LEADER ENERGY CONSULTANCY LTD.

WORDS FROM OWNER

LEADER ENERGY CONSULTANCY provides endless options for high quality Towels, Bathrobes, Bath Mats, Bedsheets, Blankets and T-Shirts. The beautiful towels in our products catalogue are only a few of the custom towels we have created for a multitude of customers. Our factory has been producing and customizing towels products for many top brands all over the world since 1999. Our towels are 100% Turkish Cotton produced in Turkey.

Turkish Cotton is a premium cotton that has extra-long fibers, therefore Turkish Cotton towels are known to become even softer, fluffier, and more absorbent with successive washing. We go out of our way to make a distinction and we guarantee that our towels are made of the strongest cotton yarn and utilize the best weaving techniques to guarantee long term durability. We want you to be satisfied no matter what style of towel you select. We have the ability to produce all towels as per your design, color, quality, size, bundle and packaging specifications.

Our towels are all VAT dyed meaning that the dye is infused into the yarns under high pressure and high temperature for 6-12 hours. This limits any fading of even the brightest colors.

All of our towels are available in the 400 to 800 GSM range. GSM is short for Grams per Square Meter which is the standard measurement for the weight and quality of fabrics (including towels). REGAL TOUCH 100% Turkish Cotton towels and bathrobes are in this ideal range. Our Bath Mats are 800 GSM for a super fluffy feel under the feet.

OUR TEAM

We rely on our team of experts, who are extremely skilled and experienced for the quality of services we provide to our clients. They make utmost efforts to ensure that the clients are fully satisfied with our services. Our team also educates clients regarding operation processes.

OUR AIM

We are committed to providing our clients with high-quality services using innovative techniques and world-class equipment. We assure utmost satisfaction to our clients and as a result they now trust us with their requirements
