Incorporated in the year 2011, Shivam Agro Industries is located in Mehsana (Gujarat). The firm is successfully running under the guidance of Mr. Anil Patel (Partner). Owing to his matchless domain expertise, excellent R&D Team and advanced manufacturing unit in Gujarat, we are capable of bringing forth excellent products that comply with the global quality guidelines and norms.

## Facilities

We are sprawled over a large area and we have compartmentalized our infrastructure into various units that includes :

- R&D Unit
- Manufacturing Unit
- Storage Unit
- Logistics Unit
- Procuring Unit
- Testing Unit
- Packaging Unit

## Our Team "Our Strength"

Our team comprises of adroit team members; they are the backbone of the firm. Our team works 24×7 with full dedication to deliver the best products and to achieve full customer satisfaction.

Our team has:

- Procuring Managers
- Skilled Workers
- Quality Inspectors
- Packaging Experts
- R&D Experts
- Chemical Engineers
- Marketing and Sales Executives
- Logisticians

## Why Prefer Us?

Owing to several factors that benefit the customers and in turn improve our performance, we are established as one of the high-flying names in the industry. The factors that count are :

- State-of-the-art infrastructure
- Quality range of products
- Competitive prices
- Sound industry knowledge
- Team of experts
- Customization
- Wide distribution networks
- Stringent check on manufacturing process
- Timely delivery of consignments
- Shipment Mode: By Road

## EDTA Chemicals

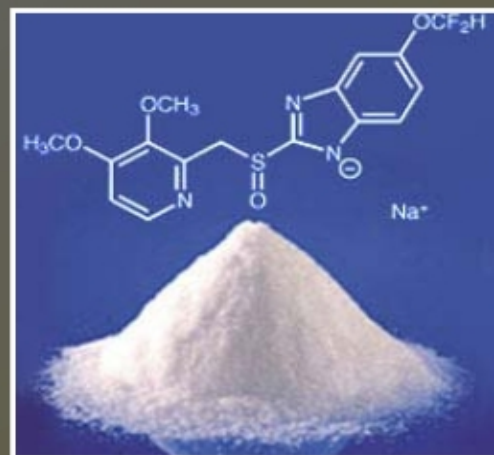

We are counted among reliable Manufacturers and Suppliers of EDTA Chemicals such as EDTA Acid, EDTA Tetrasodium, EDTA Copper, EDTA Magnesium and many more. Buyers can purchase EDTA Chemicals from us in varied grades, as we process a wide variety of it at our production facility. We can provide EDTA Chemicals in bulk any time of the year. Buyers can purchase EDTA Chemicals from us at competitive prices. We guarantee our EDTA Chemicals are of accurate pH and have a balanced composition.

## EDTA Acid

We are renowned as responsive and responsible Manufacturers and Suppliers of EDTA Acid in Gujarat, India. We subject it to purification processes at our state-of-the-art production plant. 100% pure and compositionally stable, our EDTA Acid is suitable for various industrial applications. Interested buyers can get EDTA Acid from us in customized packaging in varied mesh sizes. We provide it at market leading prices.

### Specifications

Physical Form	Powder
Colour	White
Molecular Weight	292
Assay	99%
PH	2-3
Chelation Value	330 mg CaCo3 / g

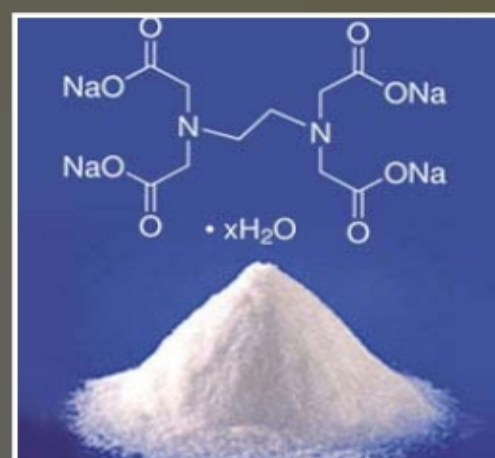

## EDTA Tetrasodium

We are one of the eminent Manufacturers and Suppliers of EDTA Tetrasodium in Gujarat, India. Formulated using high-performance equipment and processed at our state-of-the-art processing unit, our EDTA Tetrasodium is 100% pure and compositionally stable. Interested buyers can get it from us at market leading prices and expect on time delivery of consignments. Interested buyers can get EDTA Tetrasodium from us at competitive prices.

