ABOUT US

Established in the year 1992, Apco Chemicals Pvt. Ltd. has made its name as the prominent Textile Dyes Manufacturer and Supplier. We are led by the Director Mr. Pankaj Jain who, with his vast 20 years of experience and in-depth knowledge about the industry, has put in all his efforts to transform us into a dominant entity. The company is located at Meerut, Uttar Pradesh, India.

Infrastructure

We are backed by a robust infrastructure which is proficiently managed by our staff. Our manufacturing unit is spread in a vast area and is equipped with modern machines and tools that give way to a production capacity of 40 Mt per month. Our laboratory has R&D facilities and sophisticated equipment for manufacturing of quality products.

Network

We have a large network which is knitted around different countries of Asia-Pacific. It is primarily due to the strength of the network that we are able to have a reach even to the remotest of the markets. We remain well connected to the clients and vendors and provide timely deliveries.

Customer Satisfaction

Offering ultimate customer satisfaction to our clients is our main concern. In order to achieve this goal, we make sure that we offer premium Textile Dyes at the most economic prices. Feedback received from the clientsâ€” end is always welcomed for constant enhancement in the quality of the Textile Dyes as well as in services.

Our Product

Granular Sulphur Black Dye

We bring forth the finest quality Granular Sulphur Black Dye for our esteemed clients. Sulphur dyes are dyed from a dye bath containing Sodium Sulphide and common or Glaubers Salt, and are oxidized by airing or with some oxidizing agents (Sodium Bichromate or Hydrogen Peroxide) in a fresh bath. These Granular Sulphur Black Dyes find their use in a number of industries.

Used In

- Textile industry
- Paper industry
- Fiber industry
- Paint industry
- Packaging
- Std Packaging 25Kg in Drums bags/carton

Specifications

C.I No	: 53185
Synonyms	: 2,4-Dinitro-phenol sulfurised
Physical Appearance	: Flashing black flakes or granules
Strength	: 100% as the standard product
Insoluble matters when in the solution of sodium sulfide	: <0.3%
Free sulfur content	: <0.5%

Our Product

Liquid Sulphur Black Dye

Our clients can avail from us special quality Liquid Sulphur Black Dye. Compared with Solid Sulphur Dyes, liquid ones are characterized by vivid dyeing color, even dyeing, simple craftwork and use and stable quality. In addition, Liquid Sulphur Dyes are environment and human friendly, no harmful and carcinogenic substances are found in them. Comparing with the sulphur dye in powder, the liquid sulphur dye has more excellent osmosis, brightly painted, excellent equalizing, simplicity of operator, convenient to use. To get the best reducing state, stable and excellent color development effect, the course of production is controlled by strict technical rules; the reducer and dosage is filtered and calculated carefully. Our Liquid Sulphur Black Dye can be obtained at market leading prices.

Features

- Less dyeing time
- Convenient process
- Low cost

Used In

- Textile industry
- Paper industry
- Fiber industry
- Paint industry
- Wall Painting & Pulp Dyeing

Packaging

- Std Packaging 25Kg in Drums/bags/carton

Laboratory Evaluation & Analysis Report

C I Constitution Number	: 74180
Chemical Name	: Sodium Salt Of Mono And Disulphonated Copper Phthalocyanine Blue
Colour Index Number	: Direct Blue 86
Cas No.	: 1330 - 38 - 7
Physical Form	: Dark Reddish Blue Powder
Colour Tone	: Bright Greenish Blue
Powder Ph	: 8.5 To 10.5
Flash Point	: Not Applicable
Smell Of The Product	: Odourless
Solubility At Boiling Temperature	: > 50Gms. / Ltr.
Fastness Properties	: Light Fastness - 6 Washing Fastness - 2 Staining - 2
Dyeing	: Cellulose Silk & Wool Dyed Slightly Lighter Than Cotton
Printing	: Cellulose By Urea Process
Contents Which Are More Than ½% With Cas No.	: Than ½% With Cas No. Sodium Chloride 7647 - 14 - 5 Moisture (Water) 7732 - 18 - 5 Dedusting Oil 8012 - 95 - 1
Molecular Formula	: C ₃₂ H ₁₆ N ₈ S ₂ O ₆ CuNa ₂
Insolubles	: < 1%
