BENEFITS
**IMPROVES SOIL FERTILITY,
ENHANCES PLANT GROWTH**

MIN. ORDER QUANTITY
100 BAGS

Clients can avail highly productive Vermicompost Manure from us. Vermicompost Manure is the product of composting using various worms, usually red wigglers, white worms, and other earthworms to create a heterogeneous mixture of decomposing vegetable or food waste, bedding materials, and vermicast. Vermicompost Manure is more productive manure than inorganic manure. The Vermicompost Manure is very easy to use as it is in powder form.

EFFECTS**

MIN. ORDER QUANTITY
10 MT

Bone Meal Powder is also known as Bone Meal and Ground Bones. We are engaged in offering Bone Meal Powder. Bone Meal is an organic fertilizer that is derived from the meat processing industry. Animal bones are cooked and then ground and packaged, then sold as a slow-release fertilizer that offers a good amount of p2o5. The N-P ratio of Bone Meal Powder is generally 1-20, though some steamed bone meals have N-P-Ks of 1-20-0.

PRODUCT

CRUSHED BONE MEAL

COUNTRY OF ORIGIN
INDIA

USAGE
GARDENING, FERTILIZER

CULTIVATION
NATURAL

PH LEVEL
NEUTRAL

TEXTURE
POWDER

SUITABLE FOR
VEGETABLES, FLOWERS

Crushed bone meal is a natural, slow-release organic fertilizer made from finely ground animal bones, rich in phosphorus (for roots/flowers) and calcium (for cell strength). It's used in gardening to promote strong roots, flowering, and fruiting, especially for bulbs and roses, and can also be used as a protein/mineral supplement in animal feed. It's an eco-friendly alternative to synthetic fertilizers, nourishing plants gradually without risk of "burning" them..

PRODUCT

DICALCIUM PHOSPHATE FOR FERTILIZER

BUSINESS TYPE

MANUFACTURER, EXPORTER, SUPPLIER
