

ESTABLISHED IN THE YEAR OF 1987, COSMIC DEVICES IS A HIGH-FLYING IMPORTER AND SUPPLIER IN THE INDIAN MARKET. BASED IN DELHI, INDIA, WE ARE OFFERING PRECISION-ENGINEERED LOT OF ELECTRONIC PRODUCTS LIKE ELECTRONIC RESISTORS, ELECTRONIC CAPACITORS, SMD CHIP ZENER DIODES, ELECTRONIC THERMISTORS, SMD CHIP POTENTIOMETER, PULSE TRANSFORMER, HEAT SINK, COIN BATTERY HOLDER, COIN CELL BATTERY, LED COLORED LIGHTS, CRYSTAL OSCILLATOR, LED 7 SEGMENT DISPLAY AND MANY MORE. WITH YEARS OF ACTIVE PRESENCE IN THE INDUSTRY AND TECHNICAL EXPERTISE, WE ARE FURNISHING WIDESPREAD REQUIREMENTS OF THE BUYERS WITH OUR NOTHING SHORT OF EXCELLENT QUALITY PRODUCTS. OUR USP IS DEFINED BY CUSTOMER CONTENTMENT AND EXPANSION OF THE CLIENT BASE.

ABOUT US

Cosmic Devices is Delhi, India based organization and magnificently growing under the leading light of experts and veterans. With our years of experience, we have earned the reputation of a dignified Importer and Supplier in the Indian market. The organization was established in the year 1987.

VENDOR BASE :

WE HAVE A TEAM OF EXPERT PROCUREMENT AGENTS WHO RESEARCH THE ENTIRE MARKET FOR THE MOST RELIABLE VENDORS. WE CHOOSE OUR VENDORS BY CONSIDERING THE FOLLOWING FACTORS :

MARKET CREDIBILITY

RICH INDUSTRY EXPERIENCE

ABILITY TO OFFER HIGH QUALITY PRODUCTS

COMPETITIVE PRICE

CLIENT SATISFACTION :

WE HAVE ATTAINED A REPUTABLE POSITION IN THE MARKET OWING TO OUR WIDE-RANGING SOURCING, LARGE DISTRIBUTION NETWORK AND INDUSTRY LEADING PRICES. WE STRIVE TO DEAL WITH OUR CLIENTS DEMANDS BY FURNISHING CLIENTS' REQUIREMENTS WITHIN A STIPULATED TIME FRAME.

QUALITY POLICY : QUALITY IS OUR FORTE AND WE MAKE SURE THAT ONLY QUALITY TESTED ELECTRONIC DEVICES REACH THE CLIENTS. WE HAVE APPOINTED A TEAM OF PROFESSIONALS WHO PERFORM SEVERAL TESTS ON PRODUCTS AND ARE VERY MUCH RESPONSIVE TO CUSTOMERS' PRESENT AND FUTURE NEEDS. ALSO, WE HAVE INSTALLED VARIOUS HIGH TECHNOLOGY TESTING DEVICES AT OUR TESTING LABORATORY WHERE ALL THE DEVICES ARE TESTED ON FOLLOWING PARAMETERS :

- SAFETY
- DIMENSIONAL ACCURACY
- MATERIAL
- RESISTANCE TO CORROSION

OUR PRODUCTS

SMD Chip Resistor

We are considered as one of the well-known organisations for offering a wide array of SMD Chip Resistor to our esteemed customers. This resistor gives excellent performance with minimal trouble or error. This product of ours is extremely rugged in nature and ensures long lasting service life with corrosion resistance, high tensile strength, and sturdy construction. We offer this product at a very optimum price.

Light Dependent Resistors

As a famed name, we are involved in the supplying of quality Light Dependent Resistors. Superior grade raw material is used for making of this product. Owing to its detailed construction we are greatly appreciated by our patrons. Longer shelf life, corrosion, and abrasion resistant are some of the attributes that make our product highly demanding in the market. Moreover, we always do timely deliveries of our consignments along with safest packaging options. Buyers can contact us for bulk orders.

Preset Resistor

Years of expertise and experience of our dexterous professionals have helped us in offering an extensive range of Preset Resistor to our valued patrons. At the vendors end, our product is made from superior grade raw material and advanced technology keeping compliance with set industry standards. The offered product is checked on different parameters to ensure its quality. Accurate dimension, industry approved design and high durability is some of the features that help us in gaining high appreciation among the customers.

