Rajalakshmi Perfumery Works is a family-owned business that has been operating since 1935 in Bangalore, Karnataka. Today it has become a third-generation business which has been pleasing the global community with its beautiful fragrances in the form of variously scented incense sticks.

Founded by Mr. B. Lakshmi Narayan Shetty, today the organization has become the undisputed leader in serving beautiful and fresh fragrances to its client base. We have become a highly respected name in the industry because of the quality and dedicated services that we have given to our customers for the last 87 years continuously.

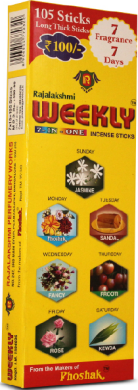

Right from the very beginning, we have been crafting magic in the form of incense sticks that have been hand-made. We have still upheld this practice at Rajalakshmi Perfumery Works where we make hand-crafted sticks. This is why we have been able to give employment to a large number of people. This is one way of giving back to the society which has given us a lot.

This has aided us in staying true to our founder's philosophies and principles. This is a small cottage industry that we are helping to thrive in today's world of technology and mechanization. With this, we solicit and ask for the cooperation of our customers, who are the ones responsible for helping so many people thrive to continue with their support.