### Specifications

Physical Form	Powder
Colour	White
Molecular Weight	452
Assay	98% - 99%
PH	10-11
Chelation Value	230 mg CaCo3 / g

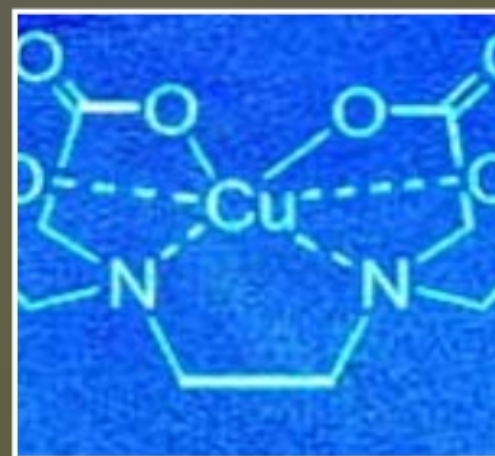

## EDTA Copper

We are ranked among reputed Manufacturers and Suppliers of EDTA Copper in Gujarat, India. Our company is engaged in providing superior-grade, fresh and pure EDTA Copper at market leading prices. Buyers can rest assured that our EDTA Copper is highly potent and compositionally balanced. We make it available in bulk and provide customized packaging solutions as well. We provide EDTA Copper in chemical grade packaging.

### Specifications

Physical Form	Powder
Color	Light Blue
Molecular Weight	397.7
Assay	98%
PH	4-5%
Minimum Metal Content	12%

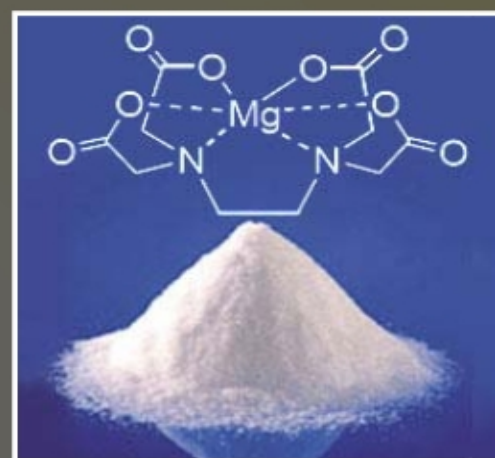

## EDTA Magnesium

As a well-reckoned immunity booster, the EDTA Magnesium is a wonderful chemical. Used for various industrial purposes, the EDTA Magnesium is a versatile product. Our company is counted among well-established Manufacturers and Suppliers of EDTA Magnesium in Gujarat, India. We can provide it in bulk and make on time delivery. Buyers can purchase EDTA Magnesium from us in chemical grade packaging. We can offer customized packaging solutions as well.

### Specifications

Physical Form	Powder
Color	White
Molecular Weight	358.5
Assay	98%
PH	5-6
Minimum Metal Content	6%

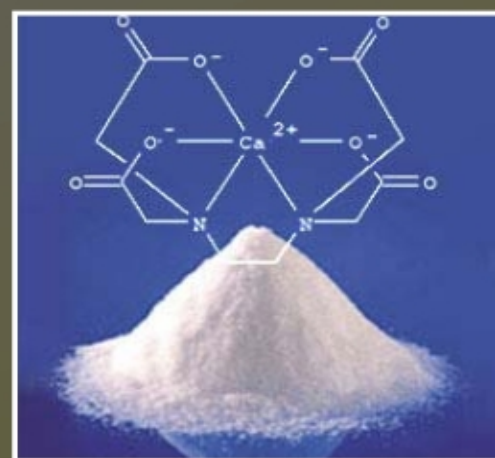

## EDTA Calcium

We are counted among responsive and responsible Manufacturers and Suppliers of EDTA Calcium in Gujarat, India. Available with us in bulk, our EDTA Calcium is versatile and used in various industries. We offer it as per requirements of customers. We provide it in chemical-grade packaging that keeps it safe from moisture and contamination.

### Specifications

Physical Form	Powder
Color	White
Molecular Weight	374.27
Assay	98%
PH	5-6
Minimum Metal Content	10%

## EDTA Ferric

Buy effective and reliable EDTA Ferric from us at market leading prices. Our company is one of the eminent Manufacturers and Suppliers of premium EDTA Ferric in Gujarat, India. Available in varied grades, the EDTA Ferric can be custom packed as per required specifications of buyers. We can provide EDTA Ferric in bulk and make timely delivery of consignments.

### Specifications

Physical Form	Powder
Colour	Yellow / Mahendi Green
Molecular Weight	367
Assay	98%
PH	4-5
Minimum Metal Content	12%

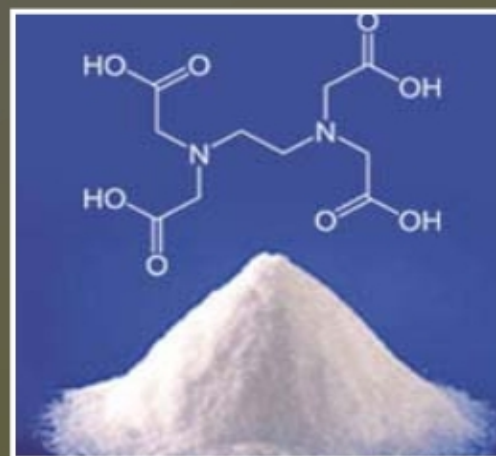

## EDTA Disodium

We are one of the responsive and responsible Manufacturers and Suppliers of EDTA Disodium in Gujarat, India. It is a white powder used extensively in various industries. We produce EDTA Disodium using premium ingredients at our ultramodern facility. Interested buyers can purchase EDTA Disodium from us in bulk at market leading prices.

