The management is investing aggressively on machine and man power that will ensure precision and total customer delight. The company has an existing testing facility comprising of fully equipped lab. The customer satisfaction is our prime motto.

PRODUCTS

CONTAINER LINER

The container liner is a liner bag of the same size as a standard 20 ft, 30 ft or 40 ft ISO container. This bag is fixed inside the container using lashings provided in the liner. The liner lines the inside of the container walls and hence the packed material is safer than in any sack or FIBC (Jumbo bags/Big Bags/1 ton bags). The walls of the container support the weight of the material packed and minimises any material damage.

PRODUCTS

Circular Cross Corner Bag

Business Type	Manufacturer, Exporter, Supplier, Retailer, Wholesaler
Type	Corner Bag
Material	Fibc Fabric
Use	Packaging
Color	Multicolor
Pattern	Plain
Features	Durable, High Strength
