The consumable goods like spices, baked products, pulses, nuts, and rice that we offer are procured from the trusted manufacturers across the globe. You can rely on us for getting nothing but the best quality goods.

Established in the year 2015, Jay Goga Impex has been actively engaged in importing and exporting the best consumable products across the world. We are based in Unjha (Gujarat, India) but our network is widespread which enables us to serve the needs of our customers across seven seas as well.

Our Team

It is the effort and dedication of our team that has enabled us to lead the industry by importing and exporting the best spices, rice, pulses, nuts, and other goods. We have brought together a team of expert quality inspectors, packers, deliverers, and other officials who have extensive knowledge of the trade and take care of all the import and export processes.

Our Network

Over the years of importing and exporting these products, we have managed to spread our network across the globe. Our associates, as well as clients, are located in different parts of the world that motivates us to keep expanding our network to newer avenues.