### Specifications

Physical Form	Powder
Colour	White
Molecular Weight	372
Assay	99%
PH	4-5
Chelation Value	272 mg CaCo3 / g

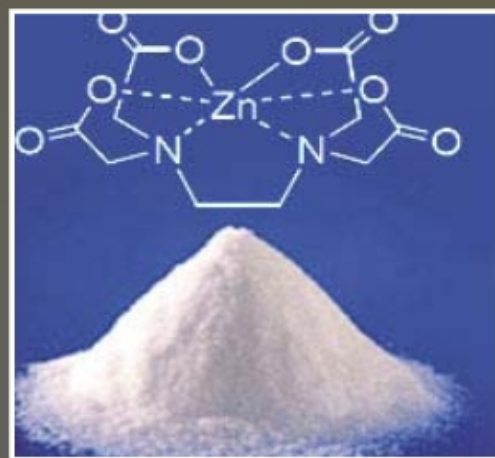

## EDTA Zinc

A compositionally balanced white fine powder, our EDTA Zinc is a versatile chemical. It is produced by us with premium basic materials sourced from reliable manufacturers internationally. Buyers can rely on our EDTA Zinc, as it an excellent biosynthetic intermediate and neurotransmitter. Interested buyers can purchase EDTA Zinc from us, as we are one of its leading Manufacturers and Suppliers in Gujarat, India.

### Specifications

Physical Form	Powder
Color	White
Molecular Weight	399.8
Assay	98%
PH	6-7
Minimum Metal Content	12%

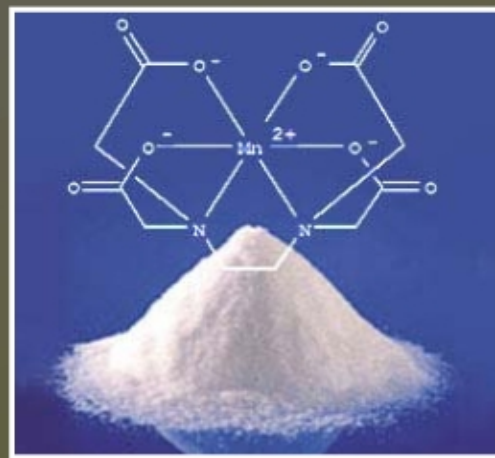

## EDTA Manganese

Buy 100 % pure EDTA Manganese from us at competitive prices. We are one of the leading Manufacturers and Suppliers of EDTA Manganese in Gujarat, India. It is a pinkish powder that is used for making varied products. We make it using superior-grade raw materials sourced from reliable manufacturers and advanced technologies. Buyers can obtain EDTA Manganese from us at competitive prices as per requirement.

### Specifications

Physical Form	Powder
Color	Pinkish
Molecular Weight	389.1
Assay	98%
PH	5-6
Minimum Metal Content	12%

## Amino Acid Chelate

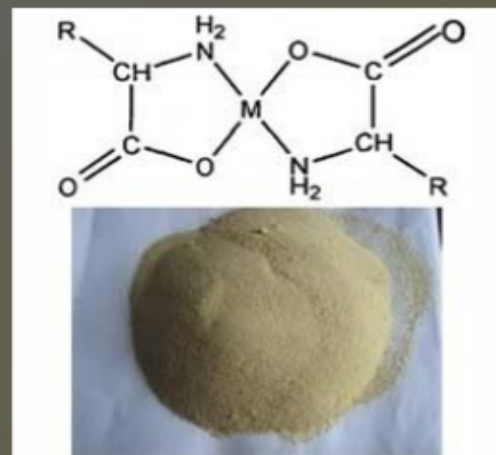

Our company is one of the leading Manufacturers and Suppliers of an array of Amino Acid Chelate in Gujarat, India. Formulated using the latest distillation technologies and premium raw materials, our Amino Acid Chelates are highly effective, compositionally accurate and have a long shelf life. They are formulated under expert supervision. Buyers can get Amino Acid Chelate from us in bulk. We offer a wide range of Amino Acid Chelates inclusive of Calcium Amino Acid Chelate, Zinc Amino Acid Chelate, Magnesium Amino Acid Chelate, Manganese Amino Acid Chelate, Iron Amino Acid Chelate and many more.

## Calcium Amino Acid Chelate

We are one of the eminent Manufacturers and Suppliers of 100% pure and compositionally balanced Calcium Amino Acid Chelate in Gujarat, India. A yellow golden powder the Calcium Amino Acid Chelate is used to treat conditions caused by low calcium levels such as bone loss. Our company offers it in bulk and provides customized packaging solutions as well. Our prices are reasonable and we guarantee to make timely delivery.

