ABOUT US

Sunman Engineering Inc. is a reputed entity in the industry based in Faridabad (Haryana). We are in the business of exporting and importing a qualitative range of products including Vegetable Oil Processing Plant, Vegetable Oil Processing Plant, Soya Protein Isolate Plant etc. The offered products are known for superior quality, reliability, and long service life while considerably reducing operational costs and energy consumption.

We have essential resources and advanced facilities that enable us to meet the appropriate requirements of our clients. Working with an objective to provide optimum quality products, we successfully import a wide stock of the entire range of products that we offer. Our products are widely used in hotels, bars, restaurants, milk product industries, oil manufacturing industries, chemical industries, and many more.

ABOUT US

At **Sunman Engineering Inc.** we ensure that the offered range of products are produced as per the international standards and are made available in various designs, sizes, and capacities as per their requirements and budget.

The company was started in the year 2009 and is running successfully under the supervision of Mr. S. L. Bhatoy. His business acumen and in-depth industry knowledge let the company thrive in the industry while achieving its business goals.
