Leaf for Life

Quality Assurance

- We provide an assurance to the widely spread clients in the form of our KVAAS Henna. The Henna (mehendi) is ground in the stone mill in Rajasthan Factory with the help of Heena leaves in powder base. We then send it to the Factory to mix it with 10 selected herbs that are collected from different parts of India. Our Natural Product is tested on several quality parameters before being dispatched in the market.

HENNA LEAVES

- We have emerged as the eminent Manufacturer and Supplier of an astonishing collection of **Henna Leaves**. The range is extensively used as dyes for skin and hair and the range can also be used in the production of dyes, hair colors and shampoos. These leaves are offered in packets of various sizes to meet the application requirements of our valued clients. Our clients can also avail the range at market leading prices.

NATURAL HENNA POWDER

- Herbal Henna Powder made from pure herbal leaves and rare Indian herbs used for hair conditioning and treatments. Regular use of herbal henna naturally conditions hair and gives strength and shine to the hair. Medicinal value of Henna and other ingredients take care of all scalp disorders. It acts as hair vitalizer and helps hair growth and health.
- Henna powder in its pure and natural form is a bright or deep green, khaki or brown. The color produced by pure natural henna ranges from orange to red, to black cherry and near black color. Henna powder quality produced by our company is determined by its color, purity, its dyeing property & fineness. Our herbal henna is the most common and user friendly way to color hair.

INDIGO HENNA POWDER

- Its botanical name is 'Fera Tinctoria'. It is hundred per cent pure herbal leaves that give deep blue color. In some countries it is called 'Wasma' (Arabic & Urdu). Typically Indigo plant is seen one to two meters long. When it is used for staining, it gives deep green color till 24 hours, after 24 hours it converts into deep blue. Indigo normally forming is done for a medical and fabric dyes.

NEUTRAL HENNA POWDER

- We hold expertise in making **Neutral Henna Powder** that is colorless henna. The Neutral Henna Powder, also known as cassia obovata, is made from pure henna leaves of different quality and neutralized chemicals. Neutral Henna Powder gives little or no coloring effect. Neutral Henna Powder is used for hair conditioning and gives a natural shine & luster to hair. Safe and free from any side effect, our Neutral Henna Powder is widely used by those people who desire to benefit from the medicinal uses of henna but do not want to color the hair.

Benefits Of Using Neutral Henna Powder : Neutral Henna is the colorless henna. Actually neutral henna is a conditioner to nourish hairs and specially scalp. Neutral henna is 100% useful in scalp problems like: fungal infections, dandruff, etc. Neutral henna gives no color after application that's why called neutral henna. This neutral henna powder prevents the hair fall, and acts as a wonderful hair conditioner. Colorless Henna is also known as Neutral Henna, it does not color your hair but it gives all other benefits of henna to your hair..
