# ABOUT US

## Welcome to AMAR AQUATIC

Amar Aquatic (A unit of Amar Polyfils Pvt Ltd), a torch bearer & pioneer in India as the manufacture & exporter of Fish Collagen, established in 2010 in Porbandar, Gujarat, India.

### About Amar Aquatic

India's first & oldest manufacturer of Fish Collagen, extracted from Fish Scales, Amar Aquatic is a well-known & most trusted exporter & supplier of Fish Collagen & Fish Gelatin owing to its 100% natural & pure products. The company has already achieved numerous feathers in its cap by getting emphatic recognition in the international market of ingredients with its revolutionary strategies, well equipped laboratory, imported technology & machines, well-groomed & efficient team.

### LEADERSHIP

An ace & passionate leadership that brought a vision, commitment & credibility in Supplement & Pharmaceutical industries by establishing a benchmark for quality & services. The company is led by visionary & versatile Mr. Rambhai Babulal Panjari & proficient, excellent & popular business leader Dr. Udayraj Mishra.

### POLICY

To achieve the highest standards of quality in all processes, business practices & operations without any compromises in quality, safety &

consumers' benevolence.

The company has a legal, commercial & moral obligation to ensure good standards for maintenance of hygiene.

### VISION

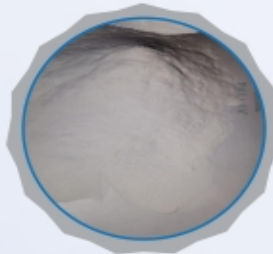

To inspire health product developers to level up their existing products with a miracle product by adding pure protein i.e., called a superfood to avail their consumers multi-dimensional health benefits.

### MISSION

To contribute & support the supplement & pharmaceutical industries worldwide in developing products that improve people's quality of day-to-day life by making them available pure & 100% natural product with higher bioavailability as well as products free from contamination, religious & cultural concerns, binding agent, preservative & additive.

### STRENGTH

Amar Aquatic is well appreciated worldwide for its strength of doing crucial customisation & innovation in the products with its market-oriented Research & Development as its USP.