OUR PRODUCTS

SMD Chip Ceramic Capacitor

We are a leading importer and supplier of SMD Chip Ceramic Capacitor, which is used for various purposes. This product of ours is designed and developed by the manufacturer as per international standards. We use high-grade components that is quality tested, durable and procured from authorised vendors of the market. The prices are the best you can get in the market for such a quality product.

SMD Chip Tantalum Capacitor

We are offering a wide range of SMD Chip Tantalum Capacitor. This product of ours is well recognised for its cost effectiveness, high-performance levels, resistance to corrosion and long shelf life. Rated on the parameters of ergonomics and operational efficiency, our shaft makes it to the top of the list of the finest product. High-quality materials and components are used to make the offered product, and it is visible in its performance. Compared to other, our prices are reasonably low.

SMD Chip Mylar Capacitor

We are highly involved in supplying high-quality SMD Chip Mylar Capacitor. These products are made in compliance with international standards of quality and are made from high-grade raw materials by the manufacturer from whom we have procured. Our range of product is well tested on advanced inspection and testing procedures. Our customers have never been disappointed be it the quality of the capacitor, its pricing or prompt delivery.

OUR PRODUCTS

SMD Chip High Voltage Capacitor

Rated on the parameters of ergonomics and operational efficiency, our SMD Chip High Voltage Capacitor makes it to the top of the list of the finest product. High-quality materials and components are used to make this product by the vendor we have procured from, and it is visible in its performance. We give assurance of timely delivery and world class packaging options are offered by us. Compared to other, our prices are reasonably low.

Low Voltage Capacitor

We offer precisely dimensioned Low Voltage Capacitor to buyers all over the country. The quality approved products, we offer, are corrosion resistant, impact & heat resistant and long-lasting. This product of ours is fabricated using excellent quality raw materials under the supervision of experienced professionals. Moreover, the pricing for such a quality product is modest and we ensure speedy delivery.

Polyester Capacitor

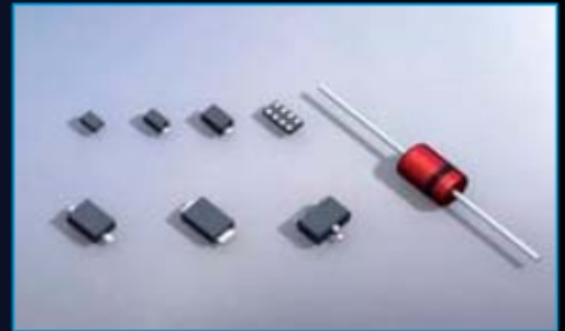

We are engaged in offering our valued clients a wide series of Polyester Capacitor. The manufacturers we have procured from make use of premium quality raw materials as per the international quality standards. Our products are durable, easy to install and incur negligible maintenance cost. One can purchase them in bulk from us. We offer these products of ours at a very low price.

OUR PRODUCTS

SMD Chip Zener Diodes

For the finest quality SMD Chip Zener Diodes, you can place your order with us. Our products are well appreciated in the markets all over the country. Superior quality products are used for making of these products at our vendor's end. The offered product is quality approved, comfortable and highly durable. We offer these diodes at competitive prices, and never disappoint our customers when it comes to quality and timely delivery

Flow Solder

Flow Solder is considered as one of the most demanded products that we are offering as per the demands of our valued customers. This product of ours is made from superior quality raw materials that ensure longer durability along with optimum performance. Moreover, our product is very easy to install and requires minimum maintenance. Latest technologies and advanced equipment are used for designing of this product.

SMD Chip Inductor

We are considered as one of the well-known organisations for offering a wide array of SMD Chip Inductor to our esteemed customers. This inductor gives excellent performance with minimal trouble or error. This product of ours is extremely rugged in nature and ensures long lasting service life with corrosion resistance, high tensile strength, and sturdy construction. We offer this product at a very optimum price.

OUR PRODUCTS

Drum Inductor

As a reputed firm, we are highly engaged in offering a varied range of Drum Inductor to our customers. This product of ours is designed according to the need and demands of our client. This inductor gives assurance of smooth work with longer durability making it desirable in the market. Moreover, our product requires very less maintenance and gives a high level of output with an optimum quality factor.

