METAL DETECTORS

Door Frame Metal Detector

Door Frame Metal Detector (Dual Zone)

Our Metscan Auto Set DFMD Range of walk through metal detectors are designed to detect both ferrous & non ferrous metals concealed on a person in any possible manner including metals concealed in ferrite containers. The search coil & control modules are housed in aesthetically designed door frames which easily merge in to any aristocratic/sophisticated décor. Components of the highest quality have been employed throughout the process of assembly. Plug in card system has been

employed for ease of servicing & minimum down-time. Our metal detectors are backed by a team of topnotch service technicians specially trained for quick service ever required throughout the country.

Door Frame Metal Detector (Auto tune)

We are the prominent Manufacturer and Supplier of Door Frame Metal Detector (Auto tune) from Delhi (India). Fabricated in accordance with the international quality standards, our Single Zone Walk Through Metal Detector detects hidden ferrous and non-ferrous metals on the body of a person. Quick installation, LED based 10 step bar graph indication and automatic zero adjustment are the highlights of our Door Frame Metal Detector (Auto tune).
