacious modern warehousing facility for effective material storage and defect free packaging of products. Prior to this, we have employed team of ardent professionals for ensuring unobstructed flow of production while ensuring maximal quality. Our tenacious business ethics have gained us estimable clients such as Bajaj Auto, Honda and L.G. Electronics.

We have been able to maintain stronghold in this domain under the competent guidance of our director Mr. Shailesh Kaushik. Our company has achieved remarkable growth rate through his excellent managing and marketing skills.
