# We make sure that our clients get benefited with our highly efficient efforts

SAZ BOILERS was incepted in the year 1992. It is located at Hadapsar, Pune ( Maharashtra INDIA ).

Mr. Sunil Zalte is the CEO of the organization under whose headship we have been scaling new heights in the business endeavors.

#### Infrastructure

We have developed state of the art infrastructure at our manufacturing unit. The unit is well furnished with advanced production facility for the efficient manufacturing of products like Steam Boilers, Hot Water Generators, Thermal Fluid Heaters, Hot Air Generators, etc. Every process of the company is supervised by trained professionals and technicians.

## **Quality Control**

Quality has been the integral part of our organization. All the products are supplied after the complete chemical analysis and physical testing. To ensure their faultless quality, The following tests are done: 33333

- X-ray test (NDT Testing)
- Hydraulic Test
- DP Test

#### Network

We thrive on our well established distribution network. The products are currently exported in the countries like South Africa, Greece, Malaysia, Yemen, Muscat, Georgia, Kenya, Sharja, Nepal, Mozambique, Sri Lanka, Botswan, Sudan, Uganda, Nizer, Dubai, Thailand, etc. Our network has also enabled in the timely and prompt delivery of the products to the desired destinations.