### Specifications

Appearance	Light Yellow Powder ( Golden Yellow)
Solubility	Completely Water Soluble
Calcium	12% Min.
Total Amino Acid	30% Min.
Moisture	5.0% Max.
AS	10 PPM Max.

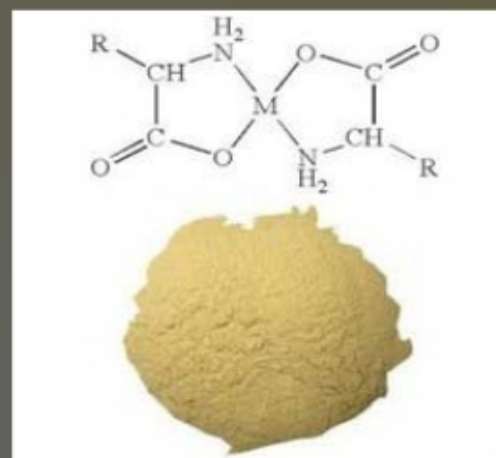

## Zinc Amino Acid Chelate

Extensively used as source of Zinc Sulphate; the Zinc Amino Acid Chelate is highly effective and absorbent in nature. Buyers can purchase Zinc Amino Acid Chelate from us at market leading prices. We produce it using basic materials sourced from reliable international manufacturers. We offer Zinc Amino Acid Chelate in retail and bulk amount that too at market leading prices. Hence, we are renowned Manufacturer and Supplier of pure Zinc Amino Acid Chelate in Gujarat, India.

### Specifications

Appearance	White to off white Powder
Solubility	Completely Water Soluble
PH (2% Soln. At 25'C)	5.0-7.0
Zinc Contact (Zn.)	NLT. – 12.0%
Amino Acid Content	NLT. – 30.0%
Chloride	16% Max.
Amino Nitrogen	4-5% Min.
Total Nitrogen Content	NLT. – 5%
As	5 PPM Max.
Heavy Metals (as in )	20 PPM
Water in Soluble Matter	3.0% Max
Moisture	5.0% Max

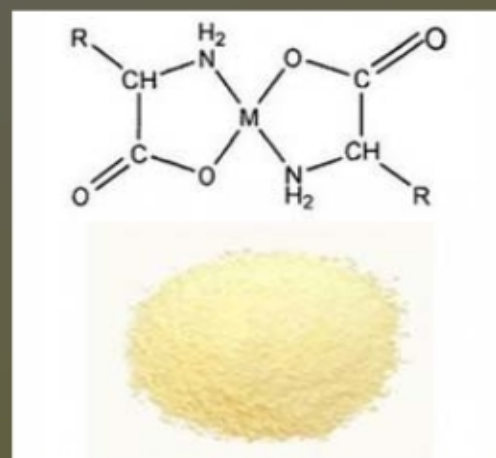

## Magnesium Amino Acid Chelate

We are one of the leading Manufacturers and Suppliers of Magnesium Amino Acid Chelate in Gujarat, India. Our company produces it in bulk and ensures that it is unadulterated. We are capable of providing Magnesium Amino Acid Chelate as per requirement at competitive prices. Interested buyers can expect timely delivery and rest assured, the product will be packed in chemical-grade packaging. The Magnesium Amino Acid Chelate we offer is extensively used to prevent and treat low amounts of magnesium.

### Specifications

Appearance	Light Brown Powder
Solubility	Completely Water Soluble
Magnesium	Min. 6%
Total Amino Acid	30% Min.
Heavy Metals	10 PPM Max.
AS	5 PPM Max.
NA	18% Max.
Moisture	Max. 5%

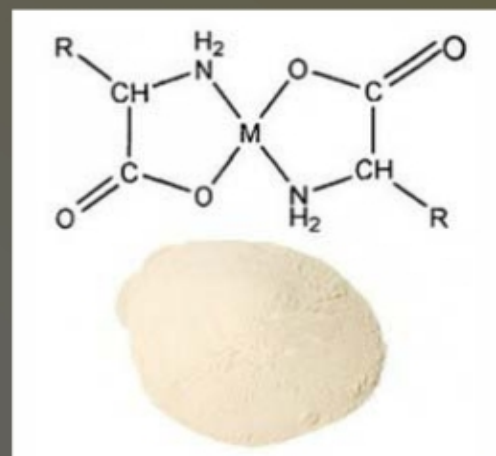

## Manganese Amino Acid Chelate

We are ranked among renowned Manufacturers and Suppliers of premium Manganese Amino Acid Chelate in Gujarat, India. Owing to our state-of-the-art chemical plants, we are able to provide pure, compositionally accurate and reliable Manganese Amino Acid Chelate. Provided by us in chemical-grade packaging, our Manganese Amino Acid Chelate can be ordered in bulk. In addition, buyers can obtain Manganese Amino Acid Chelate in customized packaging.

