

## **SIMRAN FLOWTECH INDUSTRIES**

Our company, SIMRAN FLOWTECH INDUSTRIES was incorporated in the year 2004. It is situated at Faridabad in Haryana. Under the spirited headship of our CEO, Mr. Gurmeet Singh, we have been scaling new heights in our business endeavor. The followings are the highlights of our company:

## OUR PRODUCTS

### HYDRAULIC POWER PACK

We provide excellent quality Hydraulic Power Pack that is highly commended among the national as well as international market. The Hydraulic Power Pack Units that we offer are used in various industrial, mechanical, and engineering applications. We offer them in different ranges and specifications as per the requirement the valued clients. Hydraulic Power Packs are developed by using the latest technology. In addition to the above facts, we are considered one of the leading Pneumatic Hydraulic Power Pack Manufacturers in India.

### HYDRAULIC ROTARY UNIONS

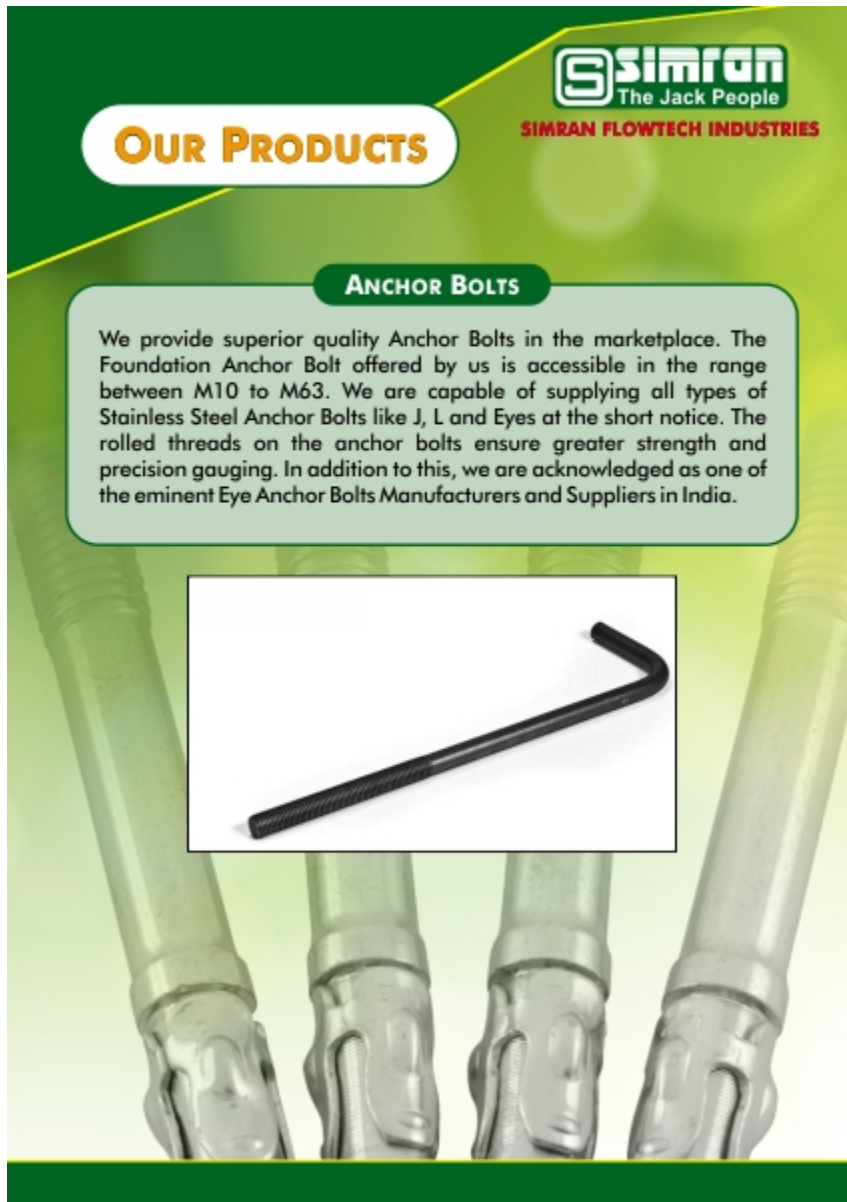

We serve as one-stop destination of high end Hydraulic Rotary Unions that are used for different applications in industries. The Hydraulic Rotary Joint Union that we supply in the market is known for its superior performance and long lasting functional life. Our Hydraulic Rotary Unions are highly efficient and are available in 1" to 1.5" BSP. We offer them at the market leading rates. In addition to the above facts, we are reckoned as one of the foremost Air-Hydraulic Rotary Unions Exporters based in India.

