Declaration of SVHC / REACH Compliance

Under Article 33(1) Regulations (EC) No. 1907/2006 of the European Parliament (REACH – Registration, Evaluation, Authorization, and Restriction of Chemicals), Sealed Energy Systems (“SES”) declares that to the best of our knowledge our batteries and battery assemblies do not contain a concentration above 0.1% of any of the 144 materials on the current candidate list of substances of very high concern (SVHC). See Candidate List in Annex XIV (Article 58 of EC No. 1907/2006), below.

- ❖ Article 33(1): *Any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59 (1) in a concentration above 0.1% weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of the substance.*

SES delivers batteries and battery assemblies to our customers, which are non-chemical products (“articles”) under the REACH Regulations, and which do not release substances or chemicals under normal conditions of use.

The **Candidate List** of **Substances of Very High Concern**” (SVHC) as identified in Article 59 (1) Annex XIV, includes 144 substances as of June 20, 2013 is published by the European Chemical Agency (ECHA) at:

<http://echa.europa.eu/candidate-list-table>

SES is fully aware of its obligations under the REACH regulations and strives for full compliance with all legal requirements. For this purpose we are taking measures to obtain the requested substance data from all of our battery cell and material providers.

Many Thanks
& Best regards,

For SEALED ENERGY SYSTEMS