SMD Chip Fuse

We are experts when it comes to the supply of SMD Chip Fuse. The specially designed fuse we deal in is reckoned for excellent finishing and superior properties. We can design this product of ours in accordance with the industry stated norms and quality standards. This fuse is very easy to operate and ensures trouble free performance. They can be purchased in bulk from us. Moreover, we ensure safe and timely delivery of our range.

Axial Fuse

We have acquired a recognised position in this challenging industry, owing to our ability to offer an accurately designed range of Axial Fuse. The product is designed and developed using the high-quality components as well as modern technology at our vendor's end. The long lasting nature, smooth finishing and compact size have made our product the foremost choice of vast clientele all over the nation

OUR PRODUCTS

Ceramic Fuse

Contact us for purchasing Ceramic Fuse. We have imported this from the renowned manufacturer of the world having a well-developed production facility and experienced skilled workers for bringing forth this fuse in different sizes and finishes. This product gives hassle free working, requires less maintenance and has a longer operational life. Furthermore, they can be delivered to buyers all over the country within stipulated time and with premium grade packaging options

Glass Fuse

We offer our clients a fine range of Glass Fuse. This range of product is processed using superior technology and advanced techniques. Manufacturers quality auditor scrutinises the fuse on various parameters to give assurance of their superiority. Available at a reasonable price our wide assortment of the fuse is considered to be the best available product in the market.

SMD Chip Thermistor

We offer a wide range of SMD Chip Thermistor. At our vendor's end, a team of experienced engineers designs a high-performance product that is used for various purposes. The materials used in the production comply with the highest standards of quality. Owing to the advanced engineering, flawless designs, and superb functioning, our product has penetrated into markets countrywide. The pricing for such a quality product is also modest.

OUR PRODUCTS

PTC Thermistor

PTC Thermistor offered by us is exemplary for their robust construction. Our expert professionals have focused on a design that only provides the best performance but also withstands the testing conditions to which the adopter is exposed. This thermistor is used widely for various purposes. We are a well-established organization to cater to the wholesale requirement. Furthermore, we provide safest packaging options.

NTC Thermistor

We are highly engaged in offering NTC Thermistor. These thermistors are used for various purposes. The offered product is highly appreciated and recommended by our clients because of its ergonomic design, consistency, and robust construction. Prior to the shipment, our products are well tested on different parameters by the manufacturer to give assurance of damage free delivery at the clients end.

SMD Chip DIP Switches

We are highly applauded by our customers for providing them high-quality SMD Chip DIP Switches. Our emitters have dimensional accuracy, finest quality and give top performance. The offered product is widely used for various purposes. We make use of superior grade raw material and latest technology for manufacturing these products of ours. Further; we give assurance of timely delivery.

OUR PRODUCTS

SMD Chip Tact Switches

We are offering a wide range of SMD Chip Tact Switches. This product of ours is well recognised for its cost effectiveness, high-performance levels, resistance to corrosion, solar heat, and long shelf life. High-quality materials and components are used at our vendors end to make the offered product, and it is visible in its performance. Compared to other, our prices are reasonably low.

SMD Chip Integrated Circuit

We are instrumental in offering a wide variety of SMD Chip Integrated Circuit to our customers. Accurate dimensions, perfect finishing, and reliability are some of the features that make our product highly demanding in the market. The supplied parts are stringently tested on various parameters before shipment. We accept bulk orders and deliver in time. Our packaging options are also best that gives assurance of deliverance of damage free products. Moreover, we offer this product at reasonable prices.

SMD Chip Ferrite Beads

Our SMD Chip Ferrite Beads can be rated on attributes such as ergonomics and operational efficiency. It is counted among one of the top of the class. We have brought these beads from manufacturers who use high quality materials and constituents in manufacturing this product, which exhibits in the performance. Accurate dimension, industry approved design and high durability is some of the features that help us in gaining high appreciation among the customers.

OUR PRODUCTS

SMD Chip Potentiometer

For several years, we have been counted as one of the noteworthy importers and suppliers of SMD Chip Potentiometer from Delhi, India. We are well-known for offering superior quality products and praised for providing a wide array of items at affordable rates in the market. This product, supplied by us, is processed using high-grade raw materials. While this product promises long shelf life, we pack these using exceptional materials and guarantee timely delivery to our valued clients.

SMD Chip Trimmer

Our range of SMD Chip Trimmer is exemplary for quality, solid designs, and sturdy construction. Our competent team of workers processes the product using modern technology and 100% approved materials. To achieve client satisfaction, we thoroughly examine these products to make sure its defect-free and safe to use. We are based in Delhi, India.

