Established in the year, 2006 at Jaipur, (Rajasthan), Global Engineering Corporation, is an ISO - 9001 : 2008 certified company, specialized in manufacturing of a wide gamut of Laboratory Quality Control Instruments. Our assortment consists of Paper Testing Instruments, Pulp Testing Instruments, Packaging Testing Instruments, Surface Coating & Printability Testing Instruments, Environmental Testing Instruments and Hand Made Paper Machines with focus on Process Control Equipments. Manufactured using advanced technology, these are appreciated for their attributes like durable finish standards, high precision efficiency, longer service life and low power consumption. The testing instruments are made according to the applicable international standards viz, TAPPI, ISO, SCAN, DIN, FEFCO & ASTM.

Besides quality assurance, the organization also focuses on different areas to uphold its reputation of being a major player in the market. For this purpose, we have installed a state-of-the-art infrastructure, which enables us to fabricate the machines with advanced technical features like Touch Screen Control Panels, Graphical Presentation of Test Results equipped PLC Controllers & Data Loggers and various others. Such up-gradations and technological innovations are directly accountable to the findings of the research and development department, which constantly and consistently endeavors to improvise the products in their effectiveness and user-friendliness.

The entire organizational business strategies and management policies are customer centric to ensure maximum satisfaction. Among other things, we provide customization facility according to the customers' specifications to meet their particular requirements. Moreover, our products are offered in different sizes, capacities and models for catering to the diverse and voluminous demands of the market.

Infrastructure

Global Engineering Corporation (GEC) has a quite big infrastructure with a covered area of above 6000 sq. feet. with a man power of 42 skilled workers in the factory, 10 service engineers and 30 staff members.

Manufacturing Strength

While breaking all boundaries of manufacturing, beyond imagination GEC manufactures 150 equipments covering the entire range of testing applications for every laboratory associated with the pulp & paper industry.

The manufacturing strength of GEC is developing simultaneously with the rising demand of new testing parameters day by day, the esteemed in-house set up for R&D develops the most advanced testing machines as per the latest requirement of the industry. At last, GEC is considered to be the biggest manufacturer of such equipments within the entire Asia.

Why Us

Apart from the infra structure and wide range of products GEC qualifies to provide prompt on-site after sales services. These services are to be managed by our experienced service engineers which are always available on a single call

We Design, Manufacture & supply the followings with Calibration & Repairing services:-

- Quality Testing Equipments used in Corrugation, Pulp, Paper, Printing, Packaging, Converting, Plastics, Rubber, Textile, Adhesives, Chemicals, Consistency Control, Motorised Basis Weight Valve and others.
- Calibration & Repairing Services with NABL accredited certificate
- AMC Services
- Spare Parts of Testing Equipments i.e. Calibration Foil & Diaphragm etc.

Nature of Business
Manufacturer & Supplier

Number of Employees
25 to 50

Year of Establishment
2006

Major Markets
All Over World

Name of CEO
Mr.M .K. Agarwal

GST No
08AHAPK0066H1ZN

Annual Turnover
Rs. 20 Cr.

Products We Offer

Environment Testing Instruments, Packaging Testing Instruments, Paper Testing Instruments, Printability Testers, Pulp Testing Instruments & Process Control Equipments