### Specifications

Appearance	Light Brown Powder
Solubility	Completely Water Soluble
Manganese	12% Min.
Total Amino Acid	30% Min.
Heavy Metals	10 PPM Max.
AS	5 PPM Max.
NA	18% Max.
Moisture	Max. 5%

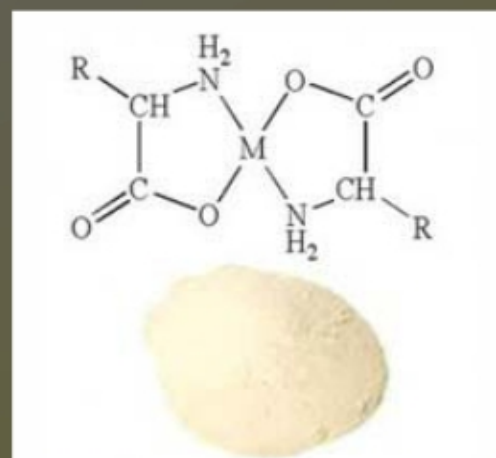

## Iron Amino Acid Chelate

Now purchase premium Iron Amino Acid Chelate that is compositionally balanced, highly potent and unadulterated. Our company is one of the eminent Manufacturers and Suppliers of Iron Amino Acid Chelate in Gujarat, India. Produced under controlled environment with superior-grade materials, our Iron Amino Acid Chelate is quality assured with correct pH balance. Buyers can purchase Iron Amino Acid Chelate from us in bulk and ask for customized packaging solutions.

### Specifications

Appearance	Light Brown Powder
Solubility	Completely Water Soluble
Iron	10% Min.
Total Amino Acid	30% Min.
Amino Nitrogen	4.5% Min.
Chloride	15% Max.
Water Insoluble Matter	3.0% Max.
Moisture	5.0% Max.
AS	10 PPM Max.

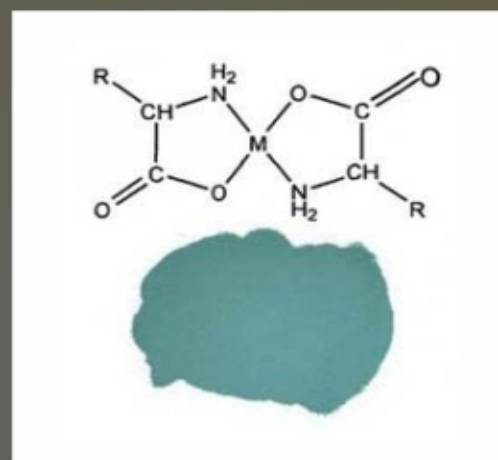

## Copper Amino Acid Chelate

Our company is bracketed with reputed Manufacturers & Suppliers of Copper Amino Acid Chelate in Gujarat, India. We are a renowned name in the chemical industry for providing 100% pure and compositionally accurate Copper Amino Acid Chelate. We provide it in bulk and guarantee to make timely delivery of consignments. Our Calcium Lactate is a versatile light blue powder, used for varied industrial applications.

### Specifications

Appearance	Light Blue Powder
Solubility	Completely Water Soluble
Copper	10% Min.
Total Amino Acid	25% Min.
Amino Nitrogen	4.5% Min.
Chloride	15% Max.
In Soluble Matter	3.0% Max.
Moisture	5.0% Max.
Heavy Metals (as PB)	20 PPM Max.
AS	10 PPM Max.

## Glycine Chelate

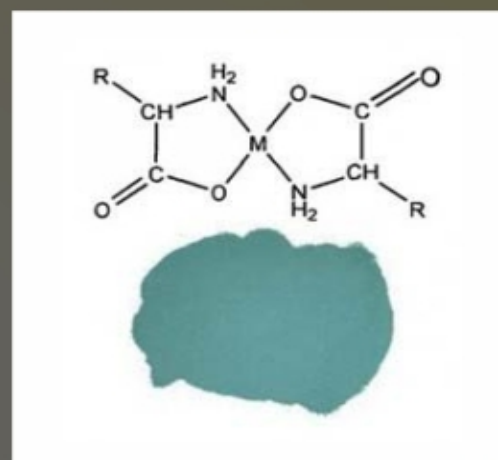

Our company is one of the leading Manufacturers and Suppliers of Glycine Chelate in Gujarat, India. Primarily constituted of metal ions consisting Iron, Zinc, manganese, magnesium, copper, calcium etc.; the Glycine Chelate is used for formulation of fertilizers, nutrients and food supplements. Our company makes the products under hygienic conditions and ensures it is compositionally accurate. Buyers can get Glycine Chelate from us in bulk and expect on time delivery.

## Copper Amino Acid Chelate

Our company is bracketed with reputed Manufacturers & Suppliers of Copper Amino Acid Chelate in Gujarat, India. We are a renowned name in the chemical industry for providing 100% pure and compositionally accurate Copper Amino Acid Chelate. We provide it in bulk and guarantee to make timely delivery of consignments. Our Calcium Lactate is a versatile light blue powder, used for varied industrial applications.

