ABOUT US

With the expertise earned from 45+ years of experience, AKASH started manufacturing of Twin Lobe Rotary Air Blowers wayback in 2009. Since then the company has consistently strengthened its manufacturing base producing a wide range of products line includes TWIN LOBE & TRI LOBE ROTARY Air Blowers/Compressors (Root Blowers), Mechanical Vacuum Boosters & Acoustic Hoods. We have also started dealing and manufacturing in Ring Blowers/Regenerative/Side Channel Blowers and Volute Dewatering Machine. These wide-range products and the technical expertise gained over the year have enabled AKASH to serve various segments of industry- such as Flue Gas Application in sponge Iron, Silo Aeration for Cement Plants, Bulke unloading, Pneumatic conveying Sulphonation in Sugar plants, Water treatments plants, Effluent treatment plants, Aqua culture farms, Chemical & pharmaceutical plants, Food processing units.

VISION

To Become the No. 1 company in the Industry which delivers quality products for its Customers, believes in Innovation to meet the changing needs of the Customers and Market and are able to keep their Employees and stakeholders Happy and Satisfied, thus ensuring their growth along with the Company.

MISSION

To Serve our Customers as their most trusted and reliable partner in the Blower Industry.

VALUES

- Passion to Win & Be-The-Best at whatever we do.
- Integrity knowing what is right and acting responsibly with our clients, colleagues and community.
- Innovation anticipating our clients' needs.
- Dedication for unparalleled quality and proven success.
- Guidance serving our client with experienced guidance regarding their actual needs.

AQUA CULTURE BLOWERS

AKASH range of aqua culture blowers to meet the growing demand for aquaculture / horticulture for RASTanks / biofloc system / natural fish pond requirements which essentially demand 100% oil free Air. These blowers are totally dry machines where lubrication chambers are physically isolated from the main air chamber ensuring 100% oil free air delivery. The oil free air delivery ensure for proper maintenance of Biological Oxygen Demand(BOD) for aqua culture.

MODEL	CAPACITY	PRESSURE	REC. MOTOR	LINE SIZE
	(M ³ /HR)	(MMWG)	(HP)	MM
AQUA-325	75	2000	1.5	40
AQUA-42	100	2000	2	40
AQUA-4130	175	2000	3	80
AQUA-47	250	2000	5	80
AQUA-59	550	2000	7.5	100
AQUA-5305	800	2000	10	125
AQUA-615	1050	2000	12.5	150
AQUA-717	2200	2000	25	200

Note : 1. The above ratings are based on inlet air temperature of 104° F, ambient pressure 1 kg/cm², specific gravity of 1.0."
 2. Performance testing as per BS 1571, part-II
 3. All specifications are subject to change without notice.

FEATURES

- Stable air flow and fewer pressure variations
- Clean air with no oil dirty particles
- Construction is simple and easy to maintain
- Bearings and grease are lubricated with oil/synthetic grease on end side of the blowers
- Proven design, backed by a 1 year Warranty

PRECAUTION

- Check the quality of all resources that are used in the farm.
- Quality of water must be checked periodically.
- Disinfection of vehicles accessing the farm.
- Disinfection of equipment used in handling prawn or shrimps.
- Hygiene of employee must be maintained in the plant.