Automatic Cobb Sizing Tester

Bendtsen Type Smoothness & Porosity Tester

Brightness and Color Tester

Brightness Opacity & Gloss Tester

Bursting Strength Tester

Bursting Strength Tester For Paper & Paper Board

Circular Sample Cutter

Digital Bursting Strength Tester

Digital Grammage Scale

Digital Thickness Micrometer

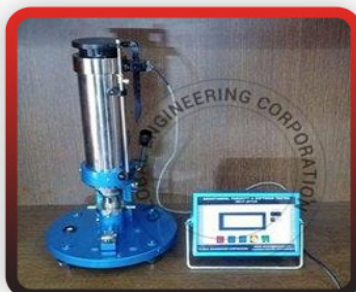

Electronic Laboratory Crush Tester

Electronic Tensile Strength Tester

Electronic Tissue Tensile Tester

Gurley Type Smoothness Porosity & Softness Tester

Hand Wheel Type Bursting Strength Tester For Paper

Horizontal Microprocessor Based Tensile Tester

Internal Ply bond Tester

Klemn Type Water Absorption Tester

Kohler Molin Type Folding Endurance Tester

Oil Penetration Tester

PAPER BALE MOISTURE METER

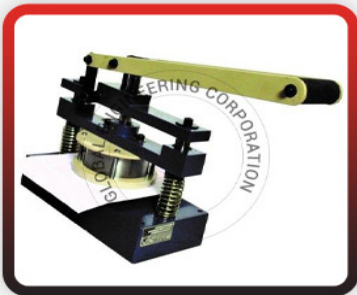

Paper Curl Tester

Paper Surface Oil Absorbency Tester

Pneumatic Clamping Punch & Die Cutter

Punch & Die Type Circular Sample Cutter

Quadrant Scale

Sample Strip Cutter For Tensile Tester

Schopper Type Folding Endurance Tester

Short Span Compression Tester

Smoothness Porosity and Softness Tester

Taber Type Stiffness Tester

Tearing Resistance Tester

Tilting Type Cobb Sizing Tester

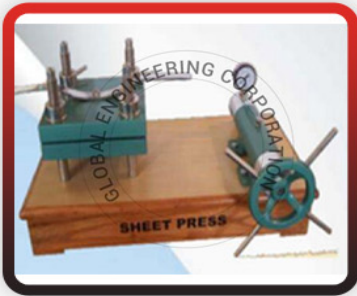

Touch Screen Controlled Stiffness Tester

Touch Screen Controlled Tearing Resistance Tester

Canadian Type Beating & Freeness Tester

Circular Type Hydraulic Controlled Laboratory Sheet Press

Consistency Determination Apparatus

KCL Type Hand Sheet Former

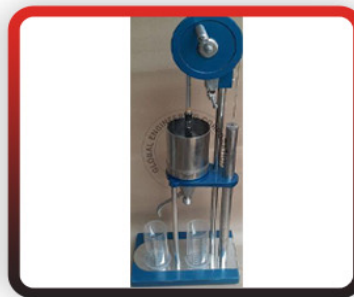

Lab Research Digester

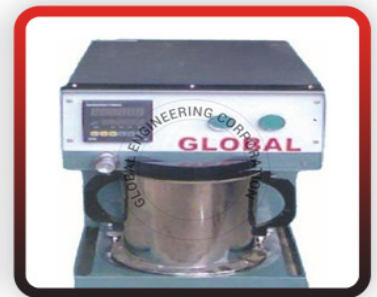

Lab Rotary Digester

Laboratory Wood Chipper

Mechanical Type Beating & Freeness Tester

Pulp Disintegrator

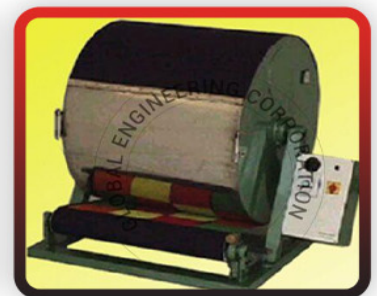

Rapid Sheet Dryer

Semi-Automatic Hand Sheet Former

Sheet Drying Cabinet

Sheet Drying Cylinder

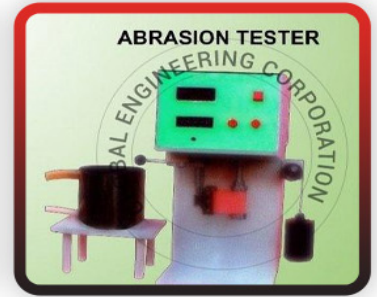

Square Type Pneumatic Controlled Laboratory Sheet Press

Wet Strength Tester

Wood Chip Classifier

Abrasion Tester

Box Compression Tester

Carton Board Creaser

Carton Drop Tester

Concora Medium Fluter

Core Compression Strength Tester

Dart Impact Tester

Package Vibration Testing Table

Paper Bursting Strength Tester

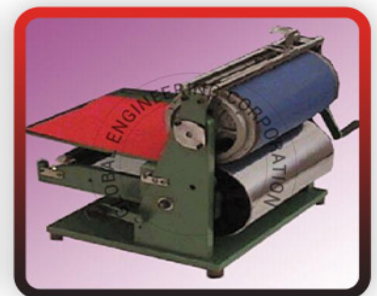

Puncture Resistance Tester

Scuff Tester

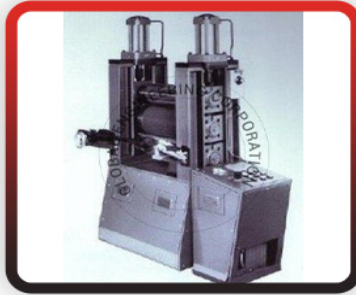

Bar Coater

Fluff Tester

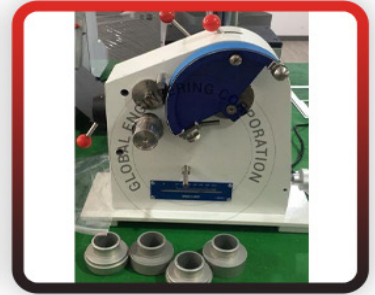

Laboratory Air Knife Coater

Laboratory Calendering Machine

Paper Testing Waxes

Uec Printability Tester

Ash Incinerator

BOD Incubator

Environmental Chamber

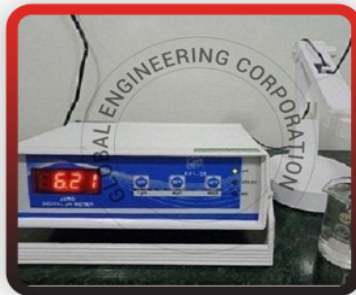

Laboratory Oven

Moisture Meter

Muffle Furnace

PH Meter

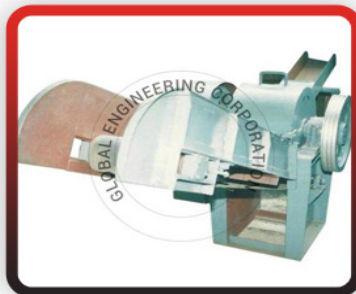

Auto Vat

Calendering Machine

Hollander Beater

Rag Chopper

Screw Press
