CHEMIPROTECT

A CHALLENGE TO CORROSION

About Us

CHEMIPROTECT ENGINEERS is a trusted manufacturer, exporter, supplier, and service provider of acid-resistant mortars, industrial flooring systems, protective coatings, and specialized lining solutions. Established in 1990, the company has built a strong reputation for delivering high-performance chemical-resistant products and industrial flooring systems designed for demanding industrial environments.

Founded by Mr. Dilipbhai Joshi, Mr. Raju Joshi, and Mr. V. A Shah, the company brings together over five decades of industry expertise in corrosion protection, acid-proof construction, and industrial surface protection technologies.

We manufacture a wide range of acid resistant mortars, epoxy flooring systems, polyurethane flooring, glass flake reinforced coatings, waterproofing systems, epoxy primers, tile adhesives, repair mortars, and industrial protective coatings. Our solutions are widely used in chemical plants, pharmaceuticals, food processing industries, refineries, power plants, and manufacturing facilities where durability and chemical resistance are critical.

At CHEMIPROTECT ENGINEERS, quality and performance are our top priorities. All products are manufactured using premium raw materials and advanced formulation technology, and undergo strict quality checks to ensure long-term reliability, chemical resistance, and structural protection.

We also specialize in customized industrial solutions, working closely with clients to understand their project requirements and deliver tailored systems that provide maximum durability, safety, and cost efficiency.

With decades of experience, technical expertise, and commitment to innovation, CHEMIPROTECT ENGINEERS continues to deliver reliable protection solutions for modern industrial infrastructure.