CPU Connector

We are one of the core importers and suppliers of CPU Connector from Delhi, India. It is a matter of delight to offer the finest range of products at economical rates in the market, and these are available in various sizes. Since the product, offered by us, is high in demand, we process it carefully to make sure that it is of the highest quality. We package the product using tightly, and deliver it safely and timely to our admired clients.

OUR PRODUCTS

Relimate Connector

Owing to the hard work and goodwill, clients love our Relimate Connector and we continue to deliver top-rate products in the market. Our high-tech manufacturing unit and team of workers carefully manufacture the product using advanced machinery and modern equipment. Our range of products is comfortable to use and promises durability and low maintenance cost. We are based in Delhi, India.

TVS Connectors

We have maximum expertise in delivering the finest range of TVS Connectors to our clients. The offered products are highly appreciated in the market, and we manufacture these using premium raw materials. This product, supplied by us, is long-lasting and requires low maintenance cost. Before supplying to the clients, this item is quality-tested, and we source it from excellent traders in the market. We are based in Delhi, India.

IC Socket

As we have gained appreciation in the industry for our cost-effective products, we are well-known for offering reliable products. Our range of IC Socket guarantees a great performance and optimum functionality. As per the need of the clients, we package these using premium packaging materials and deliver it timely to the clients. Also, we accept bulk orders by the clients. We are located in Delhi, India.

OUR PRODUCTS

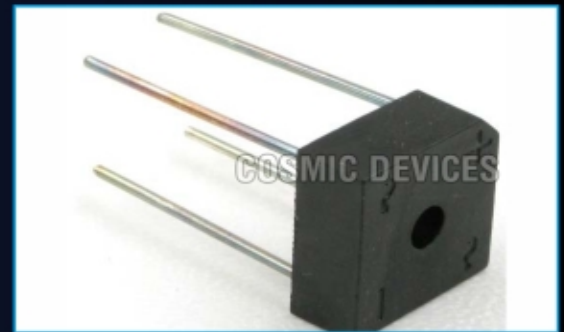

ZIF Socket

If you need long-lasting ZIF Socket from Delhi, India, give us a call. Being one among the acknowledged importers and suppliers, we offer superior quality sockets at market leading prices. Our team of dedicated workers carefully processes the product using high-grade materials. The offered product is loved in the market as it promises low maintenance cost and longer functional life. We source this product from trusted vendors in the market.

Bridge Rectifier

Offered in the market at nominal rates, our range of Bridge Rectifier is loved by our clients, and for the finest quality, we process these in compliance with the industry norms. While we offer the finest quality of products to our clients, the USP of our range of rectifiers is that these are corrosion resistant, have high tensile strength, and guarantee longevity. While we package this product using premium materials and ensure timely delivery of the product, we source these from reliable vendors in the market. We are located in Delhi, India.

Crystal Resonator

Given the help and unflinching support of the workers, we are able to successfully provide a diverse range of Crystal Resonator at competitive rates. Being one of the most dependable importers and suppliers, we offer dimensionally accurate products to our clients worldwide. Before supplying this product, we conduct quality tests to check its quality and various other specifications. While this product promises easy installation, and high performance, we carefully process it to ensure the finest products. We are based in Delhi, India.

OUR PRODUCTS

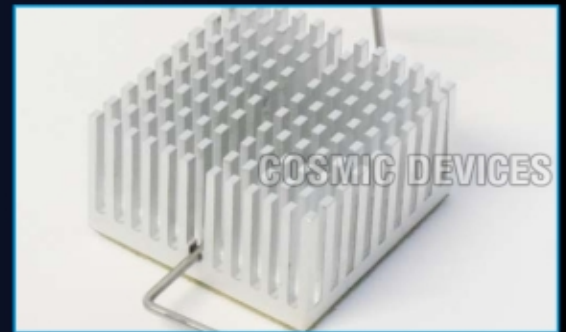

Pulse Transformer

We offer exceptional quality of Pulse Transformer at affordable rates in the market and we work hard to deliver top-quality products to the clients. The unique selling point of our range of products is that these have high tensile strength, are corrosion resistant, and promise longer functional life. While we package these using premium grade raw materials and ensure timely delivery, we source these from traders in the market. We are based in Delhi, India.