### Specifications

Appearance	Light Blue Powder
Solubility	Completely Water Soluble
Copper	10% Min.
Total Amino Acid	25% Min.
Amino Nitrogen	4.5% Min.
Chloride	15% Max.

Our company makes the products under hygienic conditions and ensures it is compositionally accurate. Buyers can get Glycine Chelate from us in bulk and expect on time delivery.

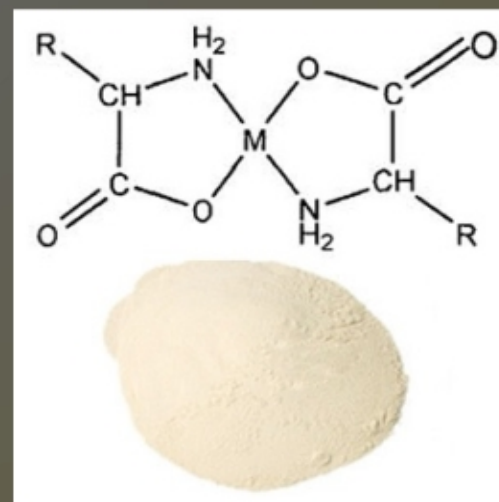

## Zinc Glycine Chelate

Appearance	:	White to off white Powder
Solubility	:	Completely Water Soluble
PH (2% Soln. At 25°C)	:	5.0-7.0
Zinc Content (Zn.)	:	NLT. – 12.0%
Chloride	:	16% Max.
Amino Nitrogen	:	4.5% Min.
Total Nitrogen Content	:	NLT. – 5%
As	:	5 PPM Max.
Heavy Metals (as in )	:	20 PPM
Water in Soluble Matter	:	3.0% Max
Moisture	:	5.0% Max

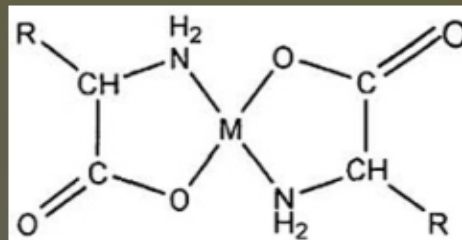

## Magnesium Glycine Chelate

Appearance	Light Brown Powder
Solubility	Completely Water Soluble
Magnesium	Min. 6%
Heavy Metals	10 PPM Max.
AS	5 PPM Max.
NA	18% Max.
Moisture	Max. 5%

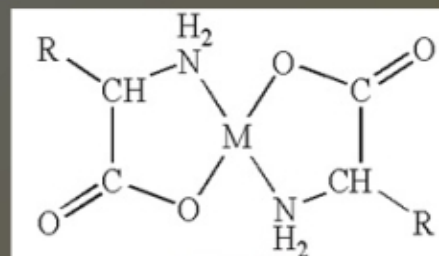

## Manganese Glycine Chelate

Appearance	:	Light Yellow Powder
Solubility	:	Completely Water Soluble
Manganese	:	10%
Amino Nitrogen	:	6.0% Max.
Chloride	:	15% Max.
Water Insoluble Matter	:	3.0% Max.
Moisture	:	5.0% Max.
Heavy Metals (as PB)	:	20 PPM
AS	:	10 PPM Max.

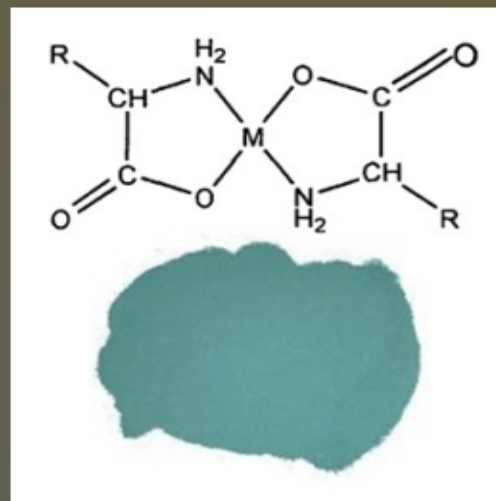

## Iron Glycine Chelate

Appearance	:	Light Brown Powder
Solubility	:	Completely Water Soluble
Iron	:	10% Min.
Amino Nitrogen	:	4.5% Min.
Chloride	:	15% Max.
Water Insoluble Matter	:	3.0% Max.
Moisture	:	5.0% Max.
AS	:	10 PPM Max.

