## QUESTIONNAIRE FOR KALPAK LEAK TESTER

Company Details:

Company Address :

Contact Person/Designation:

Tel No.

E-mail :

1. Description and application of the component:

2. Detailed drawing of the component:

3. Nature of test to be conducted on it:

4. Test pressure and tolerance:

5. Medium used in actual practice:

6. Media preferred for test purpose:

7. Permissible leak:

8. Volume of component:

9. Cycle time of test excluding loading/unloading:

10. Is it a random test or 100% test:

11. Present leak testing method:

12. Type of leakage you intend measuring: (Tick whichever applicable)

Porosity of casting	Welding/brazing joint leak	Seal/ gasket leakage	Others :
---------------------	----------------------------	----------------------	----------

13. Fixture & fixturing presently employed:

14. Fixture & fixturing required:

15. Whether testing required should be automatic:

16. Details of pneumatic supply available with you:

17. Is vacuum supply available with you? If so give details:

18. Are you sending a sample piece to us for evaluation? :

19. Additional Requirements to be incorporated in Software such as Special Test Report formats/  
Data Analysis requirements to be incorporated:

Name:

Designation:
