

# Zed Chem Pvt. Ltd.

Zed Chem Pvt. Ltd. is a leading Manufacturer, Exporter, and Supplier of Industrial Chemicals. We offer NaClO<sub>2</sub> Sodium Chlorite, Sodium Chlorite Powder, Liquid Sodium Chlorite, Disinfection Sodium Chlorite, Textile Bleaching Sodium Chlorite, Water Treatment Sodium Chlorite etc. We manufacture all chemicals in well-equipped units and take great care of the process. We have a team of experts, who supervise operations with perfection. We believe in evolving as a company and being at par with the industry demands. Moreover, all these products come at industry leading prices. While shipping these products, we take the required safety measures. Established in 1989, Zed Chem Pvt. Ltd. is reckoned as a prominent name in the region and all over world. We are based in Ahmedabad, Gujarat (India) and we operate acr

# About Us

Zed Chem Pvt. Ltd. is a leading Manufacturer, Exporter, and Supplier of Industrial Chemicals. We offer NaClO<sub>2</sub> Sodium Chlorite, Sodium Chlorite Powder **80% AND 50%**, Liquid Sodium Chlorite **31% AND 25%**, Sodium Chlorite **for Disinfection**, Textile Bleaching Sodium Chlorite, Water Treatment Sodium Chlorite etc. We manufacture all chemicals in well-equipped units and take great care of the process. We have a team of experts, who supervise operations with perfection. We believe in evolving as a company and being at par with the industry demands. Moreover, all these products come at industry leading prices. While shipping these products, we take the required safety measures.

Established in 1989, Zed Chem Pvt. Ltd. is reckoned as a prominent name in the region. We are based in Ahmedabad, Gujarat (India) and we operate across the country and All Over The World.

## Our Mission

Our mission is to succeed with our business. We wish to make our business hassle-free anywhere and reach a global audience, and functioning with promptness and efficiency.

## Chemicals

The range of chemicals that we offer is suitable for various processes. Many chemical enterprises across the country procure chemicals from us. We offer fine quality chemicals at affordable prices. Before we offer these products, we make sure to carry out the necessary tests.

## Infrastructure

The infrastructural facility that we have in our firm is outstanding. We use the best of technology during all operations. Not just this, we hire highly skilled human resources from the industry. We are thus dedicated to offer only the best.

# Out products

## NaClO<sub>2</sub> Sodium Chlorite

Features	:	Longer shelf life, Very effective, Precise pH value
Molar mass	:	90.44 g/mol
ChemSpider ID	:	22860
Density	:	2.5 g/cm <sup>3</sup>
Purity	:	80%
Formula	:	NaClO <sub>2</sub>
Packaging Size	:	50 Kg
Packaging Type	:	As per requirement

### Additional Information

Min. Order Quantity	:	50 Kilogram
---------------------	---	-------------

## 80% To 50% Grade Sodium Chlorite Powder

Purity	:	80%
Packaging Type	:	As Per Requirement
Melting Point	:	180-200 Degree C
Molecular Weight	:	90.44 g/mol
Density	:	2.50 g/cm <sup>3</sup>
Molar mass	:	90.44 g/mol
VAT	:	5%
Grade	:	80% To 50 %

# Out products

## 25% To 31% Grade Liquid Sodium Chlorite

Form	:	Liquid
Packaging size	:	As Per Requirement
Boiling Point	:	1465 Degree C
Formula	:	$\text{NaClO}_2$
Molar Mass	:	90.44 g/mol
Melting Point	:	800.7 Degree C
pH Value	:	7-8
Grade	:	25%, 31%

### Additional Information

Min. Order Quantity	:	50 Kilogram
---------------------	---	-------------

## Disinfection Sodium Chlorite

Features	:	Very effective, Longer shelf life, Precise pH value
Molar mass	:	90.44 g/mol
ChemSpider ID	:	22860
Density	:	$2.5 \text{ g/cm}^3$
Formula	:	$\text{NaClO}_2$
Packaging Type	:	As per requirement
Sodium Chlorate ( $\text{NaClO}_3$ )	:	Max 1.5%

# Out products

## Textile Bleaching Sodium Chlorite

CAS No.	:	7758-19-2
Purity	:	80%
Features	:	Longer shelf life, Very effective
Molar mass	:	90.44 g/mol
ChemSpider ID	:	22860
Density	:	2.5 g/cm <sup>3</sup>
Formula	:	NaClO <sub>2</sub>
Sodium Chlorate (NaClO <sub>3</sub> )	:	Max1.5%

# Out products

## Water Treatment Sodium Chlorite

Molecular Weight :	90.44 g/mol
Melting Point :	180-200 Degree C
Usage :	Water Purification
Formula :	$\text{NaClO}_2$
Density :	2.50 g/cm <sup>3</sup>
Molar mass :	90.44 g/mol
