# About Us

Established in the year 1987, Mukund Trans-Gears is a prominent Manufacturer, Exporter and Supplier of a wide range of Industrial Equipment. We are headed by the CEO Mr. Vinayak Mukund Talwalkar. He has 23 years of experience in the field of gear box manufacturing and it is through his sharp managerial skills and dynamic approach that we have made it to the top. The company is located at Sangli, Maharashtra, India.

## Infrastructure

We are supported by a robust infrastructure which is proficiently managed by our staff. Our manufacturing unit is spread across 2000 sq. feet and is comprised of the latest machines like

- Gear Shaping Machine - HMT
- Gear Shaping Machine - Sykes
- Gear Hobbing Machine - LMW
- Lather - Shimoga

Our efficient team of service engineers handles day to day working and Quality Department. We have a large manufacturing capacity of 15000 gears / month. We have advance testing facilities like Gear Testing and Micrometers to check the quality of the products at different steps of production process. R&D facilities help us in making constant improvements in the design & development of the products.

## Network

We have a vast network which is spread across the Indian markets as well as the other parts of the world. We stay well connected to our clients and dealers and make smooth business transactions throughout the world. Apart from supplying in India we export our products to Austria.

## Clientele

We have made our name as one of the most trusted firms in the country and have formed a huge clientele. We have the most reputed clients who have been loyal to us from a long duration of time now. Our clientele has the following names added to it:

- Fie Group , Ichalkaranji
- Transmatix, Satara
- Excellent Engg. Ind. Pvt. Ltd., Sangli
- Gear-Tech Engineers, Sangli

## Planetary Gearbox

|             |   |                          |
|-------------|---|--------------------------|
| Type        | : | Planetary Gearbox        |
| Material    | : | Alloy Steel              |
| Style       | : | Horizontal, Vertical     |
| Color       | : | Available in Many Colors |
| Finishing   | : | Polished                 |
| Driven Type | : | Electric                 |
| Motor Power | : | 5-7hp                    |

Backed by our team of dexterous professionals, we have emerged as a proficient Manufacturer, Supplier and Exporter of Planetary Gearboxes from Maharashtra. The Planetary Gearboxes we make available are manufactured in compliance with set industrial norms. To cater the bulk and urgent requirements of the buyers, we maintain a large stock of the Planetary Gearboxes in our state-of-the-art warehouse. The entire range of the Gearboxes is reasonably priced by us.

## Track Drives

|              |   |                            |
|--------------|---|----------------------------|
| Type         | : | Drives                     |
| Frequency    | : | 50/60HZ                    |
| Power Source | : | Electric                   |
| Phase        | : | Double Phase, Single Phase |
| Warranty     | : | 1 Year                     |
| Applications | : | Inverters Use              |

## Aluminium Timing Pulleys

|             |   |                                  |
|-------------|---|----------------------------------|
| Size        | : | 60-75Inch, 75-90Inch, 90-105Inch |
| Type        | : | Timing Pulleys                   |
| Material    | : | Aluminium                        |
| Shape       | : | Round                            |
| Thickness   | : | 10-15mm, 15-20mm                 |
| Application | : | Pulling                          |
| Surface     | : |                                  |
| Finishing   | : | Polished                         |

## Charging Pump

|             |   |  |
|-------------|---|--|
| Type        | : | Pumps  |
| Application | : | Agriculture, Automotive, Industrial, Marine, Power |
| Weight      | : | 10-20kg  |
| Pressure    | : | High Pressure, Low Pressure, Medium Pressure       |
| Warranty    | : | 1year  |

We have come up with the highly demanded Charging Pumps. These Charging Pumps are manufactured with the use of latest technology and are known to give high performance. These Charging Pumps are very efficient and require low maintenance. We test these Charging Pumps under stringent industrial norms and to prevent any type of faults.

## Industrial Sprockets

|             |   |                      |
|-------------|---|----------------------|
| Size        | : | 10-15inch, 15-20inch |
| Type        | : | Sprockets            |
| Material    | : | Alloy Steel          |
| Thickness   | : | 10-15mm, 5-10mm      |
| Application | : | Industrial Use       |
| Color       | : | Siver                |

We bring forth the finest range of Industrial Sprockets to our clients. Sprockets are teeth like projections set on a wheel rim to connect the links of a chain. Industrial Sprockets hold chains in various different conveyor systems and power transmission. Inserted sprockets are also intended to reduce operation and noise. The Industrial Sprockets must be inspected once in a month for wear and worn down and broken teeth should be replaced. The Industrial Sprockets and the chain must be lubricated with chain lube like bell ray.

## Bevel Planetary Drives

|             |   |                          |
|-------------|---|--------------------------|
| Size        | : | 10inch, 14inch, 8inch    |
| Type        | : | Drives                   |
| Material    | : | Mild Steel               |
| Shape       | : | Round                    |
| Application | : | Industrial               |
| Color       | : | Available in Many Colors |

## Winch Drives

|                |                          |
|----------------|--------------------------|
| Type           | Drives                   |
| Application    | Industrial               |
| Weight         | 100-1000kg               |
| Color          | Available in Many Colors |
| Warranty       | 1 Year                   |
| Rope Thickness | 10-15mm, 15-20mm         |

We bring forth highly demanded Winch Drives which are very useful in application where rotation bearings have to be driven hydraulically with the help of multi disc breaks and electrically with the use of electromagnetic breaks. These high strength Winch Drives manufactured from stainless steel.

## Worm Gearbox

|              |   |                             |
|--------------|---|-----------------------------|
| Type         | : | Gearbox                     |
| Material     | : | Aluminum                    |
| Color        | : | Silver                      |
| Finishing    | : | Polished                    |
| Motor Power  | : | 1-3hp                       |
| Applications | : | Automobiles, Industrial Use |
| Input Speed  | : | 1400rpm                     |

Our clients can avail from us highly demanded Worm Gearboxes. These Worm Gearboxes can be standardized for better precision. Worm Gearboxes are the best for average precision meshes, where as to get high precision there has to be a careful selection made. Our Worm Gearboxes are possibly the apt choice for an arrangement of high velocity ratio and right angle drive. Proper lubrication should always be done in use of worm gears as high sliding needs lubrication at all times.

# Our Products

## Helical Gears

|             |   |                             |
|-------------|---|-----------------------------|
| Type        | : | Gears                       |
| Material    | : | Mild Steel                  |
| Application | : | Automobiles, Industrial Use |
| Weight      | : | 10-20kg                     |
| Color       | : | Metallic                    |
| Finishing   | : | Polished                    |
| Driven Type | : | Electric                    |

Helical Gears are ideally suited for very high speed and take up appreciable load. Helical gears primarily join to parallel shafts, with the teeth lying along helices. Parallel shafting ensures high speed and application where spurs gears are used. Helical Gears are widely recommended for all high speed and high load meshes. Helical Gear is more or less equal in quality to spurs except the complication of the angle. Proper lubrication should always be done in use of Helical Gears.

## Harmonic Drives

|           |   |          |
|-----------|---|----------|
| Type      | : | Drives   |
| Material  | : | Metal    |
| Shape     | : | Round    |
| Feature   | : | Durable  |
| Finishing | : | Polished |
| Warranty  | : | 6 Months |

We are a reputed Manufacturer, Exporter, and Supplier of Harmonic Drives with the newest technology. We offer the machine and motion control design engineer the widest choice of harmonic drive gearing products. Our Harmonic Drives exhibit high rigidity and preferred for their high torque capacity. These drives are exclusively designed for gear boxes. The impressive coaxial input and output make our Harmonic Drives the choicest mechanical device in industry.
