Established in the year 1975, **Mass Polymers** is located in the city of Bangalore in Karnataka, India. We are the prominent Manufacturer, Supplier and Exporter of Plastic Products. Our range of products includes Plastic Extrusion Profiles and Plastic Beadings. We have been in this business since 1975. Under the competent leadership and guidance of our Advisor, Mr. Uday M. Chhatbar and Mr. Devang M. Chhatbar, we are scaling the heights of success.

Manufacturing Unit

Our unit is spread over an area of 20000 square feet and is well furnished with all the latest machinery and equipment. We have 9 extruders that are crucial for various operations of the unit. All types of quality plastics are used as the raw materials in our products. We have modern facilities for testing and R&D. We also have customized production facility. Our infrastructure is divided amidst various departments like production, Admin and Sales, etc.

Why Us?

We constantly upgrade and improve our resources and products to keep in pace with the changing market trends. The other factors which assisted us to carve a niche in the industry are :

- High quality Plastic Products
- Latest machines and equipment
- Diligent professionals
- Customization of products available
- Prompt delivery

Clientele

We strive hard to cater to the needs of diverse clients, who are spread all over the world like India, UAE, etc. The clients appreciate the high quality of our products. Our wide client base is an indication of our reliability and industry expertise. We ensure timely deliveries of our products so that our clients are not inconvenienced in any way. We have a huge client base in India and UAE.

Plastic Beedings

The Plastic Beedings that we offer are available in a wide range of colors, sizes and customised specifications. These Beadings are manufactured out of high quality Plastic (LDPE and PVC) which imparts them with strength and superior features. These Plastic Beedings are durable and so are used extensively for applications mentioned below. The prices and specifications vary from product to product.

Plastic Extrusion Profiles

Plastic Extrusion Profiles offer solution for various requirements. Plastic Extrusion Profiles are decustomised for particular application as required. We bring forth our wide range of Plastic Extrusion Profiles that is available in several specifications. These prices and specifications of these profiles vary from products to products.

Polycarbonate Diffuser

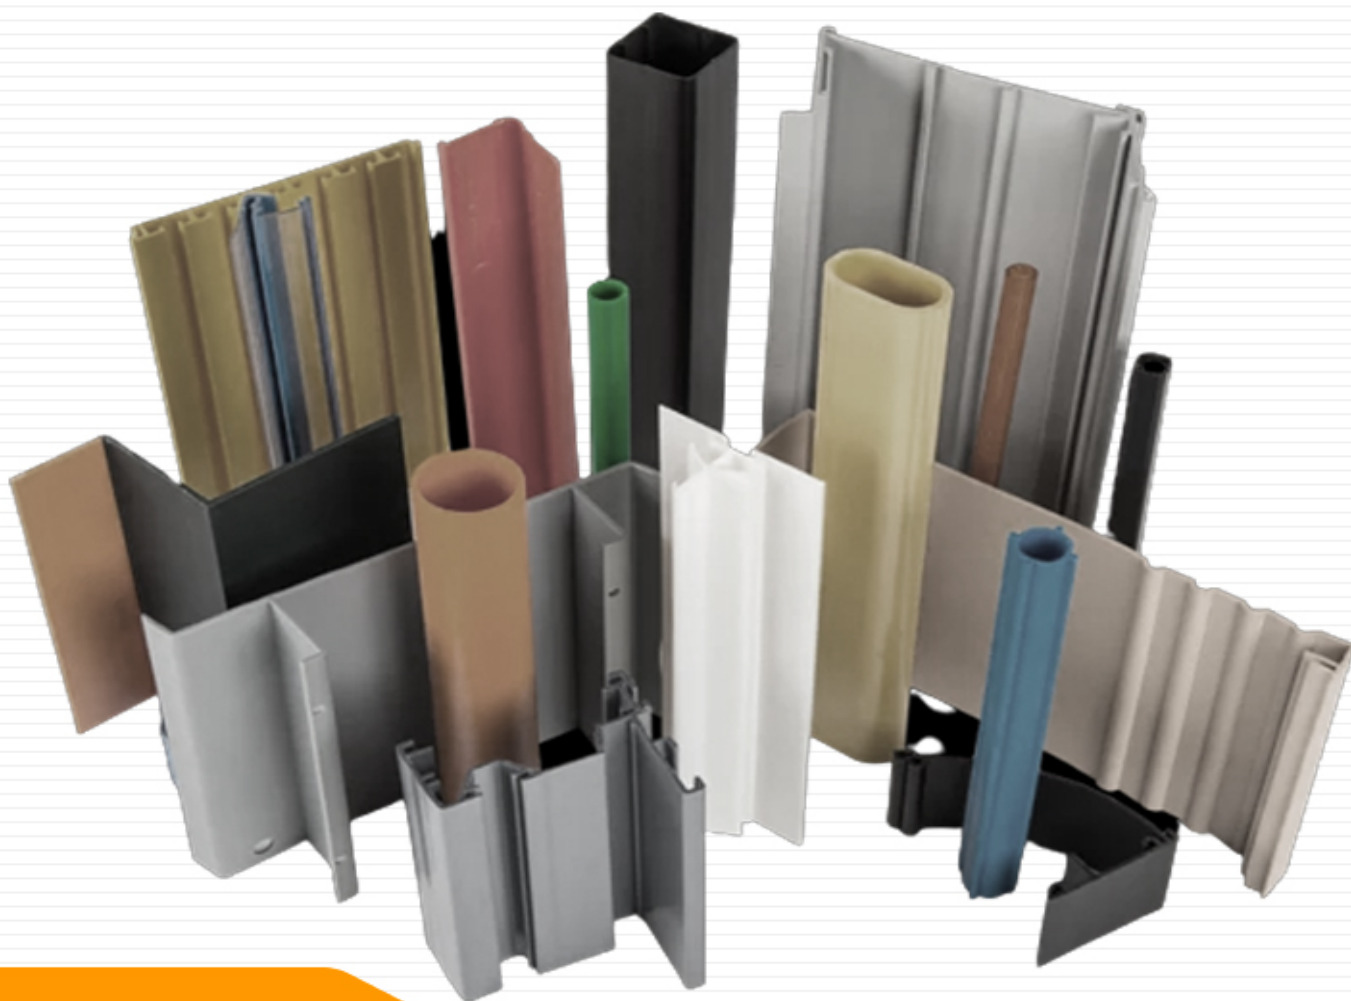

Mass Polymers India is Manufacturer, Exporter & Suppliers of Polycarbonate Diffuser for led light industries. Our Polycarbonate Diffuser are reliable and conform to the industry standards.

Face Mask Nose Wire
