

## TGI Coffee Grinder

Having 10 inch emery stone plate grinding, cost iron body and outer body panel are fabricated in M.S sheet metal and L angles, capacity is 15 kg to 20 kg per hour.

With electrical motor 1.5 HP Single phase

**Emery stone:** The Grinder stones are of the best quality and possess the great advantage that they retain their unique grinding power to the end and they are almost everlasting.

The Grinders are provided with heavy, dust proof ball bearings to facilitate very smooth running. The Grinders have single outlets, The clearance between the stones can be instantaneously increased by the disengaging lever to prevent stalling of the Grinder's due to overload.

The rotary stone in the TGI Grinder, unlike in the most other types of grinders, is placed between the two bearings, which gives the stone the best support.

### TGI - G10

Size	Required hp	R.P.M.	Average Production / Hour	Pulley Size (mm)
250mm (10")	1.5	600 to 700	15 to 20kg.	300 x 75

**Emery Stone:**

## TGI Coffee Grinder

Model TGI-25-R3 is industry disc type coffee grinder, best coffee shop, with desired size, easy adjustment, body diameter is 220 mm with steel cover and hard chrome steel discs sharp cutting edges which gives fine and uniform chopping action.

**TGI -25-R3**

### Technical Specification

#### Model-TGI-25-R3

1	Power of Motor	½ HP
2	Voltage	220V, 50Hz
3	Out put capacity	25 kg/H
<b>Equipments</b>		
1	Main Housing	Aluminum Body
2	Burr Disk	Chrome Steel
3	Table	Steel
4	Hopper with gate	1.5 Ltr Capacity
5	Adjustable dial	1 to 10
6	Product Temperature sensor	no
7	Overall weight of the machine	18 Kgs

**TGI QG-100-R4**

## TGI Coffee Grinder

Model QG-100-R4 is industry disc type coffee grinder, runs continuously with consistence superior grade out put, with desired size, easy adjustment, body diameter is 220 mm with cast iron body, and hard chrome steel discs sharp cutting edges which gives fine and uniform chopping action.

### Technical Specification

#### Model-TGI-25-R3

1	Power of Motor	1 HP
2	Voltage	220V, 50Hz
3	Out put capacity	100 kg/H

### Equipments

1	Main Housing	Cast iron G25-Body
2	Burr Disk	Chrome Steel
3	Table	Steel
4	Hopper with gate	3 Ltr Capacity
5	Adjustable dial	1 to 10
6	Product Temperature sensor	no
7	Overall weight of the machine	45Kgs

**TGI QG-450-R5**

## TGI Coffee Grinder

Coffee Grinder QG-450-R5 (New technology)

Model QG-450-R5 is industry disc type coffee grinder, runs continuously with consistence superior grade out put, with desired size, easy adjustment, body diameter is 350 mm with cast iron body, and hard chrome steel discs sharp cutting edges which gives fine and uniform chopping action.

### Technical Specification

#### Model-QG-450-R5

1	Power of Motor	5 HP
2	Voltage	415V, 50Hz
3	Out put capacity	450 kg/H
<b>Equipments</b>		
1	Main Housing	Cat Iron
2	Burr Disk	Chrome Steel
3	Table	Steel Fabricated
4	Hopper with gate	25 Ltr Capacity
5	Adjustable dial	1 to 10
6	Product Temperature sensor	no
7	Overall weight of the machine	150Kgs
