ABOUT US

Offering optimum quality HDPE Tank Vessels, Powder Coating Tanks, FRP Blowers, FRP Reactors, etc. that are known for their high strength and durability.

Leveraging upon our 12 years of industrial experience, we, DIVYA INC., are offering high quality Blowers, Polypropylene Tanks, FRP Industrial Tanks, FRP Tank, Powder Coating Tank, FRP Reactor, FRP Motor, Pipes and HDPE Tank Vessels to the customers. In market, we are acknowledged as a reputed manufacturer and supplier of all these products. From the very outset in 2003, we have been fulfilling the customers' demands successfully by offering our top-quality products.

Known for their features like durability, innovative designing, wear resistance and dimensional accuracy, our products are made of high quality materials. Along with the quality tested raw materials, the latest production methods and modern technologies are used to develop the products. After the production, all the manufactured products also go through different quality tests. Our quality experts make sure that products meet the defined quality norms and are excellent in design, size, durability and performance.

It is owing to our quality control methods and production excellence, we are able to roll out a matchless range of products in market. Apart from quality products, clients will also get quality services from us. As a service provider, we undertake job work for Blowers, Pipes, FRP Industrial Tanks, Polypropylene Tanks and several other products.

Our Infrastructure

We have a sophisticated infrastructural set-up that helps us in carrying out our trade activities in a better way. Our factory has warehousing & packaging unit, production unit, administrative department, sales department and quality testing unit. Interconnected with each other, all these departments have the latest machines, tools and equipment. Each department is being managed by our efficient employees who work tirelessly to release optimum quality Cover Fro Blower, Pipes, Polypropylene Tanks and other products in the market.

Our Products

FRP Motor Cover

Material	:	FRP
Thickness	:	3mm
Features	:	High wear resistance, Light weight, Low maintenance
Weight	:	10-20 Kg
Surface Treatment	:	Color Coated
Height	:	Up to 3 feet
MOQ	:	As Per Requirement

FRP Ducting System

Material	:	FRP
Water Absorption	:	0.05-0.06%
Coating Thickness	:	0.40-8.05 mm
Hardness	:	.0mohs
Diameter	:	5-75 mm
Usage	:	Drinking Water, Utilities Water, Chemical Handling
MOQ	:	As Per Requirement

FRP Rainwater Gutter

Shape	:	U Shape
Use	:	Industrial
Thickness	:	3-4 Mm
Length	:	4 To 6 Feet
Material	:	FRP
Surface Finished	:	Polished
MOQ	:	As Per Requirement

FRP Molded Grating

Height	:	38,50 mm
Color	:	Red,Blue
Shape	:	Rectangular
Supported Span	:	750 - 2000 mm
Usage	:	Industrial
Open Area	:	82%
MOQ	:	As Per Requirement

Our Products

PP HDPE Stirrer

Material	:	PP & HDPE
Weight	:	Up to 15 kg
Frequency	:	50HZ
Usage	:	Industries
Contamination	:	100% hmw
Melting Point:	:	126 oC (259 oF)
Density:	:	0.941 - 0.965 g/cm3
MOQ	:	As Per Requirement

PP FRP Reactor

Material	:	FRP
Features	:	Compact design, Easy to use, Precisely engineered
Max Pressure	:	3-6 kg
Finishing	:	Paint Coated
Capacity	:	5000-10000 L
Orientation	:	Vertical
MOQ	:	As Per Requirement

PP FRP Scrubber

Material	:	FRP
Thickness	:	0-5mm
Features	:	Dimensionally accurate, High tensile strength, Low maintenance
Efficiency	:	98%
Particulate Matter Removal	:	70~80%
Surface Finishing	:	Color Coated

FRP Roofing Sheet

Material	:	FRP
Color	:	Multicolor
Finishing	:	Polished
Features	:	Excellent strength, Dimensionally accurate, Corrosion resistance
Fiber Content	:	>25%
Light Transmission	:	60-85%
MOQ	:	As Per Requirement

Our Products

PP FRP Blower

Material	:	FRP
Feature	:	Superior tensile strength, Smooth surface, Leak proof, High weathering resistance
Pressure	:	High Pressure
Power Source	:	Electric Blower
Speed	:	300 rpm to 3000 rpm
Frequency (Hz)	:	50/60Hz

PP FRP Pipe

Material	:	FRP
Shape	:	Round
Size	:	Available in Various Sizes and Models
Application	:	Different Industries such as Pharmaceutical, Textile and Chemical
Pressure	:	PN 3 - PN 30 Kg/cm2
Thickness	:	1-10 mm
MOQ	:	As Per Requirement

PP Battery Charging Tub

Voltage	:	220V
Automatic Grade	:	Automatic
Power	:	3-6kw
Storage Capacity	:	2000L
Wall Thickness	:	Up to 40mm
Material	:	PP
MOQ	:	As Per Requirement

HDPE Tank

Material	:	HDPE
Shape	:	Round
Color	:	Black, White
Capacity	:	1000-5000L
Surface Finishing	:	Coated
Features	:	Corrosion resistance, Compact design, Fine finish
MOQ	:	As Per Requirement

Our Products

PP Tank

Material	:	Polypropylene
Shape	:	Horizontal
Color	:	White
Capacity	:	100-200L
Melting Point	:	208 (98) Deg F (deg C)
Features	:	Sturdy construction, Easy to maintain, High storage capacity
MOQ	:	As Per Requirement

PP FRP Tank

Material	:	FRP, PP
Application	:	Storage Use
Color	:	Blue, Green
Capacity	:	500-1000L
Surface Finishing	:	Coated
Features	:	High storage capacity, Robust construction, Leak proof
MOQ	:	As Per Requirement

PP FRP Anodizing Tank

Material	:	FRP
Shape	:	Horizontal
Application	:	Storage Use
Color	:	Blue, Green
Surface Finishing	:	Coated
Features	:	Superior surface finish, Leak proof, Light weight
MOQ	:	As Per Requirement

PP Settling Tank

Material	:	PP
Shape	:	Horizontal
Color	:	Grey
Capacity	:	500-1000L
Surface Finishing	:	Coated
Storage Material	:	Oil, Liquid
MOQ	:	As Per Requirement

Our Products

PP FRP Pickling Tank

Material	:	FRP
Shape	:	Horizontal
Color	:	White
Capacity	:	500-1000L
Surface Finishing	:	Coated
Features	:	Completely Integrated, Heat Resistance, Highly Reliable
MOQ	:	As Per Requirement

PP FRP Power Coating Tank

Material	:	FRP
Shape	:	Horizontal
Application	:	Storage Use
Color	:	Blue, Green
Capacity	:	500-1000L
Surface Finishing	:	Coated
Features	:	Superior surface finish, Leak proof, Light weight
MOQ	:	As Per Requirement
