The All New

**ACTIVA 125**

LET THE REVOLUTION BEGIN,  
QUIETLY.

Presenting the new Activa 125 BS-VI with Honda's globally acclaimed **Enhanced Smart Power (eSP)** technology which combines **high power and high fuel efficiency with a quiet start** and a smooth eco-friendly engine. Full metal body loaded with many first in segment features make it a quiet revolution.

#### FRICION REDUCTION AND IMPROVED COMBUSTION

The new tumble flow technology increases the turbulence of air-fuel mixture, which helps in achieving improved combustion and fuel efficiency. The piston component of new Activa 125 BS-VI is equipped with jet, which helps to achieve better efficiency by maintaining the temperature in all riding conditions.

eSP technology maximizes the efficient combustion and minimizes friction to optimize the energy output. eSP technology is integrated with Honda's unique ACG starter to start the engine off free with a refined sound, and acts as a base for our advanced Viding Stop System.

#### PROGRAMMED FUEL INJECTION

**PGM-FI  
FUEL INJECTION**

Sensor-based advanced PGM-FI system constantly injects optimum fuel resulting in efficient combustion which aids in consistent power output & higher mileage.

#### SILENT START WITH ACG

The new Activa 125 BS-VI is powered by the globally acclaimed eSP technology, which helps in silent start. Its **ACG Starter Motor** removes gear meshing, gear engagement noise and reduces maintenance.