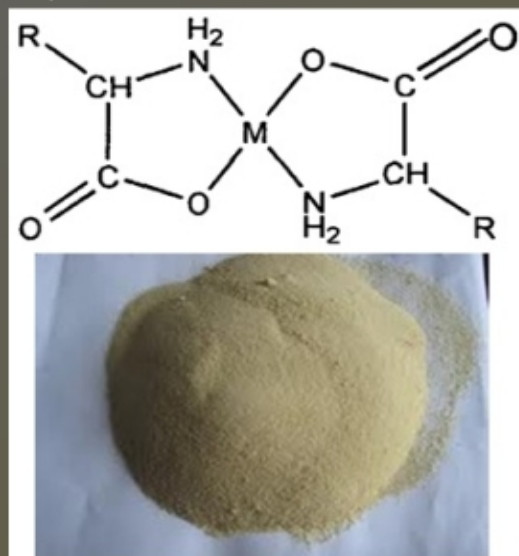

## Copper Glycine Chelate

Appearance	:	Light Blue Powder
Solubility	:	Completely Water Soluble
Copper	:	10% Min.
Amino Nitrogen	:	4.5% Min.
Chloride	:	15% Max.
In Soluble Matter	:	3.0% Max.
Moisture	:	5.0% Max.
Heavy Metals (as PB)	:	20 PPM Max.
AS	:	10 PPM Max.

