

PREMIER INGOTS AND METALS PVT.LTD.

An IATF 16949:2016 & ISO 9001 : 2015 Certified Co.

Backed with an advanced manufacturing unit, we are able to serve the clients with best Non Ferrous Metal Alloys. We are supported with hi-tech machinery, testing equipment, R&D department with latest technology, which helps in efficient, quality and timely production of Non Ferrous Metal Alloys. Adhering to our client oriented policy, we are able to build strong relations with the clients. Our main strengths are outstanding quality Non Ferrous Metal Alloys, transparent dealings & prompt deliveries, which are highly appreciated by the clients. Through our continuous efforts, we are able to achieve optimum satisfaction of the clients.

Incepted in the year 1998, Premier Ingots and Metals Pvt. Ltd. is located in the city of Meerut, Uttar Pradesh. Our company is reckoned as a Manufacturer, Exporter & Supplier of outstanding quality Non Ferrous Metal Alloys. At the helm of the operations are our honorable Directors, Mr. Manish Jain and Mr. Rajneesh Jain, whose vast experience of 25 years has helped the company attain an apex position in the market.

Business Objectives

Our main endeavor is to serve the clients with reliable Non Ferrous Metal Alloys and emerge as a leading company across the world. Our main objectives are :

- To synchronize our manufacturing & R&D techniques with the international industrial levels.
- To establish rapid and efficient communication with all our clients
- To build long-term and steady strategic alliances, based on equality and mutual benefit, with our clients

Manufacturing Unit

Backed with an advanced manufacturing unit, we are able to serve the clients with best Non Ferrous Metal Alloys. We are supported with hi-tech machinery, testing equipment, R&D department with latest technology, which helps in efficient, quality and timely production of Non Ferrous Metal Alloys.

Our Manufacturing Unit Comprises

- Continuous Casting Machines
- Induction Melting Furnaces
- Rod Strengthening Machines
- Hydraulic Tilting Furnaces
- Capstan lathes, power hexas, Suoning Machine
- Drilling Machines
- Forging Hammer
- Electric Heat Treatment Furnaces with accurate temperature Controllers
- Hydraulic press for cold forming
- Draw Benches

Client Satisfaction

Adhering to our client oriented policy, we are able to build strong relations with the clients. Our main strengths are outstanding quality Non Ferrous Metal Alloys, transparent dealings & prompt deliveries, which are highly appreciated by the clients. Through our continuous efforts, we are able to achieve optimum satisfaction of the clients.
