

Gokul Traders

Gokul Traders was established in 1986 with an aim to provide customers the products they need when they need with amazing ease and economy. Precision is our passion and JIT – Just In Time is our mantra. We have been giving our customers excellent quality products and reliable pre and post sales service over all these years.

Global industrial scenario is dynamic and ever changing. Industrial mass production tools requirements are also changing with new production methods. Quality tools are a trusted partner in building and realizing a company's potential to excel.

About Us

Gokul Traders was established in 1986 with an aim to provide customers the products they need when they need with amazing ease and economy. Precision is our passion and JIT – Just In Time is our mantra. We have been giving our customers excellent quality products and reliable pre and post sales service over all these years.

Global industrial scenario is dynamic and ever changing. Industrial mass production tools requirements are also changing with new production methods. Quality tools are a trusted partner in building and realizing a company's potential to excel.

We at Gokul Traders offer our customers a wide range of specialty tools and equipment that meet requirement of demanding work. All these equipments, instruments and product are procured from leading manufacturers and are calibrated in standard laboratories, trusted for high precision for years together by the customers the world over.

OUR LEGACY

Laddha Group, established in 1932 comprises various business ventures ranging from textile, grocery, construction, MS profile cutting, etc. The group has built trust through commitment to its customers' total satisfaction. Fulfilling their requirements of present and future. Whenever a customer is dealing with Gokul Traders he is dealing with a group company with a solid foundation of reliability and ethical business practices.

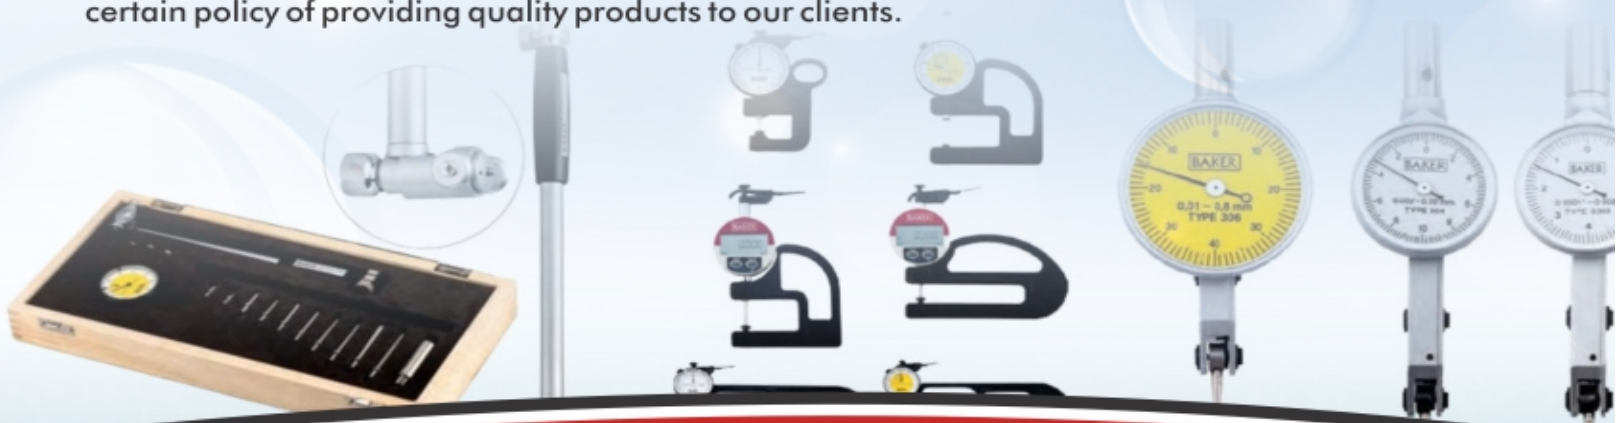

INFRASTRUCTURE FACILITY

Our organization is supported with a state-of-the-art infrastructure facility, which is spread across a wide area. This unit consists of sophisticated warehousing and packaging unit. Our warehousing unit is managed by a team of experienced inventory managers who keep all the records of inventory to avoid any confusion.

This unit also helps us to meet the bulk demand of our clients within the committed time frame. Furthermore, our packaging unit also helps us to provide quality packaging of products to our clients.

QUALITY ASSURANCE

We offer quality products to our clients. We are able to maintain the efficiency and quality of the services and attain clients across globe. We use advance technologies and meet the specifications of the clients. We are employed with a team of quality testers who supervise each stage of our business and ensure us to offer a comprehensive range to the customers. Our organization follows certain policy of providing quality products to our clients.
