Astron Concrete Products, established in 2014 by Mr. Ulahannan K, is a leading manufacturer, exporter, and supplier of high-quality concrete spacers based in Ernakulam, Kerala. We are dedicated to providing construction professionals with the essential tools to ensure the structural integrity and longevity of their projects.

At Astron Concrete Products, quality is paramount. We source premium raw materials and employ rigorous manufacturing processes to guarantee the exceptional performance of our concrete spacers. Each spacer undergoes strict quality control checks to ensure consistent strength, durability, and dimensional accuracy.

We understand that construction projects require a variety of solutions. Astron Concrete Products offers a comprehensive range of concrete spacer sizes to cater to your specific needs. From the commonly used 20mm spacer to the heavy-duty 100mm spacer, we have the right spacer to ensure proper concrete cover for your reinforcement bars.

We are constantly innovating and improving our products to meet the evolving demands of the construction industry. Our commitment to efficiency extends beyond production. We offer streamlined ordering processes and prompt delivery to ensure your projects stay on schedule.

In addition to our core range of concrete spacers, we offer Astron Concrete Spacers with Clips for added reinforcement and stability. We also provide the Astron Multiple Concrete Spacer, a versatile solution for projects requiring multiple spacer placements.