## OUR PRODUCTS

### ANCHOR BOLTS

We provide superior quality Anchor Bolts in the marketplace. The Foundation Anchor Bolt offered by us is accessible in the range between M10 to M63. We are capable of supplying all types of Stainless Steel Anchor Bolts like J, L and Eyes at the short notice. The rolled threads on the anchor bolts ensure greater strength and precision gauging. In addition to this, we are acknowledged as one of the eminent Eye Anchor Bolts Manufacturers and Suppliers in India.

## OUR PRODUCTS

### HYDRAULIC JACKS

We are engaged in offering a wide range of Hydraulic Jacks in the nationals as well as international markets. The High Pressure Hydraulic Jacks made available by us are used in various industrial and engineering applications. Our Heavy Duty Hydraulic Jacks are available in various sizes up to 200 Tons capacity. They are high performing equipments resistant to corrosion and long lasting in nature. Apart from that, we are reckoned as one of the chief Hydraulic Machine Jacks Manufacturers in India.

## OUR PRODUCTS

### WORM GEAR SCREW JACKS

Your quest for high precision Worm Gear Screw Jacks ends at one-stop shop that is SIMRAN FLOWTECH INDUSTRIES. The Multiple Worm Gear Screw Jacks made accessible by us are made to suit different applications such as lowering, lifting, traversing as well as swinging. Manufactured from high quality raw materials using advanced technological procedures, Worm Gear Screw Jacks are resistance to rust and have long functional life. Besides, we are one of the prime High Performance Worm Gear Screw Jacks Suppliers in India.

Range : From 0.5 Ton to 150 Ton Capacity

Design : All designs available. (Refer Detailed Catalog)

Salient Features

Body : Made of S.G. Iron ensuring greater strength.

Worm Gear : Precision cast Aluminium Bronze the best material for life and strength of worm gear.

Worm Screw : Made of Alloy steel Hardened tempered and nitrided for great life.

Lift Screw : Precision rolled or cut with Anti-backless system to ensure greater Precision.

## OUR PRODUCTS

### HYDRAULIC CYLINDERS

We are specialized in the manufacture and supply of a wide range of Hydraulic Cylinders in industry. We have carved a niche as one of the ace Industrial Hydraulic Cylinders Exporters. Our Hydraulic Cylinders that are made using advanced technology and finest quality raw materials. These cylinders are durable and long lasting in nature. The range of Hydraulic Cylinders varies from  $\text{Å}^{\sim}14$  bore to  $\text{Å}^{\sim}350$  bore and stroke up to 5000 mm. Additionally, we are also counted among the principal Pneumatic Hydraulic Cylinders Suppliers in India.

Range : from  $\text{Å}^{\sim}14$  bore to  $\text{Å}^{\sim}350$  bore and stroke up to 5000mm

Special Design Feature

Cylinder Tube of Precision Honed Roller Burnished Tubes out of ST52-3

Rod made of C45 Hard Chrome Plated & Ground  
Seals of reputed international brands only.

End Pieces according to specifications required.

Special materials and constructions on request

Note : While Ordering/Enquiry please specify Bore, Rod Dia, Stroke, Mounting, Construction Type and any Special material of construction

#### Pressure Rating Available

Medium 1000 PSI Bore : 350 mm  
Heavy 3000 PSI

#### Construction

Tie Rod Design (STD  
Welded  
Screwed

#### Size Range

Bore : 350 mm  
Stroke : 5000 mm

#### Mountings

All standard mountings  
according to ISO

## OUR PRODUCTS

### HONED TUBES

We bring forth the finest quality Honed Tubes in that are highly acclaimed among the clients. The Steel Honed Tubes manufactured by us are used in all kinds of hydraulic and pneumatic cylinders. These Honed Tubes are made from high quality Cold Drawn Seamless ST52-3. They are remarkable for their superior strength as well as durability. We make them available in various diameters and thickness as per the specification demanded by the clients. Moreover, we are one of the chief Hydraulic Honed Tubes Manufacturers and Exporters in India.

We are stockists of Imported Hydraulic Honed Tubes as per following specifications:

Size Range : Dia 40mm to 250mm

Material : Cold Drawn Seamless ST52-3

Supply Condition : BK + S

Bore Size Tolerance H8

### BUTTERFLY VALVES

We deal in a wide range of Butterfly Valves in the national as well as overseas markets. Our Industrial Butterfly Valve is accessible in different ranges and specifications as per the requirements of the valued clients. We stand amongst the choicest Butterfly Gate Valve Manufacturers of the country. The Butterfly Valves that we offer are made of fine quality raw materials. Apart from the above facts, we identified as one of the renowned Butterfly Control Valve Suppliers in India.
