

ACME SCIENTIFIC
INTERNATIONAL

Manufacturer,
Exporter, Wholesaler
& Retail Supplier

Our Products

- ✓ Cement, Concrete & Aggregate
- ✓ Equipment Soil
- ✓ Bitumen
- ✓ Rock Products

ACME Scientific International was incorporated in the year 1996, under the visionary leadership of our CEO Mr. Harsh Bhardwaj, who wanted to establish professional business entity involved in production of world class Industrial Testing Machines. Since then the company has diversified its operations in varied directions in terms of quality and quantity of products manufactured. Backed by Latest Technology, Efficient Workforce and Client Centric Approach have helped us to maintain our lead among the reputed Suppliers from Delhi.

Technological Edge

In order to offer world class industrial testing solutions, we constantly upgrade the technology used in the manufacturing process of our machines and equipments. Our association with the technology leaders specializing in industrial testing machines has helped us to manufacture and supply world class industrial machines with precise measurement capacity.

Our technologically advanced manufacturing machines include :

- ✓ Servo hydraulic testing machine
- ✓ Environmental chamber
- ✓ Flexural test fixtures
- ✓ Tensile testing machines
- ✓ Strain gages
- ✓ Measuring devices

Diligent Team

We have hired an expert team which comprises of expert designers, qualified engineers, and several skilled and non skilled workers who put in their technical knowledge and hard work to churn our premium quality testing equipments. Our team also undergoes regular skill up-gradation program to ensure that it is in touch with the latest developments. Our well equipped manufacturing facility is backed by our well experienced and talented team of technically qualified mechanical engineers, technicians, quality managers, quality control teams and other associated professionals who consistently assist us in the manufacturing of construction material testing equipment.

Quality Policy

Being a Quality Conscious Organization, we lay lot of emphasis upon the quality and performance of the products manufactured and supplied by us. To ensure premium quality of testing machines, we have designed quality check mechanism in accordance with per IS, ASTM, BS and several other international standards.

Research and Development

Our well experienced and talented research and development team always carry out research of the market and assist us in bringing meaningful up gradation in our products. Their latest and innovative research regarding product development helps us to ensure flawless range of high tech testing equipment at the most competitive price. Their expertise also helps us to incorporate technology enhancement to bring a marked increase in our production.

Warehousing & Distribution Network

To maintain the quality of our testing equipment till the end, we store all our testing equipment in our capacious warehouse, which stores our equipment in an efficient and proper manner. Further to ensure hassle free delivery, proper labeling is done on all our products and they are segregated according to their use and applications. This helps in easy identification of our products and ensures timely delivery of our testing equipment. We have tie-up with reliable C&F agents that ensure safe and prompt distribution of our international standard testing equipment. They are equipped with wide range of vehicles for successfully transporting our products to every corner in the market. They ensure us with safe and timely delivery of our products to our clients, which leads to complete customers satisfaction.1

Client Satisfaction

Our team carries out all the operations according to the latest market trends and clients requirements so that we can improve on our testing equipment for their better performance. The team members work in close co-ordination with our clients to understand their specific requirements and deliver them with the custom manufactured testing equipment. Our strong distributions network helps us to deliver the products as per the given schedule.
