ABOUT US

Operating from the National Capital Territory of India - Delhi, Hindustan Plywood Co. (Regd.) is one of the oldest & well-established names in the industry. Hindustan Plywood Co. (Regd.) commenced operations in 1963 as a supplier of all kinds of plywood & wood-based panel products. It slowly garnered reputation as a reliable supplier/vendor to most leading builders, building contractors & interior decorators. Value-added products like shuttering, marine grade & new wood based panels like single & multi-layered wood particle boards were their forte. With the evolving market trends & the growing need for air-conditioned environments in institutional, and later residential buildings, false ceilings became a norm. This led to addition of Gypsum Plaster Boards to the offerings of Hindustan Plywood Co. (Regd.) when it was introduced in the Indian markets in 1980's. This led to the development of a new line of business wherein they gradually shifted to marketing & distributing revolutionizing building panels made from green & environment-friendly raw materials. Their product mix now comprises materials for false ceilings, wall lining & drywall systems like gypsum boards, fiber-cement boards, calcium silicate boards, fiber-cement decorative panels & ceiling tiles, light weight calcium silicate ceiling tiles, GRG ceiling tiles, composite wall panels, etc."

Our Team

Working in the industry for more than five decades, we have been able to hire a reliable group of some of the most experienced, diligent, and deft professionals. All these professionals are properly coordinated so that a consistent quality variety of products can be delivered in absolute compliance with the clients' specifications.
