UPC Instruments Pvt. Ltd. is a trusted **Manufacturer, Supplier, and Exporter** of high-quality flow measurement and process control solutions, established in **2013** under the leadership of **Mr. Ajay Sharma**. With a strong focus on **innovation, precision, and reliability**, we cater to diverse industrial sectors including **water treatment, oil & gas, chemical, power, and process industries**.

We specialize in a wide range of **Flow Measurement Instruments**, including **electromagnetic flow meters, ultrasonic flow meters, turbine flow meters, vortex flow meters, and oval gear flow meters**, designed to deliver **accurate and consistent performance** in demanding environments. Our portfolio also includes advanced **Actuated Valve Systems**, such as **electric and pneumatic actuated ball and butterfly valves**, ensuring efficient flow control automation.

In addition, we offer robust **Strainers & Filtration Units, Steam & Trap Systems, and Check & NRV Valves**, engineered for **durability and optimal system protection**. Our expertise extends to **Industrial Control Valves, Water Quality Analyzers, and Level Measurement Systems**, supporting precise process monitoring and control.

We also provide reliable **Water Metering Solutions and Chemical Dosing Pumps**, enabling accurate **fluid management and dosing applications** across industries. Our commitment to **quality standards, customer satisfaction, and continuous improvement** has helped us build a strong reputation in both **domestic and international markets**.

At UPC Instruments, we aim to **deliver cost-effective, technologically advanced, and customized solutions** that meet the evolving needs of modern industries while ensuring **efficiency, safety, and sustainability**.