Heat Sink

We specialize in offering the finest quality of Heat Sink in the market at cost-effective prices. Our team of workers fabricates this product by using the finest materials sourced from trusted traders in the market. While procuring, we pay special attention to ensure that these are defect-free. As per the requirements of our valued clients, we offer the product in various sizes and ensure speedy delivery to the clients. We are based in Delhi, India.

Coin Battery Holder

We are highly acclaimed in the market for offering a striking range of Coin Battery Holder at budget friendly rates. We value our clients, and promise extraordinary fine quality products, and our range of products is acknowledged among our patrons for its anti-corrosive nature and majestic shine. We offer a wide range of holders in different sizes. Before supplying the product, we thoroughly check it as per the quality assurance tests to ascertain its quality and durability. We are located in Delhi, India.

OUR PRODUCTS

Coin Cell Battery

We are one of the central importers and suppliers of Coin Cell Battery from Delhi, India. We are well-known in the market to offer the products made up of the finest quality and we have a team of professionals who processes these products using approved raw materials, proven production methods, and sophisticated machinery. For the ease of the clients, we pack the shipment as per clients requirements and deliver them safely and timely.

LED Colored Lights

As we offer top-quality products in the market, clients look forward to our range of products and we work hard to ensure that we maintain our goodwill in the market. We process the LED Colored Lights using the finest raw materials, and modern equipment under the guidance of experts. While this product is known to create a high-quality illumination for any indoor environment, we guarantee 100% satisfaction to the buyers and provide uninterrupted services. We are located in Delhi, India.

Crystal Oscillator

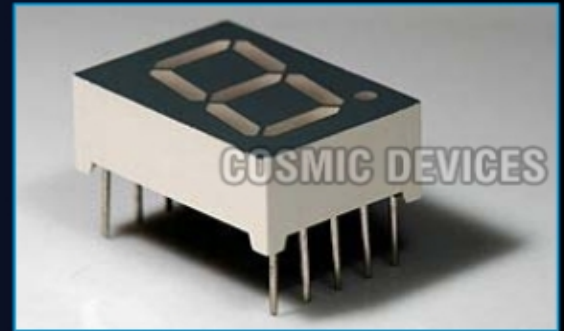

We are praised for our top-quality products, and the offered Crystal Oscillator is in high demand in the market as we manufacture it as per the industry norms and regulations. While we make sure that it is made up of 100% approved material, this product guarantees longer functional life, and high efficiency, and we source it from authentic vendors in the market. We are located in Delhi, India.

OUR PRODUCTS

LED 7 Segment Display

We have created a foothold in the market for supplying the finest range of LED 7 Segment Display to our esteemed clients. We are based in Delhi, India. Our unique range of products is loved by the Indian and global customers, and these are long-lasting. The products, supplied by us, promises high strength, efficiency, and these products have a cost-effective price range.

Electronic Transistor

The Electronic Transistor, offered by us, is known for its fine quality, and classic engineering. Our well-qualified workers work hard to process these transistors using cutting-edge technology and up-to-date equipment. We are one of the most well-established importers and suppliers, and we cater to the bulk requirements and ensure safe delivery of the product. We are located in Delhi, India.

Resistor Network

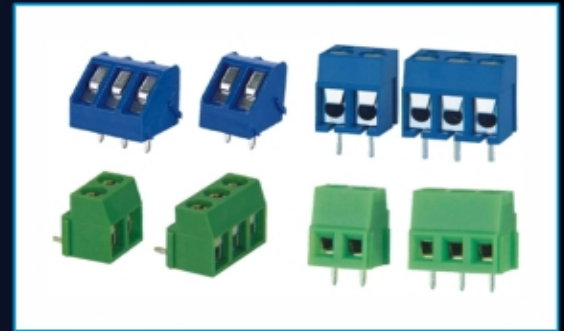

We offer a wide gamut of Resistor Network to our Indian and global clients. While we excel in offering the finest range of products at reasonable rates in the market, we have a team of experts who processes these products under hi-tech processing units and using premium materials. The offered product is highly praised as these are sturdy, and promise longer functional life. We are located in Delhi, India.

OUR PRODUCTS

Terminal Blocks

Considering the growing demand in the market, we provide a qualitative range of Terminal Blocks at suitable rates in the market. We have a team of workers who work hard to manufacture this product using approved raw materials and sophisticated machinery. While these blocks are available in different specifications, we make sure that these are safe to use and promises long shelf life. We are based in Delhi, India.

