ABOUT OUR COMPANY

Deepak Elastics & Trims was established in the year 2002, under the partnership deed of Mr. Deepak Shah & Mr. Harsh Shah. They have been working in this field since last three decades and have achieved a great success. Our company is based in the city of Textiles, Surat (Gujarat, India).

Company's Commitment

To understand and provide the actual need of the buyer and to deliver the best products with the help of proper logistic facility. We promise to deliver products within stipulated time and many more facilities which support us to fulfill our commitments in different arenas.

Infrastructure

We have a strong and robust infrastructural base, which is well equipped with the latest technology and machinery. With an aegis of advanced manufacturing facilities, we are able to achieve the monthly production capacity of over 10 lakhs yards.

Value Additions

Apart from manufacturing of Elastics, Deepak is also established as a Merchant Exporter of Textile Fabrics & Industrial Products, under the name of "Inter trade Links" and Deepak narrow fabrics.

Working Approach

We are focused towards the aim of delivering Elastic tapes with zero defects. We achieve this through a systematic quality control management – not just in the classic sense of optimizing production but as an all-pervasive ethic that lives at every level of the company.

We always cope with the challenging requirements of our customers. These include, for example :

- Complying with customer specifications, industry standards and legal requirements,
- The presentation of product data (factory certification, inspection certificates, data sheets, safety reports),
- Proof of series production and product launch (PPF and PPAP)
- Presentation of results from lab testing on physical properties and chemical composition (IMDS)

Braided Elastics

The Braided Elastics are made of natural and synthetic yarns, braided around a natural or synthetic rubber. The range of Braided Elastics, we offer, includes Black Braided Elastic and White Braided Elastic. The Braided Elastics are made from high-grade material in compliance with the set industry norms. We offer Braided Elastics at market leading prices.

Attributes: • Durable • Fancy • Attractive • Affordable

Braided Elastics

We are a prominent Manufacturer, Supplier and Exporter of high quality Woven Elastic Tapes. We provide Woven Elastic Tapes in various colors, designs and sizes to cater the diverse needs of the clients. The Woven Elastic Tapes undergo a stringent quality test before they are dispatched for the delivery. Our Woven Elastic Tapes are in huge demand due to their flexibility, support expansion and contraction. The Woven Elastic Tapes are widely used for various types of application such as sports wear, undergarments, hosiery garments, automobiles, orthopedics, and so on. The range of Woven Elastic Tapes, we offer, includes Red Woven Elastic Tape and Blue Woven Elastic Tape.

Used In: • Sports wear • Undergarments • Hosiery garments
• Orthopedics

Plain Woven Elastics

We have carved a niche as one of the leading Plain Woven Elastics Manufacturers, Suppliers and Exporters. We provide a comprehensive range of Plain Woven Elastics in numerous shades, colors and designs patterns. Our Plain Woven Elastics are available in different widths as per the requirements of the customers. Our Plain Woven Elastics offer great strength and very high resistance to temperature and heat. The superior quality of Plain Woven Elastics increases their picking density and durability. The range of Plain Woven Elastics, we offer, includes Black Plain Woven Elastic and White Plain Woven Elastic.

Attributes : • Heat resistant • Long lasting • High density • Great strength

Knitted Elastics

The Knitted Elastics, offered by us, are demanded widely for garments and other made-ups. We provide Knitted Elastics in several colors as per the requirement of the client. The clients can avail the Knitted Elastics from us in bulk quantity at very reasonable price. We also manufacture knitted Elastics used in fitted bed sheets in different sizes ranging from 6mm-25mm, with good stretch that can be elongated from 10cm to 35cms and so on.

Attributes : • Available in different sizes • Excellent stretch • Durable • Affordable