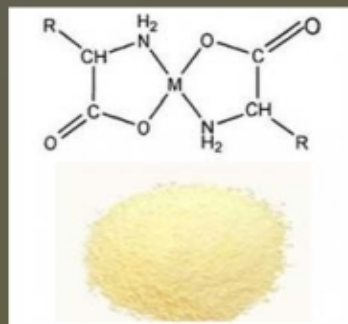

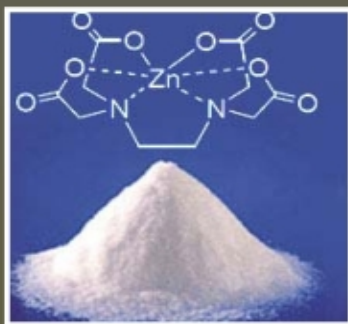

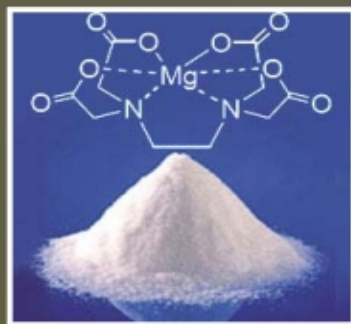

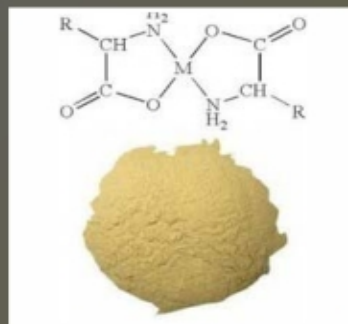

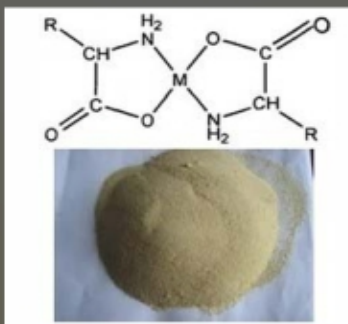

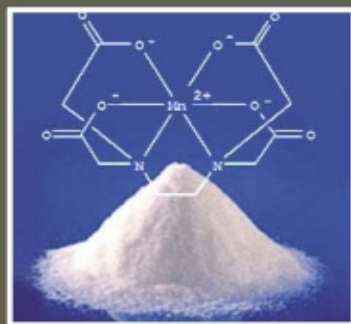

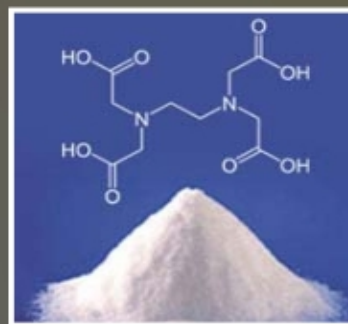

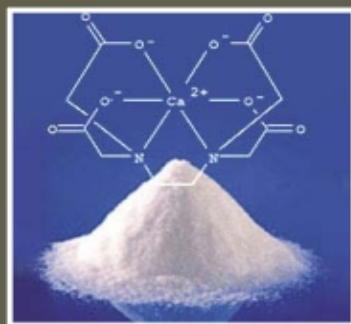

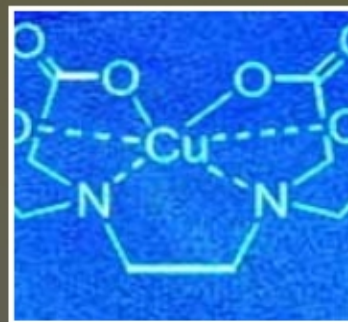

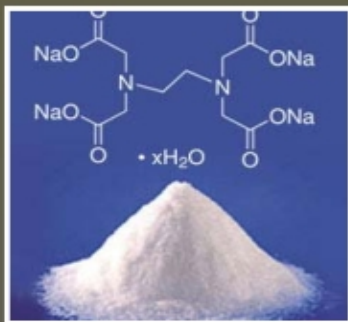

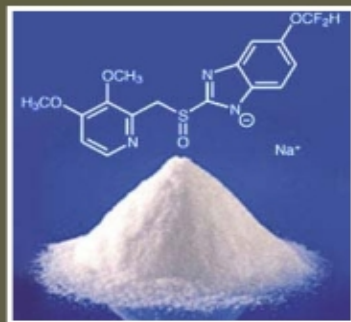

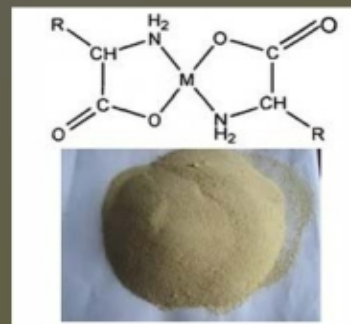

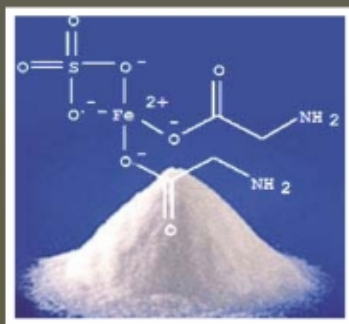

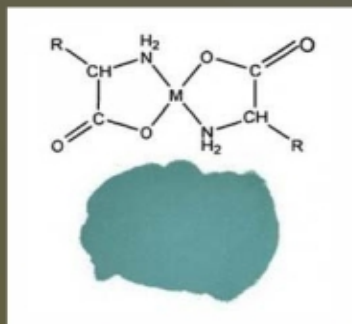

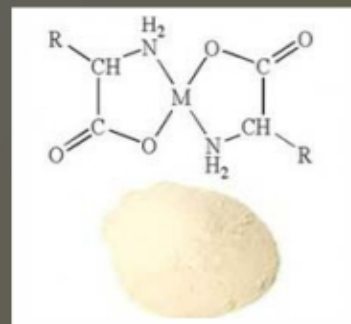

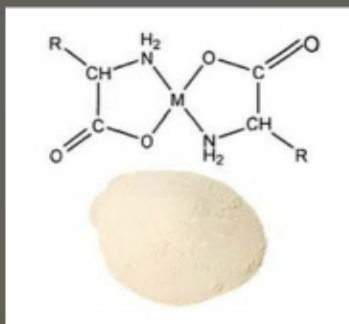

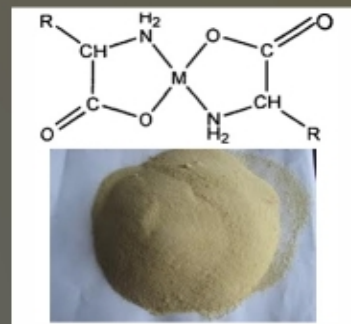

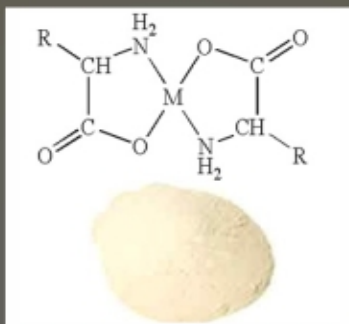

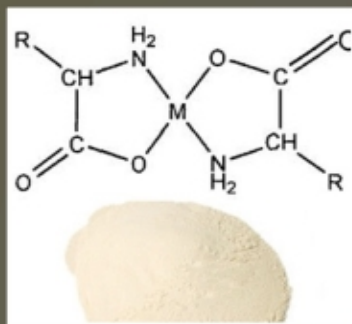

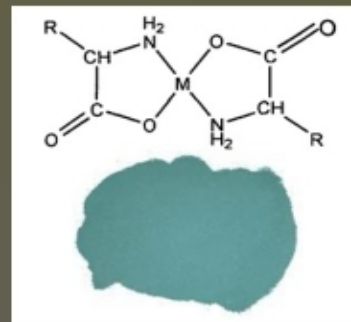

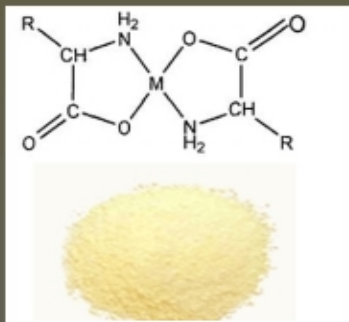

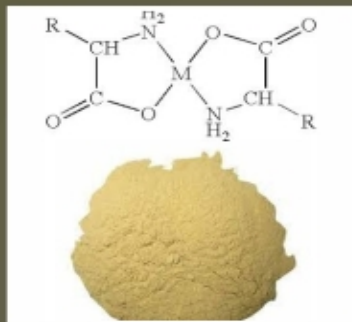

## Calcium Glycine Chelate

Appearance	:	Light Yellow Powder ( Golden Yellow)
Solubility	:	Completely Water Soluble
Calcium	:	12% Min.
Moisture	:	5.0% Max.
AS	:	10 PPM Max.
