ABOUT US

KMS Technologies distributes and markets high technology electronic components, products and systems used in professional electronic industry to Original Equipment Manufacturers (OEM's) and Electronic Manufacturing Service (EMS) providers. We specialize in Telecom, Industrial, Power, Automobile and Consumer Electronics Segments. We can source both active and obsolete semiconductor components.

We also offer finished products and systems which are used in electronic industry. We have Business Alliances in Singapore, China, Middle East and we are soon expanding in North America and Europe. In today's highly competitive market your ability to source a right product of right quality at the right time and that too at a right price will determine the success of your business. We at KMS Technologies assist you in doing just that. To make this possible:

We have a highly trained, competent and motivated team who works closely with our customers to identify their needs and requirements and provide service at the highest levels.

We pool in all our resources to ensure that the needs and requirements of our customers are met.

We offer tailor made solutions that are unique to our individual customer need and requirement which is more customer oriented than process oriented.

Offer professional and technical consultation enabling our customers to develop and design an optimum product and enjoy a cutting edge over their competitors.

Focus on Quality and Timely Deliveries all at a right price, real time responses to customer queries, ethical business practices and perseverance has lead us to become a preferred vendor to our customers.

Name of C.E.O.	Kirti Sahanie
Establishment Year	2007
Primary Business Type	Distributor and Agent
Market Cover	India, China, Taiwan, Middle East, Singapore, US and Europe
Products We Offer	Electronic Components, Current And Potential Transformers, Printed Circuit Boards, Lighting Products & Power Adapters

