About Us

Harini Engineering is a distinguished name in the realm of mechanical engineering solutions, renowned for its steadfast commitment to quality, innovation, and customer satisfaction. Since our inception in 2010, under the visionary leadership of Mr. A. Gnanasekaran, we have continuously evolved and expanded our horizons to emerge as a leading manufacturer, supplier, and exporter of a comprehensive range of mechanical seals and related components.

Cutting-edge Technology

Situated in Tirupur, Tamil Nadu, our state-of-the-art manufacturing facilities boast cutting-edge technology and advanced machinery, enabling us to deliver products of unmatched precision and excellence. Our core product line includes mechanical seals, replacement seals, silicon carbide seals, tungsten carbide seals, and a plethora of other mechanical components essential for various industrial applications.

Customer Satisfaction

At Harini Engineering, we take immense pride in our relentless pursuit of excellence and unwavering commitment to customer satisfaction. We understand the diverse needs and requirements of our clients and strive to tailor our solutions accordingly. Whether it's designing custom seals for specific applications or providing technical assistance and support, we go above and beyond to exceed expectations and deliver unparalleled value to our customers.

Extensive Range

Our product range encompasses a wide spectrum of industrial components, including silicone gaskets, industrial seal rings, industrial bushes, diaphragms, HCL pump bellow seals, carbon seals, mechanical shafts, single-type mechanical shaft seals, silicone O-rings, EPDM rubber seats for butterfly valves, and tube heat exchangers. Each product is meticulously crafted with precision engineering and superior quality materials to ensure optimal performance, durability, and reliability in the most demanding environments.