Obsolete Electronic Components

The products, supplied by us, are praised in the market for its solid designs, and best quality. After years of hard work, we have become popular amongst the clients as our range of Obsolete Electronic Components is known for its fine quality and durability. While the offered component is manufactured using approved materials, and checked for its quality, it is praised by the clients for its sturdy construction, corrosion-free nature, and effective usage. As this product is widely used in various industry related applications, the components can be availed in many sizes, and other specifications. We are based in Delhi, India.

LCD Glass Touch Panel

After years of practice and know-how, we are well-known in the market to offer the finest range of LCD Glass Touch Panel at cost-effective rates in the market. While we promise efficient and reliable products, we invariably meet the clients varied requirements and offer a wide range of such panels in different specifications. We package these in safe packaging and promise timely delivery to the clients. We are based in Delhi, India.

OUR PRODUCTS

Berg Strip

In order to satisfy the need of our clients, we are engaged in delivering an optimum range of Berg Strip at suitable prices. We are known to manufacture this product using the finest raw materials and modern equipment. This product, supplied by us, is widely used by the clients for various applications, and the salient feature of this product is that it has excellent durability, promise high tensile strength, and robust construction. We are located in Delhi, India.

LCD Module Cob

The product, supplied by us, is available in perfect dimensions and we carefully manufacture LCD Module Cob to ensure optimum performance, maximum strength, and low maintenance cost.

Resistance Array

We are privileged to offer an extensive array of Resistance Array in the market, and we offer superior quality products at suitable rates. Our distinctive range of products is manufactured using approved raw materials and checked for its quality. While we guarantee uncomplicated performance and high-efficiency, we source these from authentic vendors in the market. This product is closely examined to ensure defect-free delivery to the clients. We are based in Delhi, India.

OUR PRODUCTS

Electronic Trimpots

Our products are the perfect blend of unique, and economical, and we offer top-quality products to the clients. We are one of the reputed importers and suppliers of Electronic Trimpots, and we excel in offering the finest range of products at lucrative rates in the market. Our pristine range of products is processed using top-quality raw materials, and its USP is that it promises longer functional life, low maintenance cost, and smooth functioning. We are located in Delhi, India.

SMD Chip Bridge Rectifier

We bring forth the finest range of SMD Chip Bridge Rectifier in the market, and due to the huge appreciation for our products; we deliver these at nominal rates. While the offered product is processed using approved raw materials and modern tools, it is in high demand as it is extensively used for a number of industrial applications. The rectifier is packed safely and timely delivered to the clients. We are located in Delhi, India.

SMD Chip Transistor

We are experienced in delivering first-rate SMD Chip Transistor to our clients across the globe. We manufacture the products using top-quality components, and under the guidance of qualified workers. While our range of products can be availed at economical rates, these guarantee optimum performance and durability. We package the products safely, and these can be availed as per the clients requirement. We are located in Delhi, India.

OUR PRODUCTS

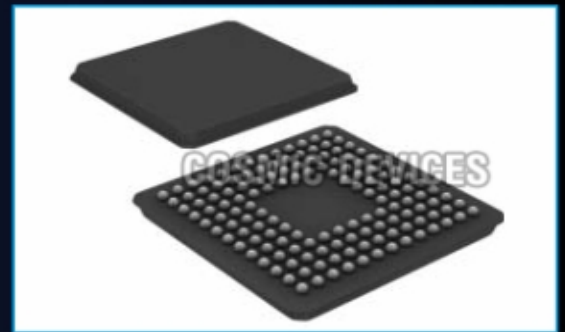

SMD Chip Mosfet

After analyzing the market needs and trends, we engage in providing the finest quality of SMD Chip Mosfet at pocket-friendly rates. We manufacture Mosfet using high grade components and modern equipment under the strict supervision of skilled experts. These products promise effective results and hassle-free performance and require low maintenance cost. We are based in Delhi, India.

SMD Chip Microprocessor

We are one of the leading importer and suppliers of SMD Chip Microprocessor and are based in Delhi, India. Our products have been fabricated as per the international quality standards and norms making them safe for use. They find applications in several industries due to which the demand has increased manifold. We assure our customers the best quality products leaving no scope for complaints. We undertake bulk orders and provide timely delivery.