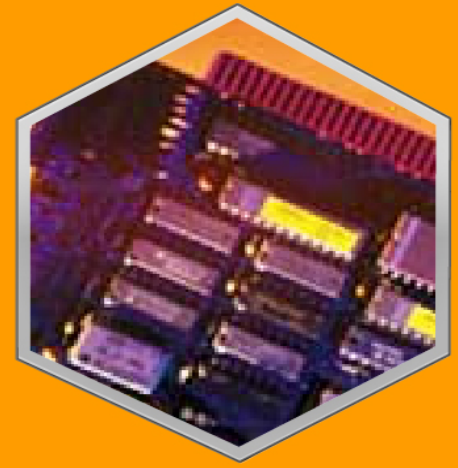

ELECTRONIC COMPONENTS

Electromechanical
Components

Discreet and Passive
Components

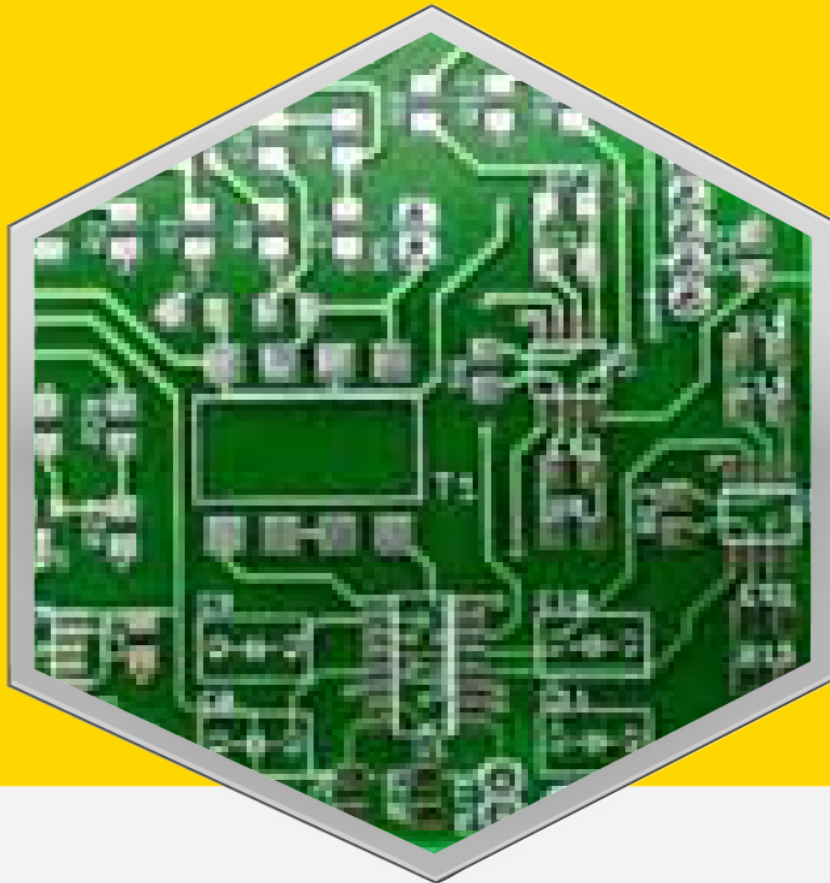

Integrated Circuits

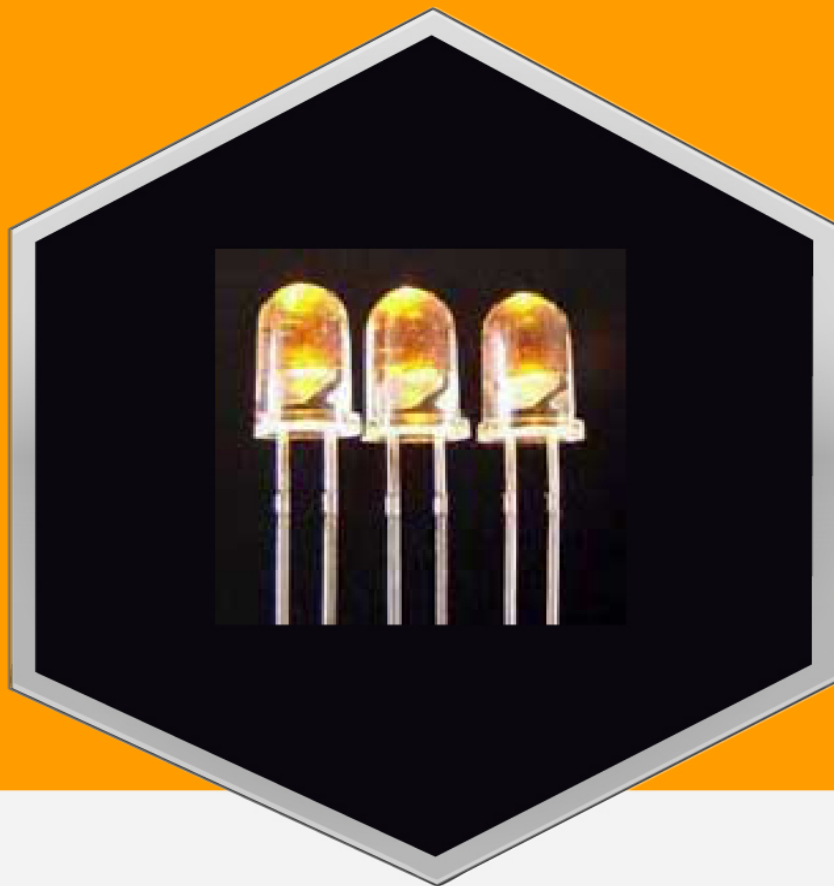

We at KMS Technologies provide an enormous assortment of electronic components including passive electronic components. As we are the best passive electronic components distributor and supplier in Mumbai, we are proficient in providing a flawless range product as per the client's requirements. We make sure that no quality parameter remains unmatched during the production process at the vendor's end, and ensure the use of quality grade raw materials and adherence to set industry norms. Warehouse at KMS Technologies is equipped with several machines and tools that are based on modern technology in the market. We have earned accolades in the industry and offer quality products which are known for reliability, high performance and sturdy construction. Browse through our list of products and get these electronic components at an industry leading price.

Being a leading distributor of high technology electronic components, products, and systems in Mumbai, KMS Technologies is highly involved in providing a wide range of current and potential transformers which is easy to install and requires less maintenance. Apart from this, our current and potential transformers used to measure current and voltage in high voltage circuits respectively where an ordinary ammeter and voltmeter cannot be used. Our offered transformers are used for protective purposes as input to relays in a power system. We are the best current and potential transformers sourcing agent and current and potential transformer distributor in Mumbai. Due to the immaculate quality of our product range, the offered products are extensively demanded by a number of MNCs, OEMs and State Electricity Boards. Feel free to get in touch with us and get the best transformers in your budget.

To accomplish the diverse requirements of the clients, we at KMS Technologies are engaged in providing a high-quality range of printed circuit board. Being acknowledged in the industry as a leading sourcing agent of printed circuit boards in Mumbai, we are engaged in offering a wide range of printed circuit board and ROHS compliant single layer printed circuit boards for our clients. We at KMS Technologies offer these circuits boards in various specifications. We ensure the product quality and examine these circuit boards on quality provisions before delivering to our customers. Our offered range of product is appreciated for its optimum performance. Log on to our website to get quality circuit boards at economical prices.

With a reputed market position, KMS Technologies is indulged in distributing the electronic components including light emitting diodes in an efficient way. These light emitting diodes are widely used in automobile, industries, emergency lights and also for decorative lamps during festivals. The entire range offered by our company is sourced from leading manufacturers of the market. KMS Technologies is one of the preferred names among the customers seeking for the qualitative range of electronic components and have established as the leading light emitting diodes sourcing agent in Mumbai. Our offered range of light emitting diodes is examined on different parameters with the set industrial standard and norms before being delivered to the clients. Browse through our list of product and get the finest light emitting diodes at industry leading price.

With an aim to stand tall on the expectations of our esteemed clients, we at KMS Technologies are providing a quality range of power adapters for our patrons. These power adapters are manufactured by the dexterous professionals using premium quality raw material and innovative technology in line with industry norms. As we are the leading AC DC power adapter distributor in Mumbai, clients can avail these adapters from us in various sizes and designs. These adapters are highly acknowledged for various features like high performance, durable finish, chemical and thermal resistance, and shock resistance. Moreover, these adapters meet all international quality standards. Browse through our list of product and get the quality power adapter as per your need at industry leading price.
