

Sri Gurudatta Electricals

ABOUT US

Sri Gurudatta Electricals is a Vijayawada, Andhra Pradesh based company. We are a major Industrial Electrical Products and Components Distributor, offering a wide range. Established way back in 1966, we have managed to get ahead despite stiff market competition by adhering to qualitative way of working at each level. Under the skillful guidance of the Managing Partner Mr. Govindaraju Valli Manohar, we have managed to cross several milestones year after year and now positioned at the forefront in the market. Today, we are known for offering Siemens Switchgear and Motors, Minilec Make Preventors and Timers, Bharat Bijlee Make Dc Contact Cleaners and Degreasers and Epcos Make Lt & Ht Capacitors.

Network

Over the years, we have developed a strong distribution network that is part of an efficient supply chain. This enables the easy traceability in delivery and also the timely delivery. Our contacts with major vendors also enable us to source the best Electrical Products and Components.

Customer Satisfaction

Having good experience of working with diverse types of clients, we understand that each client/industry needs specific solutions. We work closely as per the clientsâ needs and ensure that the right product is delivered as per their expectations of quality and within the time-frame specified.