SMD Chip Microcontroller

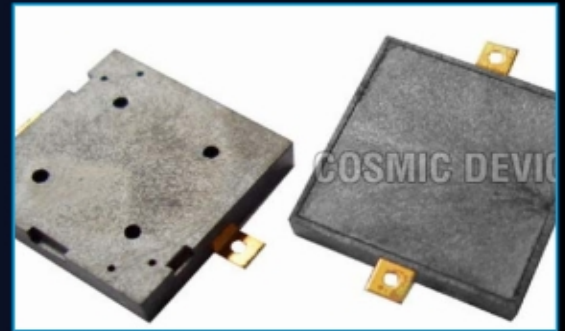

The SMD Chip Microcontroller has been designed by professionals as per the standards and norms. Only premium quality products are dispatched to our customers. We provide the orders in safe packages that ensure safe and damage-free delivery. Our excellent logistic team provides our esteemed customers with timely delivery at affordable prices. We are known to handle small and bulk orders of the product and assure prompt delivery.

OUR PRODUCTS

SMD Chip Buzzer

As we are reckoned as one of the top suppliers of SMD Chip Buzzer from Delhi, India, we ensure that all the products provided by us are made of the best quality raw materials without any defect. The fine finish along with the latest technology used makes it one of the most demanded product providing effective result every time. We supply them in safe packages that assure safe and timely delivery at budget-friendly prices.

SMD Chip Transient Voltage Suppressor

We offer our prestigious clients with the best quality SMD Chip Transient Voltage Suppressor which are made of the top quality raw materials. They are engineered by our team of experts making them safe and completely reliable. Our product is widely demanded due to its hassle free performance and durability. We assure timely and damage-free delivery of the product within the stipulated time at pocket-friendly prices.

SMD Chip Hall Effect Sensor

With the help of our experts, we have been involved in this field of supplying the best quality SMD Chip Hall Effect Sensor to our customers. The strong construction and advanced functionality make it a favourite amongst our clients. We provide our customers with the product in various finishing standards as per their requirement. All the offered products are made as per the internally accepted quality standards. We are known to handle bulk orders very efficiently.

OUR PRODUCTS

LCD Display Panel

All the LCD Display Panels offered by us are designed and manufactured as per the latest demands and trends that are prevailing in the market. They are available in various sizes and in trendy designs. They are easy to operate and has a robust design. They have an excellent finish are demanded widely due to their durability. We take up small and bulk orders efficiently and deliver on time with zero damages.

LED Display Panel

Being a prestigious supplier of LED Display Panel we ensure that the offered range of display panels are as per the requirement and specifications of the client. These panels are available in various sizes and shapes as per the demand of the customer. They can be fitted anywhere and they are highly durable. The sturdy finish and affordability of the product make it one of the highly demanded product. We provide them in safe packages that promise damage-free delivery at affordable rates.

Electronic Buzzer

We provide our clients with the best quality Electronic Buzzer. They provide high performance and a longer functional life to the product. The robust design and easy operation make it a favourite amongst customers. They are completely safe for use leaving no scope for complaints or defects. The orders are provided in safe packages and our logistics team ensures prompt delivery as well.

OUR PRODUCTS

Electrical Relay

We offer our clients with top quality Electrical Relay. These relays demonstrate high performance and comes with a longer functional life. Tough design and layman operational functionality makes it very popular among its users. This product is quality-checked for zero defects and are is offered at great prices. We ensure that each item is packed in tamper-proof packages so as to avoid damage in transit.

Reed Switch

Cosmic Devices supply and import wide range of Read Switches such as read switch sensor, thermal reed switch, magnetic reed switch, reed sensor, position sensor switch, magnetic switch sensor, and magnetic switches. We offer clients with different brands such as SMC reed switch, Festo reed switch, Janatics reed switch, and Norgren reed switch. These products are designed by reliable vendors of the market using advanced technology and latest machines with superior grade basic material.

Features :

- Compact Design
- Perfect Finish
- Durability

Gas Discharge Tube

Gas Discharge Tubes (GDTs) are used to protect personnel and sensitive equipment from hazardous transient voltages. Its used in primary and secondary applications and can withstand multiple applications of high surge current energy in excess of 25 KA. WE offer standard 8 mm GDTs and a 5 mm mini series GDT in two and three electrode versions featuring long service life and low capacitance and insertion loss. An optional, proprietary Switch-Grade Fail-Short is offered on the three electrode version to provide superior protection from thermal runaway.
