

DAS ELECTRONICS

RELIABLE METAL DETECTION SOLUTIONS...

X-RAY MACHINE

Applications:

- Food production line (Dry product/frozen /vacuum pack)
- Cans/bottles inspection system
- Bulk products(Dry/liquid)
- Missing product/ damage product/ faulty sealing

INDUSTRIAL METAL DETECTOR

Applications:

- Rubber Industry
- Paper Industry
- Stone Crusher Industry
- Cement Industry
- Power Plants

FERROUS IN FOIL METAL DETECTOR

Applications:

- Ready to eat food
- Aluminium Packed food
- Food processing Industry
- Detects ferrous metal in metallised (Aluminium) film packaging.
- Ideal for Food processing (Ready to eat), Dairy, Packaging Industries, Spices Industries.

INCLINED STAND

Application

- Food products
- Package goods

NEEDLE DETECTOR

Specialties

- Very high sensitivity
- Audio and visual indication on needle detection
- Automatic balancing
- Dual channel operations
- Made of mild
- Longer functional life
- CE Mark

Applications

- All Types of Garment industry
- Home Furnishing/ carpet Industry
- Toy Industry

PHARMA METAL DETECTOR

Application

- Metal detection in tablets & capsules

GRAVITY FEED METAL DETECTOR

We are actively engaged in providing high-quality Gravity Feed Metal Detector to clients. It is made using sophisticated technology and high-grade raw material. Gravity Feed Metal Detector gives excellent performance and has a long functional life. Moreover, it requires low maintenance and promises high efficiency. Gravity Feed Metal Detector is ideal for powder, granules, grains, pulses, spices, etc.

Attributes :

- Customized (Tailor made) aperture sizes are available
- Very high sensitivity
- According to HACCP, GMP and FDA standard
- Audio and visual indication on metal detection
- Product effect compensation
- Different models are available according to application

BOTTLE METAL DETECTOR

We are an eminent Manufacturer, Supplier and Exporter of Bottle Metal Detectors. The Bottle Metal Detectors offered by us are used in food processing unit, dairy industry, packaging industry, spice industry etc. In order to meet the bulk and urgent requirements of the buyers, we maintain a large stock of the Detectors in our state-of-the-art warehouse.

Highlight :

- Customized (Tailor made) aperture sizes are available
- Very high sensitivity
- According to HACCP, GMP and FDA standard
- Audio and visual indication on metal detection
- Product effect compensation
- Different models are available according to application
- Model-FMD (Ferrous Metal Detection)-Detects Ferrous metal in metallised (aluminium) film packaging

PIPELINE METAL DETECTOR

- Juices & Beverages
- Industrial chemicals

COMBO METAL DETECTOR AND DEDUSTER

Application

Metal detection & dedusting of tablets & capsules in pharma industry
